CIMB Bank Berhad

(Incorporated in Malaysia)

Directors' Report for the financial year ended 31 December 2024

The Directors have pleasure in submitting their Report and the audited Financial Statements of the Group and CIMB Bank Berhad ("CIMB Bank" or "the Bank") for the financial year ended 31 December 2024.

Principal activities

The principal activities of the Bank during the financial year are commercial banking and the provision of related financial services, including Islamic banking. The principal activities of the significant subsidiaries as set out in Note 16 to the Financial Statements, consist of Islamic banking, offshore banking, debt factoring, trustees and nominee services, and property ownership and management. There was no significant change in the nature of these activities during the financial year.

Financial results

	The Group	The Bank
	RM'000	RM'000
Profit after taxation and zakat attributable to:		
- Owners of the Parent	6,054,377	4,400,608
- Non-controlling interests	21,496	-
	<u>6,075,873</u>	<u>4,400,608</u>

CIMB Bank Berhad

(Incorporated in Malaysia)

Directors' Report for the financial year ended 31 December 2024 (Continued)

Dividends

The dividends on ordinary shares paid or declared by the Bank since 31 December 2023 are as follow:

	RM'000
In respect of the financial year ended 31 December 2023:	
Single tier 2nd interim dividend of 26.10 sen per ordinary share, paid on 15 March 2024	<u>1,693,307</u>
In respect of the financial year ended 31 December 2023:	
Single tier special dividend of 23.12 sen per ordinary share, settled on 15 March 2024	<u>1,499,972</u>
In respect of the financial year ended 31 December 2024:	
Single tier 1st interim dividend of 27.90 sen per ordinary share, paid on 12 September 2024	<u>1,876,939</u>

The Directors have proposed a single tier second interim dividend of approximately 24.40 sen per share on 6,727,379,733 ordinary shares, amounting to RM1,641 million in respect of the financial year ended 31 December 2024. The single tier second interim dividend was approved by the Board of Directors in a resolution dated 27 January 2025.

The Financial Statements for the current financial year do not reflect this proposed second interim dividend. The dividend will be accounted in equity as an appropriation of retained earnings in the next financial year.

The Directors do not recommend the payment of any final dividend on ordinary shares or Redeemable Preference Shares for the financial year ended 31 December 2024.

CIMB Bank Berhad

(Incorporated in Malaysia)

Directors' Report for the financial year ended 31 December 2024 (Continued)

Reserves, provisions and allowances

There were no material transfers to or from reserves or provisions or allowances during the financial year other than those disclosed in the Financial Statements and Notes to the Financial Statements.

Issuance of shares

On 15 March 2024, the Bank distributed RM1,500 million in special dividends, settled via the issuance of 239,612,121 new shares at RM6.26 per share. The issuance resulted in a RM1,500 million increase in ordinary shares.

Bad and doubtful debts, and financing

Before the Financial Statements of the Group and of the Bank were prepared, the Directors took reasonable steps to ascertain that proper action had been taken in relation to the writing off of bad debts and financing and the making of allowance for doubtful debts and financing, and satisfied themselves that all known bad debts and financing had been written off and that adequate allowance had been made for doubtful debts and financing.

At the date of this Report, the Directors are not aware of any circumstances which would render the amounts written off for bad debts and financing, or the amount of the allowance for doubtful debts and financing in the Financial Statements of the Group and of the Bank, inadequate to any substantial extent.

Current assets

Before the Financial Statements of the Group and of the Bank were prepared, the Directors took reasonable steps to ascertain that any current assets, other than debts and financing, which were unlikely to realise in the ordinary course of business, including the values of current assets as shown in the accounting records of the Group and of the Bank, had been written down to an amount which the current assets might be expected so to realise.

At the date of this Report, the Directors are not aware of any circumstances which would render the values attributed to current assets in the Financial Statements of the Group and of the Bank misleading.

CIMB Bank Berhad

(Incorporated in Malaysia)

Directors' Report for the financial year ended 31 December 2024 (Continued)

Valuation methods

At the date of this Report, the Directors are not aware of any circumstances which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and of the Bank misleading or inappropriate.

Contingent and other liabilities

At the date of this Report, there does not exist:

- (a) any charge on the assets of the Group or the Bank which has arisen since the end of the financial year which secures the liability of any other person; or
- (b) any contingent liability of the Group or the Bank which has arisen since the end of the financial year other than in the ordinary course of banking business.

No contingent or other liability in the Group or the Bank has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Bank and its subsidiaries to meet their obligations when they fall due.

Change of circumstances

At the date of this Report, the Directors are not aware of any circumstances not otherwise dealt with in this Report or the Financial Statements of the Group and of the Bank, that would render any amount stated in the Financial Statements misleading.

Items of an unusual nature

In the opinion of the Directors:

- (a) the results of the Group's and the Bank's operations for the financial year have not been substantially affected by any item, transaction or event of a material and unusual nature other than those disclosed in Note 53.1 to the Financial Statements; and
- (b) there has not arisen in the interval between the end of the financial year and the date of this Report any item, transaction or event of a material and unusual nature likely to affect substantially the results of the operations of the Group or the Bank for the financial year in which this Report is made other than those disclosed in Note 53.2 to the Financial Statements.

Directors' interests in shares, share options and debentures (Continued)

Long Term Incentive Plan ("LTIP")

The Group implemented a Long Term Incentive Plan ("LTIP") on 9 June 2021, which was approved by the shareholders at the Extraordinary General Meeting held on 15 April 2021. The LTIP is governed by the LTIP by-laws and is administered by the LTIP Committee.

The LTIP is awarded to employees who hold senior management positions and key roles within the CIMB Group and its subsidiary companies, and who fulfill the eligibility criteria and have been approved for participation by the LTIP Committee. Any LTIP awards made to Executive Directors (or any persons connected to the directors) is subject to the approval of the shareholders at a general meeting. Total awards under the LTIP is subject to a maximum of 2.5% of issued ordinary shares of CIMB Group Holdings Berhad.

The LTIP, which is valid for 7 years from the implementation date, comprises of 2 performance-based plans – the Employee Share Option Scheme ("ESOS") and the Share Grant Plan ("SGP").

- The ESOS is a share option scheme with a premium on the exercise price, where vesting is subject to service conditions. The LTIP Committee may, at any time within the duration of the LTIP, grant an ESOS award to eligible employees, subject to the terms and conditions of the by-laws. The ESOS shares may be settled through issuance and transfer of new shares, or other modes of settlement as provided by the by-laws.
- The SGP is a restricted share unit scheme where vesting is subject to service and performance conditions (based on return on equity targets and individual performance), and the LTIP Committee may, at any time within the duration of the LTIP, grant an SGP award to eligible employees, subject to the terms and conditions of the by-laws. The SGP shares may be settled through issuance and transfer of new shares, or other modes of settlement as provided by the by-laws.

Details of LTIP are as set out in Note 45(g) to the Financial Statements.

Directors' benefits

Since the end of the previous financial year, no Director of the Bank has received or become entitled to receive any benefit (other than the benefits included in the aggregate amount of emoluments received or due and receivable by Directors shown in Note 46 to the Financial Statements or the fixed salary as a full time employee of the Bank) by reason of a contract made by the Bank or a related corporation with the Director or with a firm of which the Director is a member, or with a company in which the Director has a substantial financial interest.

Neither at the end of the financial year, nor at any time during the financial year, did there subsist any other arrangements to which the Bank is a party, with the object or objects of enabling Directors of the Bank to acquire benefits by means of the acquisition of shares in, or debentures of, the Bank or any other body corporate, other than the Management Equity Scheme, Equity Ownership Plan and Long Term Incentive Plan of the ultimate holding company (shown in Note 45 to the Financial Statements) as disclosed in this Report.

Subsidiaries

(a) Details of subsidiaries

Details of subsidiaries are as set out in Note 16 to the Financial Statements.

(b) Subsidiaries' holding of shares in other related corporations

Details of subsidiaries' holding of shares in other related corporations are as set out in Note 16 to the Financial Statements.

Auditors' Remuneration

Auditors' remuneration of the Group and the Bank are RM14,761,000 and RM11,080,000 respectively. Details of auditors' remuneration are as set out in Note 42 to the Financial Statements.

2024 Business Plan and Strategy

In 2024, we maintained a cautious outlook in line with the tapering of global economic growth, driven by spread compression, weaker investment environment, and macro headwinds. Our businesses continue to drive Forward23+ strategic plan in the areas of loans & CASA growth, RAROC optimization, Preferred Banking & wealth management while prudently managing costs to ensure operational efficiency.

We placed heightened emphasis on digital proliferation, focusing on operational digitalization, product offerings, sales enablement, and acquisition to ensure that the growth of the franchise is sustainable for the future. We have also intensified efforts around operational resiliency by addressing key areas such as structure, governance, processes, and controls to strengthen our risk management capabilities and improve credit conditions.

Our commitment to sustainability remains unwavering, with multiple initiatives dedicated to promoting sustainable products and services across markets. Support has been provided to the customers impacted by floods through a flood relief program during the year as well.

The Group registered a profit before taxation and zakat of RM7,873 million for the financial year ended 31 December 2024, RM852 million or 12.1% higher as compared to the profit before taxation and zakat of RM7,021 million registered in the previous corresponding year.

During the financial year under review, the Group registered higher net interest income (after modification loss), income from Islamic banking operations and net non-interest income by RM546 million, RM408 million and RM643 million respectively, offset by higher overhead and expected credit losses by RM599 million and RM151 million respectively.

The two main operating subsidiaries of the Bank are CIMB Islamic Bank Berhad and CIMB Thai Bank Public Company Limited ("CIMB Thai"). Their total assets contributed approximately 26.7% (2023: 25.4%) and 10.4% (2023: 10.8%) respectively to the Bank consolidated total assets and their profit before taxation and zakat contributed approximately 20.6% (2023: 17.1%) and 5.9% (2023: 3.6%) to the Bank's consolidated profit before taxation.

CIMB Bank Berhad

(Incorporated in Malaysia)

Directors' Report for the financial year ended 31 December 2024 (Continued)

Outlook for 2025

The Bank will continue to adopt a cautious stance in 2025 due to persistent external headwinds and volatility. The geopolitical shifts over the past year may lead to potential policy and economic changes, along with continued concerns on global inflation and GDP. Nevertheless, ASEAN economies remain resilient underpinned by robust domestic consumption and broader structural growth, which should help mitigate the impact of global uncertainties.

The Bank's direction will be guided by the new strategic plan with a focus on delivering sustainable shareholder returns via reallocation and optimisation of capital and resources, building a stronger CASA franchise, deepening cross-selling activities, enhancing our capabilities with a focus on investing in people and technology, whilst advancing the sustainability agenda.

The Bank's core financial performance is expected to maintain a positive trajectory in 2025 in tandem with prudent asset quality and credit risk management, net interest margin (NIM) prioritisation, driving non-interest income (NOII) expansion and stringent cost management. The Bank's performance is underpinned mainly by the financial results of CIMB Malaysia, CIMB Singapore and CIMB Thai. CIMB Malaysia's performance is expected to track the country's positive economic and investment momentum, with focus on preserving NIM and accelerating digital delivery. CIMB Singapore is expected to sustain its 2024 performance, with CIMB Thai will continue to capitalise on the ASEAN network flows and transform its consumer finance operations.

Board Shariah Committee

Pursuant to the enterprise wide Shariah governance framework as provided by Bank Negara Malaysia in its Policy Document on Shariah Governance and the Islamic Financial Services Act 2013, the Board of Directors (the "Board") is ultimately responsible and accountable for the oversight and management of Shariah matters in the Bank's Islamic banking and finance operations as well as those Islamic business undertaken under its subsidiaries or Islamic banking window that it has management control. In undertaking its duties and responsibilities relating to Shariah, the Board relies on the advice of the Board Shariah Committee ("BSC") of CIMB Group as established under CIMB Islamic Bank Berhad ("CIMB Islamic"), the core Islamic banking and finance operating entity of the Group.

The main responsibility of the BSC is to assist the Board in the oversight and management of all Shariah matters relating to the Islamic banking and finance business of the Bank and its subsidiaries or Islamic banking window that it has management control. The BSC operates on the authority as delegated and empowered to it by the Board and as attributed to it under relevant financial regulations and legislations.

All decisions by the Board on Shariah matters relating to the Islamic banking and finance business of the Bank and its subsidiaries or Islamic banking window shall be made based on the decisions, views and opinions of the BSC.

In due regard to the decisions and advice of the BSC on Shariah matters, the Board shall give sufficient attention to the facts and basis for the Shariah decisions as well as providing fair consideration to the implications of implementing the Shariah decisions made by the BSC.

Any decision of the Board on Shariah matter shall be made based on the final decisions, views and opinions of the BSC. All decisions of the Board and the BSC on Shariah matters shall at all times be subordinated to the decision of the Shariah Advisory Council of the relevant Malaysian financial regulators and shall take into consideration the relevant authority on Shariah matters in the relevant jurisdiction it is doing business.

The BSC shall at all times advise the Board to ensure that the Group's Islamic banking and finance business does not have elements or activities which are not permissible under Shariah.

The BSC members are as follows:

1. Associate Professor Dr. Mohamed Fairouz Abdul Khir (Chairman)
2. Professor Dr. Aishath Muneeza
3. Dr. Ahmad Sufian Che Abdullah
4. Dr. Mohammad Mahbubi Ali
5. En. Jalalullail Othman

CIMB Bank Berhad

(Incorporated in Malaysia)

Directors' Report for the financial year ended 31 December 2024 (Continued)

Board Shariah Committee (Continued)

The Board hereby affirms that based on advice of the BSC, the operations of the Bank and its subsidiaries or Islamic banking window that it has management control in has been done in a manner that does not contradict with Shariah save and except for those that have been specifically disclosed in this financial report (if any). This affirmation by the Board is independently verified and confirmed by the BSC in a separate BSC Report made herein.

Meetings and Attendance

BSC convened 10 meetings during the financial year 2024 including two special meetings to cater for urgent business proposals. All BSC members have satisfied the minimum 75% attendance requirement under BNM Shariah Governance Policy Document.

Board Engagement and Trainings Attended

As part of the initiatives to strengthen the good governance and oversight function of the Board over Shariah matters, the following activities were carried out in 2024:

- Two Joint Board and BSC meetings were held in April and November 2024 respectively. The first meeting was held on 15 April 2024 deliberated the following topic:
 - (i) BNM's Hajah Darurah Policy Document
 - (ii) Application of Securities Commission Maqasid al-Shariah Guidance in Sukuk Pronouncement by CIMB Islamic
 - (iii) BNM Submission on Assessment Survey – Way Forward to Resolve Ujrah-based Credit Card-i Issues. While the second Joint Board and BSC meeting held on 20 November 2024 discussed on Shariah Non-Compliant (“SNC”) Risk Horizon and Shariah Compliance Culture.
- Management had invited Prof. Dr. Younes Soualhi, Senior Researcher from ISRA and lecturer from INCEIF to deliver a training on Scholars View of Tayyib Concept : Discussion Paper.
- In addition, BSC had also organized an Off-Site Meeting and discussed on i-Shares, Voluntary Carbon Credit, and Waqf-linked Sukuk.

As guided by Securities Commission's Guidelines for Shariah Advisers, BSC members had fulfilled with the minimum three SIDC's CPE approved courses on capital market during the financial year 2024.

CIMB Bank Berhad

(Incorporated in Malaysia)

Directors' Report for the financial year ended 31 December 2024 (Continued)

Board Shariah Committee (Continued)

Among the training programs provided by SIDC which qualify for CPE points attended by BSC members were as follow:

- Insights into Securities Commission Malaysia's Maqasid Al-Shariah Guidance
- Cybersecurity and Data Privacy - The Fight Against Financial Crime
- Assets & Funds Management (SCLE Revision Module 10)
- Capital Market Director Programme ("CMDP") Module 1: Directors as Gatekeepers of Market
- Capital Market Director Programme ("CMDP") Module 2B: Business Challenges and Regulatory Expectations - What Directors Need to Know (Fund Management)

In addition to the above training programs, the BSC members also attended and participated in the following events and training:

- 2nd Nadwah of Shariah advisers in Islamic Capital Market (2024)
- Muzakarah Penasihat Syariah 2024
- The 5th International Shariah Scholars Roundtable
- 19th International Shariah Scholars Forum
- Muzakarah on Failure Resolution of Islamic Banks, PIDM
- CIIF Chartered Fast-Track Masterclass ("CFM")
- Joint Board for Group Sustainability

BSC Assessment

In compliance with BNM Shariah Governance Policy Document, the BSC undergoes the process of assessing the effectiveness of each individual BSC members and the committee as a whole annually.

Pursuant to CIMB's Annual Evaluation Manual and BNM's Corporate Governance Policy Document, CIMB is to obtain an independent perspective on the Board's effectiveness to gain insights on the Board's performance against peer Boards and best practices, once every three years. While BSC Effectiveness Assessment ("BEA") is facilitated annually by Group Company Secretarial and assisted by Secretariat of Board Shariah Committee ("BSC Secretariat") as per the CIMB Group Annual Evaluation Manual where it was conducted in 2024.

Board Shariah Committee (Continued)

Zakat obligations

CIMB Islamic pays business zakat by adopting the Adjusted Growth Method to state zakat authorities in line with the methodology approved by the BSC. However, the amount payable by the CIMB Islamic is at the discretion of the management of CIMB Islamic and it is the shareholder's responsibility to ensure that their own zakat obligations are fulfilled in relation to their ownership of the share.

The obligation and responsibility for specific payment of zakat on depositors fund lies with its Muslim customers only. The aforesaid is subject to the jurisdictional requirements on zakat payment as may be applicable from time to time on the Bank and its subsidiaries arising from changes to local legislation, regulation, law or market convention as the case may be. Accrual of zakat expenses (if any) in the Financial Statements of the Group is reflective of this.

The beneficiaries of the zakat fund are determined by relevant internal CIMB policy and procedure and guideline as approved by the BSC.

Significant events during the financial year

Significant events during the financial year are disclosed in Note 53.1 to the Financial Statements.

Subsequent event after the financial year end

Significant event after the financial year is disclosed in Note 53.2 to the Financial Statements.

CIMB Bank Berhad

Directors' Report for the financial year ended 31 December 2024 (Continued)

Statement of Directors' Responsibility

In preparing the Financial Statements, the Directors have ensured that Malaysian Financial Reporting Standards ("MFRS"), International Financial Reporting Standards ("IFRS"), and the requirements of the Companies Act 2016 have been complied with and reasonable and prudent judgements and estimates have been made.

It is the responsibility of the Directors to ensure that the Financial Statements of the Group and the Bank present a true and fair view of the financial position of the Group and of the Bank as at 31 December 2024 and financial performance of the Group and of the Bank for the financial year ended 31 December 2024.

The Financial Statements are prepared on a going concern basis and the Directors have ensured that proper accounting records are kept so as to enable the preparation of the Financial Statements with reasonable accuracy.

The Directors have also overall responsibilities for taking such steps as are reasonably open to them to safeguard the assets of the Group and the Bank and for the implementation and continued operation of adequate accounting and internal control systems for the prevention and detection of fraud and other irregularities. The system of internal controls is designed to provide reasonable and not absolute assurance for achieving certain internal control standards and helps the Group and the Bank manage the risk of failure to achieve business.

The Statement by Directors pursuant to Section 251(2) of the Companies Act 2016 is set out on page 23 of the Directors' Report.

CIMB Bank Berhad

(Incorporated in Malaysia)

Board Shariah Committee's Report

In the name of Allah, the Most Beneficent, the Most Merciful.

We, the members of the CIMB Group Board Shariah Committee (“BSC”) as established under CIMB Islamic are responsible to advise the Board in the oversight and management of Shariah matters in the operation of the Bank. Although the Board is ultimately responsible and accountable for all Shariah matters under the Bank, the Board relies on our independent advice on the same.

Our main responsibility and accountability is to assist the Board in ensuring that the Bank's Islamic banking and finance businesses do not have elements or activities which are not permissible under Shariah. In undertaking our duties we shall follow and adhere to the decisions, views and opinions of the Shariah Advisory Council of the relevant Malaysian financial regulators for businesses undertaken in Malaysia and for businesses outside Malaysia. We shall take into consideration the decisions, views and opinions of the relevant authority on Shariah matters (if any, sanctioned by law or regulation to be followed by the Bank) in the relevant jurisdiction that the Bank is doing business.

As members of the BSC, we are responsible for providing an independent assessment and confirmation in this financial report that the Islamic banking and finance operations of the Bank has been done in conformity with Shariah as has been decided and opined by us and with those Notices, Rules, Standards, Guidelines and Frameworks on Shariah matters as announced and implemented by Malaysian regulators and where relevant by the financial regulators in the relevant jurisdictions that the Bank's businesses were undertaken during the period being reported.

Our independent assessment and confirmation has been used as the basis for the Board's affirmation of the same in the Director's Report herein before.

CIMB Bank Berhad

(Incorporated in Malaysia)

Board Shariah Committee's Report (Continued)

In making our independent assessment and confirmation, we have always recognised the importance of the Bank maintaining and reinforcing the highest possible standards of conduct in all of its actions, including the preparation and dissemination of statements presenting fairly the Shariah compliant status of its Islamic banking and finance businesses.

In this regard, sufficient internal controls are in place to ensure that any new Islamic financial transaction is properly authorised; the Bank's assets and liabilities under its statements of financial position are safeguarded against possible Shariah non-compliance; and, that the day to day conduct of its operations does not contradict with Shariah principles.

In addition to the necessary policies and procedures, the Bank has a well-defined division of responsibility by Management and the communication of Shariah policies and guidelines of business conduct to all staff.

Effective Shariah governance is supported mainly by qualified Shariah officers consisting of Shariah researchers as well as the advisory and consultancy function under Shariah Advisory & Governance department of Group Islamic Banking Division that supports us in our decision and deliberations, providing check and balance for all Shariah matters as presented to us by the Management. Shariah Advisory and Board Shariah Committee Secretariat Policy and Procedure are two main documents in governing the daily function of Shariah Advisory & Governance department.

CIMB Group Shariah Review Policy and Procedure were established to set out the policies for Shariah review applicable to the Islamic financial services of CIMB Group in ensuring compliance to Shariah and Islamic regulatory requirements, and handling of Shariah Non-Compliance ("SNC") events. In addition, it also sets out the procedures for Shariah review planning, execution, and SNC events reporting.

In ensuring that the activities and operations of CIMB Group are Shariah-compliant, Shariah Review conducts post review of CIMB Group's activities and operations in accordance with the annual Shariah review work plan approved by us and the respective Boards of Directors of CIMB Group. Additionally, Shariah Review conducts verification on issues escalated by the stakeholders to determine whether any particular issue contain Shariah concerns and performs ad-hoc review as required from time to time by us and the regulators.

As for effective risk management and control, the Group adopted the strategic implementation of tiered model i.e. Three Lines of Risk Defense in governing and managing Shariah Non-Compliant risk.

CIMB Bank Berhad

(Incorporated in Malaysia)

Board Shariah Committee's Report (Continued)

Lastly, there is also a team of internal auditors who conduct periodic Shariah audits of all the Bank's banking and finance operations on a scheduled basis. The Group Corporate Assurance Division ("GCAD"), headed by the Group Chief Internal Auditor ("GCIA"), reports independently to the CIMB Group Audit Committee ("AC") and the Banking Group Audit Committee ("Banking Group AC"). GCAD operates independent of the business activities and other support units. In addition, GCAD reports on matters related to Islamic Banking and Shariah audits to the BSC. The primary responsibility of GCAD is to independently assess the adequacy, efficiency and effectiveness of the risk management, control and governance processes implemented by Management. GCAD's scope of audit coverage encompasses all business and support units, including subsidiaries and overseas branches with independent audit units. The selection of audit areas within the audit universe is based on an annual audit plan approved by the CIMB Group AC and the Banking Group AC. The annual audit plan is developed based on assessment of risks, exposures and CIMB Group strategies using a risk-based assessment methodology. GCAD also undertakes investigations and ad-hoc reviews upon request from Management, the Board, or regulators. In addition, GCAD provides audit opinion on the state of governance, internal controls, risk management practices and audit conclusion based on Level of Conformance in relation to regulatory audit or reviews, and whether objectives were met for assignments that are based on specific audit or review objectives.

To strengthen the compliance towards Shariah, the Bank has continuously instilled a Shariah-Compliance Culture by adopting a holistic top-down approach within the organisation. At the apex, the Bank set an appropriate 'tone from the top', where the Board and BSC play their oversight role on the Shariah governance in the Bank. The Bank also held Board and BSC engagement sessions or Joint Board meeting between Board of Directors and BSC which serve as a platform for effective communication between Board, BSC and Senior Management on oversight over Shariah governance.

CIMB Bank Berhad

(Incorporated in Malaysia)

Board Shariah Committee's Report (Continued)

The Bank also continues Shariah Capacity Building programs to inculcate strong Shariah knowledge within the Bank. The Bank has supported CIMB Islamic and CIMB Bank staff to enroll in relevant certification programs such as Certified Shariah Advisor (“CSA”), Certified Professional Shariah Auditor (“CPSA”), Associate Qualification in Islamic Finance (“AQIF”), Intermediate Qualification in Islamic Finance (“IQIF”), Certified Qualification in Islamic Finance (“CQIF”), Islamic Professional Credit Certification (“IPCC”) and others. The Bank had also organized a training session conducted by Assoc. Prof. Dr. Mohamed Fairouz as the representative from the BSC where he shared about the Maqasid al-Shariah Guidance in Islamic Capital Market.

All in all, the Management of the Bank is responsible and accountable to the Board to ensure that the Islamic banking and finance businesses of the Bank and its subsidiaries or Islamic banking window are conducted in accordance with the requirement of Shariah. It is our responsibility to form an independent opinion of the state of Shariah compliancy of the business and its operations and advise the Board accordingly. Based on the internal controls that have been put in place by the Management, in our opinion, to the best of our knowledge, the Bank has complied with the Shariah rulings issued by the Shariah Advisory Council of Bank Negara Malaysia and by all other financial regulators (where relevant), as well as Shariah decisions made by us, the overall aims and operations, business, affairs and activities of the Bank’s Islamic banking and finance business or Islamic banking window are in compliance with Shariah but it has come to the BSC’s attention that a material Shariah Non-Compliant event(s) has occurred within the Bank and in the process of being rectified.

Details of the Shariah Non-Compliant events is as follow:

1. CIMB Islamic credit card were used by the cardholders to facilitate Shariah Non-compliant transaction i.e., monthly conventional insurance premium payment. The rectification measures to address the event are currently ongoing. The measures include, inter alia, income earned from the merchant discount fees and any other fees amounting to approximately RM41,993.85 will be channeled to the charitable bodies and the cardholders are being engaged to switch to an alternative payment method for the future premium payments.
2. An application of ijarah muntahiya bi tamlik (“IMBT”) contract for ijarah financing granted to the customer to finance a property under construction. The rectification measures to address the event are completed. The measures include, inter alia, conversion of IMBT contract to ijarah mawsufah fi zimmah (“IMFZ”) contract for the property under construction whereby the letter was issued to the customer and subsequently acknowledged by the customer, process enhancement on the document checking and control effectiveness testing (“CET”).

CIMB Bank Berhad

(Incorporated in Malaysia)

Board Shariah Committee's Report (Continued)

Apart from the above, CIMB Bank has instituted several rectification measures relating to processes and procedures to enhance control mechanism and minimise recurrence of Shariah Non-Compliant incidents.

Details of the SNC income are set out in Note 58 (al) to the Financial Statements.

In our opinion:

1. The contracts, transactions and dealings entered into by the Group during the financial year ended 31 December 2024 that were presented to us were done in compliance with Shariah save and except for the contracts involved in the abovementioned Shariah Non-Compliant event; and
2. The allocation of profit and charging of losses relating to investment accounts conformed to the basis that were approved by us in accordance with Shariah; and
3. All earnings that were realised from sources or by means prohibited by Shariah have been purified according to Shariah principle; and
4. The zakat calculation is in compliance with Shariah principles.

We have actively monitored and overseen the independent work carried out for Shariah review and Shariah audit functions by the relevant functionaries under the established system of internal control, which included the examination, on a test basis, of each type of transaction, of relevant documentation and procedures adopted by the Bank. We are satisfied that the Management has planned and performed the necessary review and audit so as to obtain all the information and explanations which are considered necessary to provide us with sufficient evidence to give reasonable assurance that the Bank has not violated Shariah.

CIMB Bank Berhad

(Incorporated in Malaysia)

Board Shariah Committee's Report (Continued)

We, the members of the BSC, are of the opinion that the operations of the Bank's Islamic banking and finance business for the financial year ended 31 December 2024 were conducted in conformity with Shariah.

INDEPENDENT AUDITORS' REPORT
TO THE MEMBER OF CIMB BANK BERHAD
(Incorporated in Malaysia)
Registration No. 197201001799 (13491-P)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Our opinion

In our opinion, the financial statements of CIMB Bank Berhad (“the Bank”) and its subsidiaries (“the Group”) give a true and fair view of the financial position of the Group and of the Bank as at 31 December 2024, and of their financial performance and their cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

What we have audited

We have audited the financial statements of the Group and of the Bank, which comprise the statements of financial position as at 31 December 2024 of the Group and of the Bank, and the statements of income, statements of comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Bank for the financial year then ended, and notes to the financial statements, including a summary of material accounting policies, as set out on pages 36 to 464.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the “Auditors’ responsibilities for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Group and of the Bank in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants (“By-Laws”) and the International Ethics Standards Board for Accountants’ International Code of Ethics for Professional Accountants (including International Independence Standards) (“IESBA Code”), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

TO THE MEMBER OF CIMB BANK BERHAD (CONTINUED)
(Incorporated in Malaysia)
Registration No. 197201001799 (13491-P)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Information other than the financial statements and auditors' report thereon

The Directors of the Bank are responsible for the other information. The other information comprises the Directors' Report and Board Shariah Committee's Report, but does not include the financial statements of the Group and of the Bank and our auditors' report thereon.

Our opinion on the financial statements of the Group and of the Bank does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Bank, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Bank or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the financial statements

The Directors of the Bank are responsible for the preparation of the financial statements of the Group and of the Bank that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Group and of the Bank that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Bank, the Directors are responsible for assessing the Group's and the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or the Bank or to cease operations, or have no realistic alternative but to do so.

INDEPENDENT AUDITORS' REPORT
TO THE MEMBER OF CIMB BANK BERHAD (CONTINUED)
(Incorporated in Malaysia)
Registration No. 197201001799 (13491-P)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Bank as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Group and of the Bank, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and of the Bank's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.

**INDEPENDENT AUDITORS' REPORT
TO THE MEMBER OF CIMB BANK BERHAD (CONTINUED)**
(Incorporated in Malaysia)
Registration No. 197201001799 (13491-P)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

- (d) Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Bank or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Bank to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Bank, including the disclosures, and whether the financial statements of the Group and of the Bank represent the underlying transactions and events in a manner that achieves fair presentation.
- (f) Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the Group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024

The following accounting policies have been used consistently in dealing with items that are considered material in relation to the Financial Statements, except as disclosed in the Financial Statements.

A Basis of preparation

The Financial Statements of the Group and the Bank have been prepared in accordance with the Malaysian Financial Reporting Standards (“MFRS”), International Financial Reporting Standards (“IFRS”), and the requirements of the Companies Act 2016 in Malaysia.

The Financial Statements have been prepared under historical cost convention, as modified by the revaluation of financial assets at fair value through profit or loss, debts instruments at fair value through other comprehensive income, equity instruments at fair value through other comprehensive income, derivatives financial instruments, non-current assets/disposal groups held for sale and financial liabilities designated at fair value through profit or loss.

The Financial Statements incorporate those activities relating to Islamic banking which have been undertaken by the Bank and its wholly-owned subsidiaries, CIMB Islamic Bank Berhad (“CIMB Islamic”) and CIMB Bank (L) Limited. Islamic banking refers generally to the acceptance of deposits, granting of financing and dealing in Islamic Securities in compliance with Shariah principles.

The preparation of Financial Statements in conformity with MFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Financial Statements, and the reported amounts of income and expenses during the reported period. It also requires the Directors to exercise their judgement in the process of applying the Group’s and the Bank’s accounting policies. Although these estimates and judgement are based on the Directors’ best knowledge of current events and actions, actual results may differ from those estimates.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the Financial Statements are disclosed in Note 54.

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

A Basis of preparation (Continued)

(a) Standards, amendments to published standards and interpretation that are effective and applicable to the Group and the Bank

The new accounting standards, amendments to published standards and interpretation that are effective and applicable to the Group and the Bank for the financial year beginning 1 January 2024 are as follows:

- Amendments to MFRS 101 “Non-current Liabilities with Covenants”
- IFRIC agenda decision on disclosure of revenues and expenses for reportable segments (MFRS 8 *Operating segments*)

The adoption of the above amendments to published standards and IFRIC agenda decision did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

(b) Standards, amendments to published standards and interpretations to existing standards that are applicable to the Group and the Bank but not yet effective

The Group and the Bank will apply these standards, amendments to published standards from:

(i) Financial year beginning on/after 1 January 2025

- Amendments to MFRS 121 ‘Lack of Exchangeability’

Amendments to MFRS 121 ‘Lack of Exchangeability’ clarify that a currency is exchangeable when an entity is able to exchange it into another currency within a time frame that allows for a normal administrative delay and through a market or exchange mechanism that creates enforceable rights and obligations. If an entity can only obtain no more than an insignificant amount of the other currency at the measurement date for the specified purpose, then the currency is not exchangeable. In such cases, the entity is required to estimate the spot exchange rate at the measurement date.

The amendments do not specify how an entity estimates the spot exchange rate, but permit an entity to use observable exchange rate without adjustment or another estimation technique, provided it could meet the objective for estimating the spot exchange rate set out in the amendments.

The impact assessment of the new amendments on the financial statements of the Group and the Bank is ongoing.

CIMB Bank Berhad

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

A Basis of preparation (Continued)

(b) Standards, amendments to published standards and interpretations to existing standards that are applicable to the Group and the Bank but not yet effective (Continued)

The Group and the Bank will apply these standards, amendments to published standards from: (Continued)

(ii) Financial year beginning on/after 1 January 2026

- Amendments to the Classification and Measurement of Financial Instruments – Amendments to MFRS 9 and MFRS 7

The amendments require financial assets to be derecognised on the date the contractual rights to the cash flows expire and financial liabilities to be derecognised when obligation under the contract is discharged (i.e. the settlement date). In addition, there is an optional exception to derecognise financial liabilities before the settlement date for settlement using electronic payment systems (if specified criteria are met).

The amendments clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (“SPPI”) criterion, add new disclosures for certain instruments with contractual terms that can change cash flows (such as some financial instruments with features linked to the achievement of environment, social and governance targets), and update the disclosures for equity instruments designated at fair value through other comprehensive income (“FVOCI”).

The impact assessment of the amendments on the financial statements of the Group and the Bank is ongoing.

(iii) Financial year beginning on/after 1 January 2027

- MFRS 19 Subsidiaries without Public Accountability

MFRS 19 Subsidiaries without Public Accountability allows for certain eligible subsidiaries of parent entities that report under IFRS Accounting Standards to apply reduced disclosure requirements.

The impact assessment of the new standard on the financial statements of the Group and the Bank is ongoing.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

A Basis of preparation (Continued)

(b) Standards, amendments to published standards and interpretations to existing standards that are applicable to the Group and the Bank but not yet effective (Continued)

The Group and the Bank will apply these standards, amendments to published standards from: (Continued)

(iii) Financial year beginning on/after 1 January 2027 (Continued)

- **MFRS 18 Presentation and Disclosure in Financial Statements (replaces MFRS 101 Presentation of Financial Statements)**

The new MFRS introduces a new structure of profit or loss statement.

Income and expenses are classified into 3 new main categories:

- Operating category which typically includes results from the main business activities
- Investing category that presents the results of investments in associates and joint ventures and other assets that generate a return largely independently of other resources; and
- Financing category that presents income and expenses from financing liabilities

The Group and the Bank are required to present two new specified subtotals: ‘Operating profit or loss’ and ‘Profit or loss before financing and income taxes’.

Management-defined performance measures (“MPMs”) are disclosed in a single note and reconciled to the most similar specified subtotal in MFRS Accounting Standards.

Changes to the guidance on aggregation and disaggregation which focus on grouping items based on their shared characteristics.

The impact assessment of the new standard on the financial statements of the Group and the Bank is ongoing.

The amendments shall be applied retrospectively.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

B Economic entities in the Group

(a) Subsidiaries

The consolidated Financial Statements include the Financial Statements of the Bank and all its subsidiaries made up to the end of the financial year.

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct relevant activities of the entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group and de-consolidated from the date that control ceases.

The Group applies the acquisition method to account for business combinations.

Under the acquisition method of accounting, the consideration transferred for an acquisition is measured as the acquisition date fair value of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interest issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Acquisition-related costs are expensed as incurred. Identifiable assets acquired, and liabilities and contingent liabilities assumed in the business combination are, with limited exceptions, measured initially at their fair value on the date of acquisition.

The Group applies predecessor accounting to account for business combinations under common control. Under predecessor accounting, assets and liabilities acquired are not restated to their respective fair values. They are recognised at the carrying amounts from the consolidated financial statements of the ultimate holding company of the Group and adjusted to conform with the accounting policies adopted by the Group. The difference between any consideration given and the aggregate carrying amounts of the assets and liabilities of the acquired entity is recognised as an adjustment to equity. No additional goodwill is recognised. The acquired entity's results and balance sheet are incorporated prospectively from the date on which the business combination between entities under common control occurred.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

B Economic entities in the Group (Continued)

(a) Subsidiaries (Continued)

Any excess of the sum of the fair value of the consideration transferred in the business combination, the amount of non-controlling interest in acquiree (if any), and the fair value of the Group's previously held equity interest in acquiree (if any), over the fair value of the acquiree's identifiable net assets acquired is recorded as goodwill. The accounting policy for goodwill is set out in Note M. In instances where the latter amount exceeds the former, the excess is recognised as gain on bargain purchase in statement of income on the acquisition date.

If the business combination is achieved in stages, the carrying value of the acquirer's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date and any corresponding gain or loss is recognised in statement of income.

Non-controlling interest is the equity in a subsidiary not attributable, directly or indirectly, to a parent. On an acquisition-by-acquisition basis, the Group measures any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets. At the end of reporting period, non-controlling interest consists of amount calculated on the date of combinations and its share of changes in the subsidiary's equity since the date of combination.

All earnings and losses of the subsidiary are attributed to the parent and the non-controlling interest, even if the attribution of losses to the non-controlling interest results in a debit balance in the shareholders' equity. Profit or loss attribution to non-controlling interests for prior years is not restated.

Any contingent consideration to be transferred by the Group is recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognised in accordance with MFRS 9 in profit or loss. Contingent consideration that is classified as equity is not remeasured, and its subsequent settlement is accounted for within equity.

All material transactions, balances and unrealised gains on transactions between group companies are eliminated and the consolidated Financial Statements reflect external transactions only. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Where necessary, amounts reported by subsidiaries have been adjusted to conform with the Group's accounting policies.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the statement of income, statement of comprehensive income, statement of changes in equity and statement of financial position respectively.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

B Economic entities in the Group (Continued)

(b) Changes in ownership interests in subsidiaries without change of control

Transactions with non-controlling interests that do not result in loss in control are accounted for as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in equity attributable to owners of the Group.

(c) Disposal of subsidiaries

When the Group ceases to have control, any retained interest in the entity is re-measured to its fair value at the date when control is lost, with the change in carrying amount recognised in statement of income. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to statement of income.

Gains or losses on the disposal of subsidiaries include the carrying amount of goodwill relating to the subsidiaries sold.

(d) Joint arrangements

A joint arrangement is an arrangement of which there is contractually agreed sharing of control by the Group with one or more parties, where decisions about the relevant activities relating to the joint arrangement require unanimous consent of the parties sharing control. The classification of a joint arrangement as a joint operation or a joint venture depends upon the rights and obligations of the parties to the arrangement. A joint venture is a joint arrangement whereby the joint venturers have rights to the net assets of the arrangement. A joint operation is a joint arrangement whereby the joint operators have rights to the assets and obligations for the liabilities, relating to the arrangement.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

B Economic entities in the Group (Continued)

(d) Joint arrangements (Continued)

The Group's interests in joint ventures are accounted for in the consolidated Financial Statements by using the equity method of accounting, after initially being recognised at cost in the statement of financial position. Under the equity method, the investment in a joint venture is initially recognised at cost, and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the joint venture in statement of income, and the Group's share of movements in other comprehensive income of the joint venture in other comprehensive income.

Dividends received or receivable from a joint venture are recognised as a reduction in the carrying amount of the investment. The cumulative post acquisition movements are adjusted against the cost of the investment and include goodwill on acquisition, net of accumulated impairment loss (if any). When the Group's share of losses in a joint venture equals or exceeds its interests in the joint ventures, including any long-term interests that, in substance, form part of the Group's net investment in the joint ventures, the Group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the joint ventures.

The Group determines at each reporting date whether there is any objective evidence that the investment in the joint venture is impaired. An impairment loss is recognised for the amount by which the carrying amount of the joint venture exceeds its recoverable amount. The Group presents the impairment loss adjacent to 'share of results of joint ventures' in the statement of income.

Unrealised gains on transactions between the Group and its joint ventures are eliminated to the extent of the Group's interest in the joint ventures. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of the joint ventures have been changed where necessary to ensure consistency with the policies adopted by the Group.

When the Group ceases to equity account its joint venture because of a loss of joint control, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate or financial asset. In addition, any amount previously recognised in other comprehensive income in respect of the entity is accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to statement of income.

If the ownership interest in a joint venture is reduced but joint control is retained, only a proportionate share of the amounts previously recognised in other comprehensive income is reclassified to statement of income where appropriate.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

B Economic entities in the Group (Continued)

(e) Associates

Associates are all entities over which the Group has significant influence but not control or joint control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Significant influence is the power to participate in the financial and operating policy decisions of the associates but not the power to exercise control over those policies. The Group's investment in associates includes goodwill identified on acquisition, net of any accumulated impairment loss.

Investments in associates are accounted for using equity method of accounting. Under the equity method, the investment is initially recognised at cost, and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the associate in statement of income, and the Group's share of post-acquisition movements in other comprehensive income of the associate in other comprehensive income. Dividends received or receivable from an associate are recognised as a reduction in the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interests in the associate, including any long-term interests that, in substance, form part of the Group's net investment in the associate, the Group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate. The Group's investment in associates includes goodwill identified on acquisition.

After the Group's interest is reduced to zero, additional losses are provided for, and a liability is recognised, only to the extent that the investor has incurred legal or constructive obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. An impairment loss is recognised for the amount by which the carrying amount of the associate exceeds its recoverable amount. The Group presents the impairment loss adjacent to 'share of results of associates' in the statement of income.

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

B Economic entities in the Group (Continued)

(e) Associates (Continued)

Profits and losses resulting from upstream and downstream transactions between the Group and its associate are recognised in the Group's financial statements only to the extent of unrelated investor's interests in the associates. Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates; unrealised losses are also eliminated unless the transaction provides evidence on impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

When the Group ceases to equity account its associate because of a loss of significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as a financial asset. In addition, any amount previously recognised in other comprehensive income in respect of the entity is accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amount previously recognised in the other comprehensive income is reclassified to statement of income where appropriate.

Dilution gains and losses arising from investments in associates are recognised in the statement of income.

(f) Interests in subsidiaries, joint arrangements and associates

In the Bank's separate financial statements, investments in subsidiaries, joint arrangements and associates are carried at cost less accumulated impairment losses. On disposal of investments in subsidiaries, joint arrangements and associates, the difference between disposal proceeds and the carrying amounts of the investments are recognised in statement of income.

The amounts due from subsidiaries of which the Bank does not expect repayment in the foreseeable future are considered as part of the Bank's investments in the subsidiaries.

C Recognition of interest/profit income and interest/profit expense

Interest and profit income and expense for all interest/profit-bearing financial instruments are recognised within “interest income”, “interest expense” and “income from Islamic banking operations” respectively in the statement of income using the effective interest/profit method.

The effective interest/profit method is a method of calculating the amortised cost of a financial asset or a financial liability and of allocating the interest/profit income or interest/profit expense over the relevant period. The effective interest/profit rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instruments or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest/profit rate, the Group takes into account all contractual terms of the financial instrument and includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the effective interest/profit rate, but not future credit losses.

Interest/profit income is calculated by applying effective interest/profit rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest/profit rate is applied to the net carrying amount of the financial assets (after deduction of the loss allowance).

Income from Islamic banking business is recognised on an accrual basis in accordance with the principles of Shariah.

D Recognition of fees income and expenses and other income

The Group earns fee and commission income from a diverse range of products and services provided to its customers. Fee and commission income are recognised when the Group has satisfied its performance obligation in providing the promised products and services to the customer, and are recognised based on contractual rates or amount agreed with customers, and net of expenses directly related to it. The Group generally satisfy its performance obligation and recognises the fee and commission income on the following basis:

- Transaction-based fee and commission income is recognised on the completion of the transaction. Such fees include fees related to the completion of corporate advisory transactions, commissions, service charges and fees, credit card related fees and fees on loans, advances and financing. These fees constitute a single performance obligation.
- For a service that is provided over a period of time, fee and commission income is recognised on an equal proportion basis over the period during which the related service is provided or credit risk is undertaken. This basis of recognition most appropriately reflects the nature and pattern of provision of these services to the customers over time. Fees for these services will be billed periodically over time. Such fees include guarantee fees and commitment fees.

The Group does not provide any significant credit terms to customers for the above products and services.

Directly related expenses typically include card-related expenses and sales commissions, but do not include expenses for services delivered over a period (such as service contracts) and other expenses that are not specifically related to fee and commission income transactions.

Dividends are recognised when the right to receive payment is established. This applies even if they are paid out of pre-acquisition profits. However, the investment may need to be tested for impairment as a consequence.

Dividend income received from subsidiary companies, joint venture, associated companies, financial assets at fair value through profit or loss and financial investments at fair value through other comprehensive income are recognised as non-interest income in statements of income. Dividends that clearly represent a recovery of part of the cost of investment is recognised in other comprehensive income if it relates to an investment in equity instruments measured at fair value through other comprehensive income.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

E Sale and repurchase agreements/collateralised commodity murabahah

Securities purchased under resale agreements (“reverse repurchase agreements”) are securities which the Group and the Bank had purchased with a commitment to re-sell at future dates. The commitment to re-sell the securities is reflected as an asset on the statements of financial position.

Conversely, obligations on securities sold/transferred under repurchase agreements/collateralised commodity murabahah are securities which the Group and the Bank had sold/transferred from its portfolio, with a commitment to repurchase/transfer back at future dates. Such financing transactions and the obligation to repurchase/transfer back the securities are reflected as a liability on the statements of financial position.

The difference between sale and repurchase price as well as purchase and resale price is treated as interest and accrued over the life of the resale/repurchase agreement/collateralised commodity murabahah using the effective yield method.

F Financial assets

(a) Classification

The Group and the Bank classify their financial assets into the following measurement categories:

- Fair value (either through other comprehensive income (“OCI”), or through profit or loss), and
- Amortised cost.

The classification depends on the Group’s and the Bank’s business model for managing the financial assets and the contractual terms of the cash flows.

Business model assessment

The Group and the Bank conduct assessment of the objective of a business model to align with how an asset held within a portfolio is being managed. Factors that are being considered include the key objectives of a portfolio whether the business strategy is to earn contractual interest revenue, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising a portfolio through sale of assets. Other factors considered also include the frequency and volume of sales in prior periods, how the asset’s performance is evaluated and reported to key management personnel.

Assessment whether contractual cash flows are solely payments of principal and interest (“SPPI”)

Where the business model is to hold the financial assets to collect contractual cash flows, or to collect contractual cash flows and sell, the Group and the Bank assess whether the financial assets’ contractual cash flows represent solely payment of principal and interest. In applying the SPPI test, the Group and the Bank consider whether the contractual cash flows are consistent with a basic lending arrangement, i.e. interest includes only consideration for time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

F Financial assets (Continued)

(a) Classification (Continued)

For financial assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investment in debt instruments, this will depend on the business model in which the investment is held. For investment in equity instruments, it is determined by the irrevocable election at the time of initial recognition to account for the equity investment at fair value through OCI by the Group and the Bank.

- (i) Financial assets at fair value through OCI comprise of:
 - equity securities which are not held for trading, and for which the Group and the Bank have made an irrevocable election at initial recognition to recognise changes in fair value through other comprehensive income rather than profit or loss, and
 - debt securities where the contractual cash flows are solely principal and interest and the objective of the Group's and the Bank's business model is achieved both by collecting contractual cash flows and selling financial assets.
- (ii) The Group and the Bank classify their financial assets at amortised cost only if both of the following criteria are met:
 - the asset is held within a business model with the objective of collecting the contractual cash flows, and
 - the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding.
- (iii) The Group and the Bank classify the following financial assets at fair value through profit or loss:
 - debt investments that do not qualify for measurement at either amortised cost or fair value through comprehensive income;
 - equity investments that are held for trading, and
 - equity investments for which the entity has not elected to recognise at fair value through other comprehensive income.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

F Financial assets (Continued)

(b) Recognition and initial measurement

A financial asset is recognised in the statement of financial position when the Group and the Bank become parties to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognised on trade date, the date on which the Group and the Bank commit to purchase and sell the assets.

At initial recognition, the Group and the Bank measure financial assets at their fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

(c) Subsequent measurement

Debt instruments

Subsequent measurement of debt instruments depends on the Group's and the Bank's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories in which the Group and the Bank classify their debt instruments.

(i) Amortised cost

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest, and that are not designated at fair value through profit or loss are measured at amortised cost using the effective interest/profit method. Any gain or loss on a debt investment measured at amortised cost is recognised in profit or loss when the asset is derecognised or impaired. Interest/profit income from these financial assets is included in interest/finance income using the effective interest/profit rate method.

(ii) Fair value through other comprehensive income ("FVOCI")

Financial assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment losses or reversal of impairment losses, interest income and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in non-interest income. Where the Group and the Bank hold more than one investment in the same security, they are deemed to be disposed of on a first-in, first-out basis. Interest/profit income from these financial assets is included in interest/finance income using the effective interest/profit rate method.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

F Financial assets (Continued)

(c) Subsequent measurement (Continued)

Debt instruments (Continued)

(iii) Fair value through profit or loss (“FVTPL”)

Financial assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. The Group may also irrevocably designate financial assets at FVTPL if doing so significantly reduces or eliminates a mismatch created by assets and liabilities being measured on different bases. Fair value changes is recognised in profit or loss and presented net within non-interest income in the period which it arises. Interest/profit income from these financial assets continue to be recognised in profit or loss as interest/profit income as disclosed in its respective note.

Equity instruments

The Group and the Bank subsequently measure all equity investments at fair value except where the management has elected, at initial recognition to irrevocably designate at equity instrument at FVOCI. Where the Group’s and the Bank’s management have elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss as other income when the Group’s and the Bank’s right to receive payments is established.

Changes in the fair value of financial investments at fair value through profit or loss are recognised in non-interest income in the statement of income as applicable.

(d) Reclassification of financial assets

The Group and the Bank reclassify financial assets when and only when their business model for managing those assets changes. In such cases, the Group and the Bank are required to reclassify all affected financial assets. However, it will be inappropriate to reclassify financial assets that have been designated at FVTPL, or equity instrument that have been designated at FVOCI even when there is a change in business model. Such designation are irrevocable.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

F Financial assets (Continued)

(e) Modification of loans/financing

The Group may renegotiate or otherwise modify the contractual cash flows of loans/financing to customers. When this happens, the Group assesses whether or not the new terms are substantially different to the original terms. The Group do this by considering, among others, the following factors:

- If the borrower is in financial difficulty, whether the modification merely reduces the contractual cash flows to amounts the borrower is expected to be able to pay.
- Whether any substantial new terms are introduced, such as a profit share/equity-based return that substantially affects the risk profile of the loan.
- Significant extension of the loan term when the borrower is not in financial difficulty.
- Significant change in the interest/profit rate.
- Change in the currency the loan/financing is denominated in.
- Insertion of collateral, other security or credit enhancements that significantly affect the credit risk associated with the loan/financing.

If the terms are substantially different, the Group derecognises the original financial asset and recognises a "new" asset at fair value and recalculates a new effective interest/profit rate for the asset. The date of renegotiation is consequently considered to be the date of initial recognition for impairment calculation purposes, including for the purpose of determining whether a significant increase in credit risk has occurred. However, the Group also assesses whether the new financial asset recognised is deemed to be credit-impaired at initial recognition, especially in circumstances where the renegotiation was driven by the debtor being unable to make the originally agreed payments. Differences in the carrying amount are also recognised in statements of income as a gain or loss on derecognition.

If the terms are not substantially different, the renegotiation or modification does not result in derecognition, and the Group recalculates the gross carrying amount based on the revised cash flows of the financial asset and recognises a modification gain or loss in statements of income. The new gross carrying amount is recalculated by discounting the modified cash flows at the original effective interest/profit rate (or credit-adjusted effective interest/profit rate for purchased or originated credit-impaired financial assets).

The impact of modifications of financial assets is disclosed in Note 40. The 'phase 2' amendments for financial assets affected by IBOR reform is disclosed in Note K.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

G Financial liabilities

Financial liabilities are measured at amortised cost, except for trading liabilities and liabilities designated at fair value, which are held at fair value through profit or loss. Financial liabilities are initially recognised at fair value less transaction costs for all financial liabilities not carried at fair value through profit or loss. Financial liabilities at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in statement of income. Financial liabilities are derecognised when extinguished.

(a) Financial liabilities at fair value through profit or loss

This category comprises two sub-categories: financial liabilities classified as held for trading, and financial liabilities designated at fair value through profit or loss upon initial recognition.

A financial liability is classified as held for trading if it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term or if it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking. Derivatives are also categorised as held for trading unless they are designated and effective as hedging instruments. The specific Group and Bank accounting policy on derivatives is detailed in Note K.

The financial liabilities measured at fair value through profit or loss upon initial recognition are trading derivatives and financial liabilities designated at fair value.

Financial liabilities, other than those held for trading, are classified as financial liabilities designated at fair value through profit or loss if they meet one or more of the criteria set out below, and are so designated by management.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

G Financial liabilities (Continued)

(a) Financial liabilities at fair value through profit or loss (Continued)

The Group and the Bank may designate financial liabilities at fair value through profit or loss when the designation:

- Eliminates or significantly reduces measurement or recognition inconsistencies that would otherwise arise from measuring financial assets or financial liabilities, or recognising gains and losses on them, on different bases. Certain structured investments with embedded callable range accrual swaps are designated by the Group and the Bank under this criterion. The interest payable on these structured investments has been hedged with trading derivatives. An accounting mismatch would arise if the structured investments were accounted for at amortised cost, because the related derivatives are measured at fair value with changes in the fair value recognised in the statements of income. By designating the structured investments at fair value, the movement in the fair value of the structured investments will also be recognised in the statement of income;
- Applies to groups of financial liabilities that are managed, and their performance evaluated, on a fair value basis in accordance with a documented risk management or investment strategy; and
- Relates to financial liabilities containing one or more embedded derivatives that significantly modify the cash flows resulting from those financial instruments.

The fair value designation, once made, is irrevocable. Designated financial liabilities are recognised when the Group and the Bank enter into the contractual provisions of the arrangements with counterparties, which is generally on trade date, and are normally derecognised when extinguished (liabilities). Measurement is initially at fair value, with transaction costs taken to the statements of income. Subsequently, the fair values are remeasured, and gains and losses from changes therein are recognised in the statements of income.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

G Financial liabilities (Continued)

(a) Financial liabilities at fair value through profit or loss (Continued)

The component of fair value changes relating to the Group's own credit risk is recognised in OCI. Amounts recorded in OCI related to credit risk are not subject to recycling to profit or loss, but are transferred to retained earnings when realised.

The Group determines the amount of fair value changes which are attributable to credit risk, by first determining the changes due to market conditions which give rise to market risk, and then deducting those changes from the total change in fair value of the financial liabilities at fair value through profit or loss. Market conditions which give rise to market risk include changes in the benchmark interest rate. Fair value movements on the conversion option embedded derivative are excluded from the assessment of market risk fair value changes.

The Group believes that this approach most faithfully represents the amount of change in fair value due to the Group's own credit risk, as the changes in factors contributing to the fair value of the other items.

(b) Financial liabilities at amortised cost

Financial liabilities that are not classified as fair value through profit or loss fall into this category and are measured at amortised cost. The financial liabilities measured at amortised cost are deposits from customers, investment accounts of customers, deposits and placements of banks and other financial institutions, repurchase agreements, bills and acceptances payable, other financial liabilities in other liabilities, bonds, Sukuk and debentures, other borrowings, subordinated obligations, lease liabilities, recourse obligations on loans and financing sold to Cagamas and structured deposits. Structured deposits with embedded derivatives which are not closely related to the host contract are bifurcated and the derivatives are separately accounted for under derivatives in Note 27.

The 'phase 2' amendments for financial liabilities affected by IBOR reform is disclosed in Note K.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

H Derecognition of financial assets and financial liabilities other than on a modification

Financial assets are derecognised when the contractual rights to receive the cash flows from these assets have ceased to exist or the assets have been transferred and substantially all the risks and rewards of ownership of the assets are also transferred (that is, if substantially all the risks and rewards have not been transferred, the Group and the Bank test control to ensure that continuing involvement on the basis of any retained powers of control does not prevent derecognition). Financial liabilities are derecognised when they have been redeemed or otherwise extinguished.

Collateral furnished by the Group and the Bank under standard repurchase agreements transactions is not derecognised because the Group and the Bank retains substantially all the risks and rewards on the basis of the predetermined repurchase price, and the criteria for derecognition are therefore not met.

I Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of defaults, insolvency or bankruptcy.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

J Impairment of financial assets

The Group and the Bank assess on a forward looking basis the expected credit losses (“ECL”) associated with its financial assets carried at amortised cost, FVOCI and with the exposure arising from loan commitments and financial guarantee contracts. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

- (i) Financial assets accounted for at amortised cost, FVOCI and with the exposure arising from loan commitments and financial guarantee contracts.

The Group and the Bank use general 3-stage approach for financial assets accounted for at amortised cost, FVOCI and with the exposure arising from loan commitments and financial guarantee contracts which reflect their credit risk and how the ECL is determined for each of those categories.

A summary of the assumptions underpinning the Group’s and the Bank’s expected credit loss model is as follows:

- (a) Stage 1: 12-months ECL
Stage 1 includes financial assets which have not had a significant increase in credit risk since initial recognition or which have low credit risk at reporting date. 12-month ECL is recognised and interest income is calculated on the gross carrying amount of the financial assets.
- (b) Stage 2: Lifetime ECL – not credit impaired
Stage 2 includes financial assets which have had a significant increase in credit risk since initial recognition (unless they have low credit risk at the reporting date) but do not have objective evidence of impairment. Lifetime ECL is recognised and interest income is calculated on the gross carrying amount of the financial assets.
- (c) Stage 3: Lifetime ECL – credit impaired
Stage 3 includes financial assets that have objective evidence of impairment at the reporting date. Lifetime ECL is recognised and interest income is calculated on the net carrying amount of the financial assets.

The Group and the Bank account for their credit risk by appropriately providing for ECL on a timely basis. In calculating the ECL rates, the Group and Bank consider historical loss rates for each category of customers, and adjusts for forward looking macroeconomic data.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

J Impairment of financial assets (Continued)

(ii) Other assets

For the other assets that are within the scope of MFRS 15 such as amount due from broker and other debtors, the Group and the Bank apply simplified approach as permitted by MFRS 9, which requires an entity to recognise a loss allowance based on lifetime ECL at each reporting date. MFRS 9 allows the use of practical expedients when measuring ECL and states that a provision matrix is an example of such expedient for trade receivables. An entity that applies a provision matrix may use historical loss experience on its trade receivables, and adjust historical loss rates to reflect information about current conditions and reasonable and supportable forecasts of future economic conditions.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

K Derivative financial instruments and hedge accounting

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. Fair values are obtained from quoted market prices in active markets, including recent market transactions, and valuation techniques, including discounted cash flow models and option pricing models, as appropriate except for assets/liabilities that are classified as Level 3 fair value hierarchy. All derivatives are carried as assets when fair value is positive and as liabilities when fair value is negative. Changes in the fair value of any derivatives that do not qualify for hedge accounting are recognised immediately in the statement of income.

The best evidence of fair value of a derivative at initial recognition is the transaction price (i.e. the fair value of the consideration given or received) unless the fair value of the instrument is evidenced by comparison with other observable current market transactions in the same instrument (i.e. without modification or repackaging) or based on a valuation technique whose variables include only data from observable markets. When such evidence exists, the Group and the Bank recognise the fair value of derivatives in the statement of income immediately.

The Group and the Bank designate certain derivatives to manage its exposure to foreign currency and interest rate risks. The instruments used included interest rate swap, cross currency interest rate swap and currency swap.

The Group and the Bank documents at the inception of the hedging transaction, the risk management objective & strategy and the economic relationship between hedging instruments and hedged items including whether the hedging instrument is expected to offset changes in cash flows of hedged items.

If the hedge ratio for risk management purposes is no longer optimal but the risk management objective remains unchanged and the hedge continues to qualify for hedge accounting, the hedge relationship will be rebalanced by adjusting either the volume of the hedging instrument or the volume of the hedged item so that the hedge ratio aligns with the ratio used for risk management purposes. Any hedge ineffectiveness is calculated and accounted for in profit or loss at the time of the hedge relationship rebalancing.

The fair values of various derivative financial instruments used for hedging purposes are disclosed in Note 27.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

K Derivative financial instruments and hedge accounting (Continued)

(a) Fair value hedge

Changes in the fair value of derivatives that are designated and qualified as fair value hedges are recorded in the statement of income, together with any changes in the fair value of the hedged assets or liabilities that are attributable to the hedged risk.

If the hedge no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of a hedged item is amortised to the statement of income over the period to maturity based on recalculated effective interest rate method. The adjustment to the carrying amount of a hedged equity security remains as part of the carrying amount until the disposal of the equity security.

(b) Cash flow hedge

The effective portion of changes in the fair value of derivatives that are designated and qualified as cash flow hedges are recognised in equity. The gain and loss relating to the ineffective portion is recognised immediately in the statement of income. Amounts accumulated in equity are recycled to the statement of income in the periods in which the hedged item will affect the statement of income.

When a hedging instrument expires or is sold, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in the statement of income. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in equity is immediately transferred to the statement of income. The Group and the Bank assess the recoverability of the balance in one or more future periods when the cash flow hedge reserve is in a loss position.

(c) Net investment hedge

Hedges of net investments in foreign operations are accounted for similarly to cash flow hedges. When forward contracts are used to hedge net investment in foreign operation, the Group generally designates only the change in fair value of the forward contract related to the spot component as the hedging instrument. Any gain or loss on the hedging instrument relating to the effective portion of the hedge is recognised in equity. The gain or loss relating to the ineffective portion is recognised immediately in the statement of income. The change in the forward element of the contract that relates to the hedged item is recognised in other comprehensive income as deferred hedging cost and accumulated in costs of hedging reserve within equity.

Gains and losses accumulated in the equity are recycled to the statement of income when the foreign operation is partially disposed or sold. The Group and the Bank assess the recoverability of the balance in one or more future periods when the net investment hedge reserve is in a loss position.

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

K Derivative financial instruments and hedge accounting (Continued)

Interbank offered rates

Interbank offered rates (“IBORs”), such as the London Interbank Offered Rate (“LIBOR”), play a critical role in global financial markets, serving as reference rates for derivatives, loans and securities, and as parameters in the valuation of financial instruments.

In recent years, regulators, central banks and market participants have been working towards a transition to alternative risk-free benchmark reference rates (“RFRs”) and market-led working groups in respective jurisdictions have recommended alternative risk-free reference rates, which are gradually being adopted in replacement of IBORs.

In response to the uncertainty about the long-term viability of these benchmark rates, and LIBOR in particular, the International Accounting Standards Board (“IASB”) has established a project to consider the financial reporting implications of the reform. The transition from IBORs is expected to have an impact on various elements of financial instrument accounting, including hedge accounting, as well as fair value methodologies and disclosures.

BNM has announced the launch of the Malaysia Overnight Rate (“MYOR”) as the new alternative RFRs for Malaysia and the MYOR will run in parallel to the existing Kuala Lumpur Interbank Offered Rate (“KLIBOR”) with periodic reviews to ensure that the financial benchmark rates remain robust and reflective of an active underlying market. The Group has discontinued the publication of the 2- and 12-month KLIBOR tenors, which are the least referenced rates in the market for financial contracts, on 1 January 2023. The remaining one-, three- and six-month KLIBOR tenors, will continue to reflect an active underlying market.

CIMB Bank Berhad

(Incorporated in Malaysia)

**Summary of Material Accounting Policies
for the financial year ended 31 December 2024 (Continued)****K Derivative financial instruments and hedge accounting (Continued)**Impact of IBOR reform on the Group's and the Bank's hedging relationship

The Group and the Bank have hedge accounted relationships referencing IBORs, with the most significant interest rate benchmarks to which the Group's and the Bank's hedging relationships are exposed to are MYR KLIBOR.

The Group's and the Bank's risk exposures that are directly affected by the interest rate benchmark reform are the fair value hedge of the following financial instruments. These hedging relationships are designated using interest rate swaps, for changes attributable to MYR KLIBOR and HKD HIBOR that are respective current benchmark interest rate. Additional information about the Group's exposure to IBOR reform is presented in Note 27.

Fair value hedge	2024	
	The Group	The Bank

Fixed rate loans	MYR1,329,000,000	MYR1,329,000,000

The Group will continue to record any ongoing hedge ineffectiveness, including that generated by changes as a result of interest rate reform, within the Statement of Income. One of the source of ineffectiveness would be due to the IBOR reform takes effect at a different time and have a different impact on the hedged items and hedging instruments.

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

K Derivative financial instruments and hedge accounting (Continued)

Managing the process to transition

The Group has established a steering committee to oversee the Group's IBORs transition plan. This steering committee has put in place a transition project which includes the assessment and actions necessary to accommodate the transition to RFRs as they apply to internal processes and systems in pricing, risk management, and valuation models, as well as managing related tax and accounting implications. The Group is continuing to monitor market developments in relation to the transition to RFRs from IBOR rates and their impact on the Group's financial assets and liabilities to ensure that there are no unexpected consequences or disruption from the transition.

The Group adopted the Phase 2 amendments and applied the practical expedient to update the effective interest rate for instruments measured at amortised cost to account for the changes in contractual cash flows that is a direct consequence of IBOR reform. As a result, no immediate gain or loss is recognised in profit or loss.

The amendments also provide reliefs that enable and require the Group to continue the MFRS 9 hedge accounting in circumstances when the Group updates the hedge documentation to reflect changes in hedged items and hedging instruments which are required by IBOR reform.

Hedge relationships

Since 2021, the Group has adopted the hedge accounting reliefs provided by 'phase 2' of the amendments for hedge designation. When the phase 1 amendments cease to apply, the Group will amend its hedge designation to reflect changes which are required by IBOR reform, but only to make one or more of these changes:

- (i) designate an alternative benchmark rate (contractually or non-contractually specified) as a hedged risk;
- (ii) amend the description of the hedged item, including the description of the designated portion of the fair value being hedged; or
- (iii) amend the description of the hedging instrument. The Group will update its hedge documentation to reflect this change in designation by the end of the reporting period in which the changes are made.

These amendments to the hedge documentation do not require the Group to discontinue its hedge relationships. The Group has not made any amendments to its hedge documentation in the reporting period relating to IBOR reform.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

K Derivative financial instruments and hedge accounting (Continued)

Hedge relationships (Continued)

Since 2021, changes required to systems, processes and models have been identified and fully implemented. The Group has identified that the areas of most significant risk arising from the replacement of LIBORs are: updating systems and processes which capture LIBORs referenced contracts; amendments to those contracts, or existing fallback/transition clauses not operating as anticipated; mismatches in timing of derivatives and loans transitioning from LIBORs and the resulting impact on economic risk management; and updating hedge designations. The Group continues to engage with industry participants and the regulator authorities, to ensure an orderly transition to RFRs and to minimise the risks arising from transition, and it will continue to identify and assess risks associated with LIBORs replacement.

Financial instruments measured using amortised cost measurement

‘Phase 2’ of the amendments requires that, for financial instruments measured using amortised cost measurement, changes to the basis for determining the contractual cash flows required by interest rate benchmark reform are reflected by adjusting their effective interest rate. No immediate gain or loss is recognised. These expedients are only applicable to changes that are required by interest rate benchmark reform, which is the case if, and only if, the change is necessary as a direct consequence of interest rate benchmark reform and the new basis for determining the contractual cash flows is economically equivalent to the previous basis (that is, the basis immediately preceding the change).

Where some or all of a change in the basis for determining the contractual cash flows of a financial asset and liability does not meet the above criteria, the above practical expedient is first applied to the changes required by interest rate benchmark reform, including updating the instrument’s effective interest rate. Any additional changes are accounted for in the normal way (that is assessed for modification or derecognition, with the resulting modification gain/ loss recognised immediately in profit or loss where the instrument is not derecognised).

Since 2021, the Group has applied the practical expedients offered under ‘phase 2’ of the amendments on the financial instruments in the following section.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

L Property, plant and equipment

Property, plant and equipment are initially stated at cost, less accumulated depreciation and accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the Bank and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance costs are charged to the statement of income during the financial period in which they are incurred.

Freehold land and capital work-in-progress are not depreciated. Other property, plant and equipment are depreciated on a straight line basis to allocate the cost of the assets to their residual values over their estimated useful lives, summarised as follows:

Buildings on freehold land	20 - 50 years
Buildings on leasehold land 50 years or more	40 - 50 years or over the remaining period of the lease, whichever is shorter
Building on leasehold land less than 50 years	40 - 50 years or over the remaining period of the lease, whichever is shorter
Office equipment, furniture and fixtures:	
- office equipment	3 - 10 years
- furniture and fixtures	5 - 10 years
Renovations	5 - 10 years or over the period of the tenancy, whichever is shorter
Computer equipment and hardware:	
- servers and hardware	3 - 7 years
- ATM machine	5 - 10 years
Motor vehicles	5 - 6 years
General plant and machinery	5 years

Depreciation on capital work-in-progress commences when the assets are ready for their intended use.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Property, plant and equipment are reviewed for impairment at the end of each reporting period and whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Where the carrying amount of an asset is greater than its estimated recoverable amount, it is written down to its recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amounts and are included in non-interest income.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

M Intangible assets

(a) Goodwill

Goodwill arises from a business combination and represents the excess of the aggregate of fair value of consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of any previous equity interest in the acquiree over the fair value of the net identifiable assets acquired and liabilities assumed on the acquisition date. If the fair value of consideration transferred, the amount of non-controlling interest and the fair value of previously held interest in the acquiree are less than the fair value of the net identifiable assets of the acquiree, the resulting gain is recognised in profit or loss.

Goodwill is not amortised but it is tested for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired, and carried at cost less accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to cash-generating units (“CGU”), or groups of CGUs, that is expected to benefit from the business combination in which goodwill arose, identified according to operating segment.

The carrying value of goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs of disposal. Any impairment is recognised immediately as an expense and is not subsequently reversed.

Goodwill on acquisitions of associates and joint arrangements respectively are included in investments in associates and joint arrangements. Such goodwill is tested for impairment as part of the overall balance.

(b) Other intangible assets

Other intangible assets include credit card customer relationships, core deposits, computer software and license. Other intangible assets are initially recognised when they are separable or arise from contractual or other legal rights, the cost can be measured reliably and, in the case of intangible assets not acquired in a business combination, when it is probable that future economic benefits attributable to the assets will flow to the Group and the Bank. The value of intangible assets which are acquired in a business combination is generally determined using fair value at acquisition date. Acquired computer software licences are capitalised on the basis of the costs incurred to acquire and bring to use the specific software.

Intangible assets that have an indefinite useful life, or are not yet ready for use, are tested for impairment annually. This impairment test may be performed at any time during the financial year, provided it is performed at the same time every year. An intangible asset recognised during the current period is tested before the end of the current financial year.

Intangible assets that have a finite useful life are stated at cost less accumulated amortisation and accumulated impairment losses, and are amortised over their estimated useful lives.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

M Intangible assets (Continued)

(b) Other intangible assets (Continued)

Intangible assets are amortised over their finite useful lives as follows:

Customer relationships:

- credit card 12 years

Computer software 3 - 15 years

Core deposits 8 - 20 years

N Leases – the Group and the Bank as lessee

Leases are recognised as right-of-use (“ROU”) asset and a corresponding liability at the date on which the leased asset is available for use by the Group (i.e. the commencement date).

Contracts may contain both lease and non-lease components. The Group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices.

Lease term

In determining the lease term, the Group considers all facts and circumstances that create an economic incentive to exercise an extension option, or not to exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not to be terminated).

The Group reassess the lease term upon the occurrence of a significant event or change in circumstances that is within the control of the Group and affects whether the Group is reasonably certain to exercise an option not previously included in the determination of lease term, or not to exercise an option previously included in the determination of lease term. A revision in lease term results in remeasurement of the lease liabilities. See accounting policy below on reassessment of lease liabilities.

ROU assets

ROU assets are initially measured at cost comprising the following:

- The amount of the initial measurement of lease liability;
- Any lease payments made at or before the commencement date less any lease incentive received;
- Any initial direct costs; and
- Decommissioning or restoration costs.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

N Leases – the Group and the Bank as lessee (Continued)

ROU assets (Continued)

ROU assets that are not investment properties are subsequently measured at cost, less accumulated depreciation and impairment loss (if any). The ROU assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the ROU asset is depreciated over the underlying asset's useful life. In addition, the ROU assets are adjusted for certain remeasurement of the lease liabilities.

Lease liabilities

Lease liabilities are initially measured at the present value of the lease payments that are not paid at that date. The lease payments include the following:

- Fixed payments (including in-substance fixed payments), less any lease incentive receivable;
- Amounts expected to be payable by the Group under residual value guarantees;
- The exercise price of a purchase and extension options if the Group is reasonably certain to exercise that option; and
- Payments of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

Lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, an incremental borrowing rate is used in determining the discount rate which assumes the interest rate that the Group would have to pay to borrow over a similar term, the funds necessary to obtain the asset.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

The Group presents the lease liabilities as a separate line item in the statement of financial position. Interest expense on the lease liability is presented under net interest income in the statement of income.

Short term leases and leases of low value assets

The Group elects to apply MFRS 16 recognition exemption such as short-term leases and leases for which the underlying asset is of low value. Short-term leases are leases with a lease term of 12 months or less with no purchase option. Low-value assets comprise IT equipment and small items of office furniture with value of RM20,000 (or equivalent to USD5,000) or below. Payments associated with short-term leases of equipment and vehicles and all leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

O Leases – the Group and the Bank as lessor

As a lessor, the Group determines at lease inception whether each lease is a finance lease or an operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset to the lessee. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

(a) Finance lease

The Group classifies a lease as a finance lease if the lease transfers substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee.

The Group derecognises the underlying asset and recognises a receivable at an amount equal to the net investment in a finance lease. Net investment in a finance lease is measured at an amount equal to the sum of the present value of lease payments from lessee and the unguaranteed residual value of the underlying asset. Initial direct costs are also included in the initial measurement of the net investment. The net investments is subject to MFRS 9 impairment. In addition, the Group reviews regularly the estimated unguaranteed residual value.

Lease income is recognised over the term of the lease using the net investment method so as to reflect a constant periodic rate of return. The Group revises the lease income allocation if there is a reduction in the estimated unguaranteed residual value.

(b) Operating lease

The Group classifies a lease as an operating lease if the lease does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee.

The Group recognises lease payments received under operating lease as lease income on a straight-line basis over the lease term. When assets are leased out under an operating lease, the asset is included in the statement of financial position based on the nature of the asset. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of underlying asset and recognised as an expense over the lease term on the same basis as lease income.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

P Currency translations

(a) Functional and presentation currency

Items included in the Financial Statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The Financial Statements are presented in Ringgit Malaysia ("RM"), which is the Group's and the Bank's functional and presentation currency.

(b) Foreign currency transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at financial year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of income, except when deferred in equity as qualifying cash flow hedges and qualifying net investment hedges.

Changes in the fair value of monetary securities denominated in foreign currency classified as debt instruments at fair value through other comprehensive income are analysed between translation differences resulting from changes in the amortised cost of the security and other changes in the carrying amount of the security. Translation differences related to changes in the amortised cost are recognised in statement of income, and other changes in the carrying amount are recognised in equity.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. Translation differences on non-monetary financial assets and liabilities, such as equity instruments held at fair value through profit or loss, are reported as part of the fair value gain or loss. Translation differences on non-monetary financial assets such as equities classified as fair value through other comprehensive income are included in the revaluation reserve of equity instruments at fair value through other comprehensive income.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

P Currency translations (Continued)

(c) Group companies

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of the statement of financial position;
- income and expenses for each statement of income are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- all resulting exchange differences are recognised as a separate component of equity.

On consolidation, exchange differences arising from the translation of the net investment in foreign operations and of borrowings and other financial instruments designated as hedges of such investments, are taken to shareholders' equity. When a foreign operation is partially disposed of or sold, exchange differences that were recorded in equity are recognised in the statement of income as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisitions of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. Exchange differences arising are recognised in other comprehensive income.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

Q Income and deferred taxes

The tax expense for the financial year comprises current and deferred income tax. Tax is recognised in statement of income, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is recognised in other comprehensive income or directly in equity, respectively.

Current tax expense is determined according to the tax laws of each jurisdiction in which the Group operates and includes all taxes based upon the taxable profits.

Deferred income tax is recognised in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Financial Statements. However, deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss, except for; where both an asset and a liability are recognised at the same time such as leases.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences and unused tax losses can be utilised.

Deferred income tax is recognised on temporary differences arising on investments in subsidiaries, associates and joint ventures except where the timing of the reversal of the temporary difference can be controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax related to fair value re-measurement of debt instruments at fair value through other comprehensive income and equity instruments at fair value, which is charged or credited directly to equity, is also credited or charged directly to equity and is subsequently recognised in the statement of income together with the deferred gain or loss.

Deferred income tax is determined using tax rates (and tax laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

The Group is within the scope of the OECD's Pillar Two model rules. The disclosures in relation to the OECD Pillar Two have been included in Note 47.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

R Share capital

(a) Classification

Ordinary shares and non-redeemable preference shares with discretionary dividends are classified as equity. Other shares are classified as equity and/or liability according to the economic substance of the contractual arrangement of the particular instrument.

(b) Share issue costs

Incremental external costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(c) Dividends

Dividends on ordinary shares and Redeemable Preference Shares are recognised as a liability when the shareholders' right to receive the dividend is established.

Distributions to holders of a financial instrument classified as an equity instrument are charged directly to equity.

(d) Earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Group and the Bank, excluding any costs of servicing equity other than ordinary shares; and
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year and excluding treasury shares.

(e) Diluted earnings per share

Diluted earnings per share adjusts the figures in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares; and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

S Employee benefits

(a) Short term employee benefits

The Group and the Bank recognise a liability and an expense for bonuses. The Group and the Bank recognise a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

Wages, salaries, paid annual leave and sick leave, bonuses, and non-monetary benefits are accrued in the financial year in which the associated services are rendered by employees of the Group and the Bank.

(b) Post-employment benefits

The Group and the Bank have various post-employment benefit schemes. These benefit plans are either defined contribution or defined benefit plans.

Defined contribution plans

Defined contribution plan is a pension plan under which the Group and the Bank pay fixed contributions into a separate entity (a fund) and will have no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees benefits relating to employee service in the current and prior periods.

The Group's and the Bank's contributions to defined contribution plans are charged to the statement of income in the financial year to which they relate. Once the contributions have been paid, the Group and the Bank have no further payment obligations. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

Defined benefit plans

Defined benefit plan is a pension plan that is not a defined contribution plan. Defined benefit plans define an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation.

The defined benefit liability recognised in the statement of financial position is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets, together with adjustments for actuarial gains/losses and unrecognised past service cost.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

S Employee benefits (Continued)

(b) Post-employment benefits (Continued)

Defined benefit plans (Continued)

The Group determines the present value of the defined benefit obligation and the fair value of any plan assets with sufficient regularity such that the amounts recognised in the financial statements do not differ materially from the amounts that would be determined at the end of the reporting period.

The defined benefit obligation, calculated using the projected credit unit method, is determined by independent actuaries, by discounting estimated future cash outflows using market rates on Thai government zero-coupon bond that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension obligation.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the financial year in which they arise.

Past-service costs are recognised immediately in profit or loss.

(c) Other long term employee benefits

The cost of long term employee benefits (for example, long term service leave) is accrued to match the rendering of the services by the employees concerned using a basis similar to that for defined benefit plans for the liability which is not expected to be settled within 12 months, except that remeasurements are recognised immediately in profit or loss.

(d) Termination benefits

Termination benefits are payable when employment is terminated by the Group and the Bank before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Group and the Bank recognise termination benefits at the earlier of the following dates:

- (a) when the Group and the Bank can no longer withdraw the offer of those benefits; and
- (b) when the Group and the Bank recognise costs for a restructuring that is within the scope of MFRS 137 and involves the payment of termination benefits.

In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to their present value.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

S Employee benefits (Continued)

(e) Share-based compensation benefits

Long Term Incentive Plan (“LTIP”)

The Group implements a Long Term Incentive Plan (“LTIP”), which is awarded to employees who hold senior management positions and key roles within the CIMB Group and its subsidiary companies, and who fulfill the eligibility criteria and have been approved for participation by the LTIP Committee. Any LTIP awards made to Executive Directors (or any persons connected to the directors) is subject to the approval of the shareholders at a general meeting.

The LTIP, which is valid for 7 years from the implementation date, comprises of 2 performance-based plans – the Employee Share Option Scheme (“ESOS”) and the Share Grant Plan (“SGP”). Details of the key features of ESOS and SGP are set out in Note 45(g).

The fair value of the employee services received in exchange for the grant of the share options and shares is recognised as an expense in the statements of income over the vesting periods of the grant with a corresponding increase to share-based payment reserve within equity.

The total amount to be expensed over the vesting period is determined by reference to the fair value of the share options and shares granted, excluding the impact of any non-market vesting conditions. Non-market vesting conditions are included in assumptions about the number of share options and shares that are expected to vest. At each reporting date, the Group revises its estimates of the number of share options and shares that are expected to vest. It recognises the impact of the revision of original estimates, if any, in the statements of income, with a corresponding adjustment to share-based payment reserve in equity.

Employee Ownership Plan (“EOP”)

CIMB Group operates an equity-settled, share-based compensation plan, where ordinary shares of CIMB are purchased from the market at market value and awarded to the eligible executive employees.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled, ending on the date on which the award is fully released to relevant employees (“the final release date”). The fair value of the employee services received in exchange for the grant of the shares is recognised as an expense in statement of income over the period of release, based on the best available estimate of the number of shares expected to be released at each of the relevant release date. On the final release date, the estimate will be revised to equal the actual number of shares that are ultimately released to the employees.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

T Impairment of non-financial assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount of the asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows ("cash-generating units"). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

The impairment loss is charged to the statement of income unless it reverses a previous revaluation in which case it is charged to the revaluation surplus. Impairment losses on goodwill are not reversed. In respect of other assets, any subsequent increase in recoverable amount is recognised in the statement of income unless it reverses an impairment loss on a revalued asset in which case it is taken to revaluation surplus.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

U Foreclosed assets

Foreclosed assets are stated at the lower of carrying amount and fair value less costs to sell and reported within “Other Assets”.

V Provisions

Provisions are recognised by the Group and the Bank when all of the following conditions have been met:

- (i) the Group and the Bank have a present legal or constructive obligation as a result of past events;
- (ii) it is probable that an outflow of resources to settle the obligation will be required; and
- (iii) a reliable estimate of the amount of obligation can be made.

Where the Group and the Bank expect a provision to be reimbursed by another party, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present values of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

W Financial guarantee contracts

Financial guarantee contracts are contracts that require the the Group and the Bank to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to banks, financial institutions and other bodies on behalf of customers to secure loans, overdrafts and other banking facilities.

Financial guarantee contracts are recognised as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value. The fair value of financial guarantees is determined as the present value of the difference in net cash flows between the contractual payments under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations. Subsequent to initial recognition, financial guarantee contracts are subsequently measured at the higher of the amount determined in accordance with the expected credit loss model under MFRS 9 “Financial instruments” and the amount initially recognised less cumulative amount of income recognised in accordance with the principles of MFRS 15 “Revenue from Contracts with Customers”, where appropriate.

Any increase in the liability relating to guarantees is reported in the statement of income within ECL for commitments and contingencies

X Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, bank balances and deposit placements with original maturity of 3 months or less.

Y Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker is the person or group that allocates resources to and assesses the performance of the operating segments of an entity. The Group has determined the Group Executive Committee as its chief operating decision-maker.

Intra-segment revenue and costs are eliminated at head office. Income and expenses directly associated with each segment are included in determining business segment performance.

Z Non-current assets held for sale

Non-current assets are classified as assets held for sale and stated at the lower of carrying amount and fair value less costs to sell if their carrying amount is recovered principally through a sale transaction rather than through continuing use.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

AA Investment properties

Investment properties, comprising principally land and office buildings, are held for long term rental yields or for capital appreciation or both, and are not occupied by the Group and the Bank.

Investment properties of the Group are stated at fair value, representing the open-market value determined annually by external valuers. Fair value is based on active market prices, adjusted, if necessary, for any difference in the nature, location or condition of the specific asset. If this information is not available, the Group uses alternative valuation methods such as recent prices on less active markets or discounted cash flow projections. Changes in fair values are recorded in the statements of income as part of other income.

Subsequent expenditure is recognised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Changes in fair values are recognised in profit or loss. Investment properties are derecognised either when they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal.

On disposal of an investment property, or when it is permanently withdrawn from use and no future economic benefits are expected from its disposal, it shall be derecognised (eliminated from the statement of financial position). The difference between the net disposal proceeds and the carrying amount is recognised in statement of income in the period of the retirement or disposal.

Where the Group disposes of a property at fair value in an arm's length transaction, the carrying value immediately prior to the sale is adjusted to the transaction price, and the adjustment is recorded in profit or loss as a net gain/loss from fair value adjustment on investment property.

CIMB Bank Berhad

(Incorporated in Malaysia)

Summary of Material Accounting Policies for the financial year ended 31 December 2024 (Continued)

AB Contingent assets and contingent liabilities

Contingent assets arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the Group. As this may result in the recognition of income that may never be realised, contingent assets are not recognised in the Group's Financial Statements but disclosed where inflows of economic benefits are probable, but not virtually certain.

Contingent liabilities, which do not include financial guarantee contracts, are possible obligations that arise from past events whose existence will be confirmed only by the occurrence, or non-occurrence, of one or more uncertain future events not wholly within the control of the Group; or are present obligations that have arisen from past events but are not recognised because it is not probable that settlement will require the outflow of economic benefits, or because the amount of the obligations cannot be reliably measured.

Contingent liabilities are not recognised in the Financial Statements but are disclosed unless the probability of settlement is remote.

AC Bills and acceptances payable

Bills and acceptances payable represent the Group's own bills and acceptances rediscounted and outstanding in the market.

AD Financing assistance scheme

Financing under a government scheme is recognised and measured in accordance with MFRS 9 "Financial Instruments", with the benefit at a below market and concession rate measured as the difference between the initial carrying amount or fair value of the financing and the amount received.

The benefit of government schemes that addresses identified costs or expenses incurred by the Group is recognised in the profit or loss in the same financial period when the cost or expenses are recognised, when the required conditions are fulfilled in accordance with MFRS 120 "Accounting for Government Grants and Disclosure of Government Assistance".

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024

1 General information

The Bank is principally engaged in all aspects of commercial banking and in the provision of related financial services, including Islamic banking. The principal activities of the significant subsidiaries as set out in Note 16 in the Financial Statements, consist of Islamic banking, offshore banking, debt factoring, trustees and nominee services, and property ownership and management. There was no significant change in the nature of these activities during the financial year.

The holding company of the Bank is CIMB Group Sdn. Bhd. and the Directors regard CIMB Group Holdings Bhd (“CIMB Group”), a company listed on the Main Board of the Bursa Malaysia Securities Berhad, as the ultimate holding company. Both companies are incorporated in Malaysia.

The Bank is a limited liability company, incorporated and domiciled in Malaysia.

The address of the Bank’s registered office is 13th Floor, Menara CIMB, Jalan Stesen Sentral 2, Kuala Lumpur Sentral, 50470 Kuala Lumpur, Malaysia.

The Bank’s principal place of business is at 17th Floor, Menara CIMB, Jalan Stesen Sentral 2, Kuala Lumpur Sentral, 50470 Kuala Lumpur, Malaysia.

**Notes to the Financial Statements
for the financial year ended 31 December 2024 (Continued)****3 Investment account placement**

The investment account are exposures to Restricted Profit Sharing Investment Accounts (“RPSIA”), as part of an arrangement with CIMB Islamic. The RPSIA is a contract based on Shariah concept of Mudharabah between the Bank and CIMB Islamic to finance a specific business venture where the Bank solely provides capital and the business ventures are managed solely by the entrepreneur. The profit of the business venture is shared between both parties based on a pre-agreed ratio and management fees.

The underlying assets of CIMB Islamic for the RPSIA are as follows:

	The Bank	
	2024	2023
	RM'000	RM'000
<u>Principal</u>		
Term financing	924,431	1,422,062
Revolving credit	2,003,664	2,003,867
	<u>2,928,095</u>	<u>3,425,929</u>

As at 31 December 2024, the RPSIA placements have an average rate of return ranging between 3.68% to 4.30% (2023: 3.60% to 4.01%) per annum.

6 Debt instruments at fair value through other comprehensive income (Continued)

Impact of movements in gross carrying amount on expected credit losses

2024:

Stage 1 ECL decreased by RM12.7 million and RM12.8 million for the Group and the Bank respectively mainly due to change in credit risk and derecognition of the financial assets, offset by newly purchased financial assets.

Stage 2 ECL increased by RM16.4 million for the Group and RM1.3 million for the Bank mainly due to the change in credit risk.

2023:

Stage 1 ECL increased by RM20.0 million and RM19.0 million for the Group and the Bank respectively mainly due to newly purchased financial assets, offset by derecognition of the financial assets.

Stage 2 ECL decreased by RM0.5 million for both the Group and the Bank mainly due to the change in credit risk.

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

8 Debt instruments at amortised cost (Continued)

Impact of movements in gross carrying amount on expected credit losses

2024:

Stage 1 ECL decreased by RM4.8 million for the Group and RM5.8 million for the Bank mainly due to derecognition of the financial assets, offset by newly purchased financial assets.

Stage 2 ECL increased by RM1.2 million for both the Group and the Bank respectively mainly due to financial assets migrated from Stage 1 to Stage 2 due to deterioration in credit quality.

Stage 3 ECL decreased by RM26.9 million for the Group and RM19.9 million for the Bank mainly due to financial assets being written off during the year.

2023:

Stage 1 ECL increased by RM6.2 million and RM4.6 million for the Group and the Bank respectively mainly due to newly purchased financial assets, offset by derecognition of the financial assets.

Stage 2 ECL decreased by RM3.8 million for both the Group and the Bank mainly due to financial assets migrated from Stage 2 to Stage 1 due to improvement in credit quality.

Stage 3 ECL increased by RM35.1 million for the Group and the Bank respectively due to deterioration in credit quality.

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

9 Loans, advances and financing (Continued)

(i) By type: (Continued)

- (a) Included in the Group's and the Bank's loans, advances and financing balances are RM15,517,000 (2023: RM17,810,000) of reinstated loans which were previously impaired and written off prior to 2005. The reinstatements of these loans have been approved by BNM on 5 February 2010 and were done selectively on the basis of either full settlement of arrears or upon regularised payments of rescheduled loan repayments.
- (b) The Group and the Bank have undertaken fair value hedge and cash flow hedge on the interest rate risk and foreign currency risk of loans, advances and financing of RM2,617,767,000 and RM1,994,302,000 respectively (2023: RM1,989,145,000 and RM1,723,889,000) using interest rate swaps.
- (c) As part of an arrangement with CIMB Islamic in relation to the RPSIA, the Bank records as deposits and placements with banks and other financial institutions, its exposure in the arrangement (See Note 3), whereas CIMB Islamic records its exposure as loans, advances and financing. The RPSIA arrangement exposes the Bank to the risks and rewards on the financing and accordingly, the Bank accounts for all the expected credit losses arising from the RPSIA financing.

As at 31 December 2024, the gross exposure and expected credit losses relating to RPSIA financing are RM2,928,095,000 (2023: RM3,425,929,000) and RM352,000 (2023: RM415,000) respectively.

CIMB Bank Berhad

(Incorporated in Malaysia)

**Notes to the Financial Statements
for the financial year ended 31 December 2024 (Continued)****9 Loans, advances and financing (Continued)**

(i) By type: (Continued)

(d) Included in the loans, advances and financing of the Group and the Bank as at 31 December 2024 are financing which are disclosed as “Restricted Agency Investment Account” in the financial statements of CIMB Islamic. The details are as follows:

	The Group		The Bank	
	2024	2023	2024	2023
	RM'000	RM'000	RM'000	RM'000
Syndicated term loan	1,532,005	1,531,910	1,532,005	1,531,910
Revolving credit	-	1,202,943	-	1,202,943
Other term loan	10,750,279	10,147,962	10,750,279	10,147,962
	12,282,284	12,882,815	12,282,284	12,882,815

Restricted Agency Investment Account (“RAIA”) arrangement is with the Bank’s wholly owned subsidiary, CIMB Islamic, and the contract is based on the Wakalah principle where the Bank, solely provide the funds, whilst the assets are managed by CIMB Islamic (as the Wakeel or agent). In the arrangement, CIMB Islamic has transferred substantially all the risk and rewards of ownership of the Investment (i.e. the financing facility) to the Bank. Accordingly, the underlying assets (including the undisbursed portion of the financing commitment) and expected credit losses arising thereon, if any, are recognised and accounted for by the Bank.

Impact of movements in gross carrying amount on expected credit losses

2024:

Stage 1 ECL decreased by RM390 million for the Group and RM290 million for the Bank mainly due to loans, advances and financing that were fully repaid, having movement in the existing account balances during the financial year, and accounts migrated from Stage 1 to Stage 2 or Stage 3 due to deterioration in credit quality amounting to RM162,529 million for the Group and RM105,189 million for the Bank, offset by newly originated loans and accounts migrated from Stage 2 or Stage 3 to Stage 1 due to improvement in credit quality amounting to RM177,550 million for the Group and RM110,866 million for the Bank.

Stage 2 ECL decreased by RM22 million for the Group and RM62 million for the Bank as a result of loans, advances and financing that were fully repaid, having movement in the existing account balances during the financial year, and accounts migrated from Stage 2 to Stage 1 due to improved credit quality amounting to RM33,393 million for the Group and RM20,241 million for the Bank, offset by accounts migrated from Stage 1 to Stage 2 due to deterioration in credit quality.

Stage 3 ECL increased by RM159 million for the Group and RM115 million for the Bank as a result of RM5,715 million and RM2,933 million of the Group's and the Bank's loans, advances and financing that were transferred to Stage 3 due to credit quality deterioration. This is however offset by the loans that were fully repaid, having movement in the existing account balances during the financial year, and transferred to Stage 1 or Stage 2 due to improvement in credit quality. Changes in S3 ECL is also due to loans, advances and financing which ECL mostly fully provided for that were written off during the financial year.

The amount of loans, advances and financing whose cash flows were modified of the Group and the Bank during the financial year were RM311,747,000 and RMNil.

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

9 Loans, advances and financing (Continued)

Impact of movements in gross carrying amount on expected credit losses (Continued)

2023:

Stage 1 ECL increased by RM1,344 million for the Group and RM641 million for the Bank mainly due to newly originated loans and accounts migrated from Stage 2 or Stage 3 to Stage 1 due to improvement in credit quality amounting to RM191,024 million for the Group and RM118,509 million for the Bank, offset by loans, advances and financing that were fully repaid, having movement in the existing account balances during the financial year, and accounts migrated from Stage 1 to Stage 2 or Stage 3 due to deterioration in credit quality.

Stage 2 ECL decreased by RM1,606 million for the Group and RM1,124 million for the Bank as a result loans, advances and financing that were fully repaid, having movement in the existing account balances during the financial year, and accounts migrated from Stage 2 to Stage 1 due to improved credit quality amounting to RM57,337 million for the Group and RM34,507 million for the Bank, offset by accounts migrated from Stage 1 to Stage 2 due to deterioration in credit quality.

Stage 3 ECL decreased by RM588 million for the Group and RM829 million for the Bank as a result of loans, advances and financing that were fully repaid, having movement in the existing account balances during the financial year, and transferred to Stage 1 or Stage 2. Changes in S3 ECL is also due to loans, advances and financing which ECL mostly fully provided for that were written off during the financial year of RM2,654 million and RM2,132 million for the Group and the Bank respectively. This is however offset by RM7,134 million and RM3,691 million of the Group's and the Bank's loans, advances and financing that were transferred into Stage 3 due to credit quality deterioration.

The amount of loans, advances and financing whose cash flows were modified of the Group and the Bank during the financial year were RM311,943,000 and RM52,299,000.

Exchange difference	(1,671)	2,303
At 31 December	33,990	63,024

Foreclosed properties are stated at the lower of carrying amount and fair value less cost to sale. Independent valuation of the foreclosed properties was performed by valuers to determine the fair value of the foreclosed properties as at 31 December 2024. The fair values are within Level 2 of the fair value hierarchy. The fair values have been derived using the sale comparison approach. Sale price of comparable land and building in close proximity are adjusted for differences in key attributes such as property size.

**Notes to the Financial Statements
for the financial year ended 31 December 2024 (Continued)****15 Statutory deposits with central banks**

The non-interest bearing statutory deposits maintained with Bank Negara Malaysia (“BNM”) are in compliance with Section 26(2)(c) of the Central Bank of Malaysia Act 2009, the amounts of which are determined at set percentages of total eligible liabilities. The non-interest bearing statutory deposits of foreign subsidiaries and foreign branches are maintained with respective central banks in compliance with the applicable legislation.

16 Investments in subsidiaries

	The Bank	
	2024	2023
	RM'000	RM'000
Unquoted shares, at cost		
- ordinary shares	6,142,994	6,432,929
- preference shares	350,000	350,000
	6,492,994	6,782,929
Fair values arising from fair value hedge	51,258	59,752
Less: Allowance for impairment losses	(33,715)	(34,075)
	6,510,537	6,808,606

The Bank has undertaken fair value hedge on the foreign exchange risk arising from its investment in CIMB Bank PLC. The fair value hedge on CIMB Bank PLC is accounted for as net investment hedge at Group level.

- (a) Additional investment in subsidiaries
- i. On 18 March 2024, the Bank completed the capital injection of VND90 billion into new ordinary shares of CIMB Bank (Vietnam) Limited. The new ordinary shares were issued by CIMB Bank (Vietnam) Limited at an issue price of VND1 each to CIMB Bank.
 - ii. On 13 December 2024, the Bank completed the capital injection of VN250 billion into new ordinary shares of CIMB Bank (Vietnam) Limited. The new ordinary shares were issued by CIMB Bank (Vietnam) Limited at an issue price of VND1 each to CIMB Bank.
- (b) CIMB Nominees (S) Ptd Ltd has been dissolved on 22 May 2024 via Member's Voluntary Liquidation.
- (c) On 24 December 2024, CIMB Bank (L) Limited repatriated USD90 million to the Bank, of which RM282.1 million served as capital repayment whilst the excess as dividend distribution.

[^] Strike off completed during the financial year

[~] Not being audited

All the subsidiaries, unless otherwise stated, are incorporated in Malaysia.

Impairment test of investment in subsidiaries

As at 31 December 2024, the net assets of CIMB Vietnam was below its carrying amount. Accordingly, the Bank had undertaken an impairment test on the carrying amount of the investments in CIMB Vietnam.

CIMB Vietnam

The recoverable amount of the investment in CIMB Vietnam was determined based on the fair value less costs of disposal. The fair value was determined based on the price-to-book (P/B) multiples of comparable companies. The fair value measurement was categorised within level 2 of the fair value hierarchy. No impairment is required as the fair value less costs of disposal exceeded the carrying amount.

Further sensitivity tests have been performed and the estimated recoverable amount will only be equal to the carrying value under the assumptions when the P/B multiple is stressed by 645 basis points (2023: 827 basis points) while all other assumptions remained constant.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

16 Investments in subsidiaries (Continued)

(b) Consolidation of the silo of Merdeka Kapital Berhad

In 2011, the Bank obtained funding through securitisation of its hire purchase receivables to Merdeka Kapital Berhad (“MKB”), a special purpose vehicle set up to undertake multi securitisation transactions. Arising from the adoption of MFRS 10 “Consolidated Financial Statements” in 2013, the Group has consolidated the silo of MKB in relation to the Bank’s hire purchase receivables, as this silo has been legally ring-fenced for this transaction. The securitisation transaction was completed in 2016.

On 31 March 2017, the Bank obtained new funding through securitisation of its hire purchase receivables to MKB.

The securitisation transaction was completed on 27 March 2024.

(a) Information about joint venture:

The principal place of business and country of incorporation of the joint venture is Malaysia. The joint venture is measured using the equity method. There is no available quoted market price of the investment in the joint venture.

The direct joint venture of the Bank is:

Name	Principal activity	Percentage of equity held	
		2024	2023
		%	%
Proton Commerce Sdn. Bhd.	Financing of vehicles	50	50

On 22 October 2003, Bumiputra-Commerce Finance Berhad (“BCF”) (now known as Mutiara Aset Berhad) entered into a joint venture agreement with Proton Edar Sdn. Bhd. (“PESB”) for the purposes of building and operating a competitive vehicle financing business in Malaysia for vehicles distributed by PESB. Subsequently, a joint venture was incorporated under the name of Proton Commerce Sdn. Bhd. (“PCSB”) which is 50:50 owned by BCF and PESB respectively. PCSB is primarily responsible for developing, managing and marketing hire purchase loans for vehicles sold to the customers of PESB. Pursuant to the joint venture, BCF issued RM200 million Perpetual Preference Shares (“PPS”) which were fully subscribed by PCSB. Pursuant to the vesting of the finance company business and the related assets and liabilities of BCF to the Bank and the subsequent capital reduction exercise undertaken by BCF in 2006, the BCF PPS were cancelled, and the Bank issued RM200 million PPS to PCSB.

	<u>3,945,365</u>	<u>3,951,297</u>	<u>3,555,075</u>	<u>3,555,075</u>

CIMB Bank Berhad

(Incorporated in Malaysia)

**Notes to the Financial Statements
for the financial year ended 31 December 2024 (Continued)****21 Goodwill (Continued)**

In respect to the foreign banking operation in Thailand, goodwill is allocated to the following CGUs; Consumer Banking and Wholesale Banking of RM51,165,000 and RM147,174,000 respectively, as at 31 December 2023 and 31 December 2024.

Impairment test for goodwillValue-in-use

The recoverable amount of CGU is determined based on the value-in-use calculations. These calculations use pre-tax cash flow projections based on the 2025 financial budgets approved by the Board of Directors, projected for four years based on the average historical Gross Domestic Product (“GDP”) growth of the country covering a four-year period (2025-2028), revised for current economic conditions. Cash flows beyond the four years period are extrapolated using the estimated terminal growth rates and discounted using pre-tax discount rates which reflect the specific risks relating to the CGU. The cash flow projections are derived based on a number of key factors including the past performance and management’s expectation of market developments.

The estimated terminal growth rates and discount rates used for value-in-use calculations are as follows:

	2024		2023	
	Terminal Growth rate	Discount rate	Terminal Growth rate	Discount rate
Malaysia				
Retail Finance Services	4.08%	9.66%	4.16%	10.36%
Islamic Banking	4.08%	9.66%	4.16%	10.36%
Group Cards	4.08%	9.66%	4.16%	10.36%
Commercial Banking	4.08%	9.66%	4.16%	10.36%
Corporate Banking	4.08%	9.66%	4.16%	10.36%
Treasury	4.08%	9.66%	4.16%	10.36%
Thailand				
Wholesale Banking	1.79%	8.63%	1.88%	9.33%
Consumer Banking	1.79%	8.63%	1.88%	9.33%

Management believes that no reasonably possible change in any of the key assumptions would cause the carrying value of any CGU to exceed its recoverable amount.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

22 Intangible assets (Continued)

The valuation of customer relationships was determined through the sum of the discounted future excess earnings attributable to existing customers over the remaining life span of the customer relationships. Income from existing customer base was projected, adjusted for expected attrition and taking into account applicable costs to determine future excess earnings. The discount rate used in the valuation of customer relationships was 9.9%-10.0%, which is arrived at using the weighted average cost of capital adjusted for the risk premium after taking into consideration the average market cost of equity.

The valuation of core deposits acquired in a business combination was derived by discounting the anticipated future benefits in the form of net interest savings from core deposits. The discount rate used was 8.0%-8.4%, which was derived from the average of the weighted average cost of capital and the cost of equity, reflecting the lower risk premium for core deposit intangibles compared with equity returns.

The remaining amortisation periods of the intangible assets are as follows:

Computer software	1 month – 10 years

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

27 Derivative financial instruments (Continued)

(i) Fair value hedge

The Group and the Bank use interest rate swaps to hedge its exposure to changes in the fair value of loans, advances and financing, bonds and debentures, deposits and placement of bank and other financial institutions, subordinated obligations, recourse obligation on loans and financing sold to Cagamas, other liabilities, debt instruments at FVOCI, debt instruments at amortised cost and deposits from customers in respect of benchmark interest rates.

The Group and the Bank use cross currency interest rate swap to hedge foreign currency risk from the issuance of senior bond and debentures issued denominated in foreign currencies. The foreign currency risk component is managed and mitigated by the use of cross currency swaps, which exchange fixed interest payments in foreign currencies for floating interest payment in MYR.

The Group's hedge accounting policy only allows for effective hedge relationships to be established. Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessment to ensure that an economic relationship exists between the hedged item and hedging instrument. The hedge effectiveness is assessed by comparing changes in the fair value of the hedged items attributable to changes in the benchmark rate of interest with changes in the fair value of the interest rate swaps and cross currency interest rate swaps.

The Group and the Bank establish the hedge ratio by matching the notional of the derivatives with the principal of the underlying being hedged. Ineffectiveness is recognised on hedge where the change in the designated component value of the hedging instrument exceeds on an absolute basis the change in value of the hedged item attributable to the hedged risk. In hedges of the above interest rate risk, this may arise if differences arise between the credit risk inherent within the hedged item and the hedging instrument. The Group uses collateral/credit enhancement to mitigate the risk. However, the remaining risk can result in hedge ineffectiveness.

The main source of ineffectiveness that are expected to affect the hedging relationship during the financial year are:

- The effect of the counterparty and the Group's own credit risk on the fair value of the interest rate swap and cross currency swap, which is not reflected in the fair value of the hedged item attributable to the change in interest rate; and
- Differences in maturities and reset dates of the interest rate swaps and the fixed rate bonds or liabilities.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

27 Derivative financial instruments (Continued)

(ii) Cash flows hedge

The Group used interest rate swaps and cross currency swaps to hedge interest rate risk in respect of benchmark interest rate and foreign currency risks of loans, advances and financing, bonds and debentures, deposits and placement of bank and other financial institutions, other borrowings, subordinated obligations and debt instruments at FVOCI denominated in foreign currencies. The interest rate risk and foreign currency risk component are managed and mitigated by the use of hedging instruments, which exchange floating rate payments for fixed rate payments (interest rate risk) and exchange floating rate payments for floating rate payments (foreign currency risks) in functional currency.

The effectiveness is assessed by comparing the changes in fair value of the interest rate swaps and cross currency swaps with changes in fair value of the hedged item attributable to the hedged risk using the hypothetical derivative method.

The Group established the hedging ratio by matching the notional of the derivative with the principal of the hedged item. Possible sources of ineffectiveness are as follow:

- Differences in timing of cash flows between hedged item, interest rate swaps and cross currency swaps;
- Hedging derivatives with non-zero fair value at the inception as a hedging instrument; and
- Counterparty credit risk which impacts the fair value of of interest rate swaps and cross currency swaps but not the hedged items.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

27 Derivative financial instruments (Continued)

(iii) Net investment hedge

The Group and the Bank use non-derivative financial liability and currency swaps to hedge the foreign exchange rate exposure arising from net investment in foreign operations that have a different functional currency from the Group. The Group has investment in foreign operations which is consolidated in its financial statements and whose functional currencies are non MYR.

The foreign exchange risk arises from the fluctuation in spot exchange rates between the functional currency of the foreign operations and the Group's functional currency. The hedged risk is the risk of weakening foreign currencies against MYR that will result in reduction in the carrying amount of the Group's net investment in foreign operations. The foreign currency risk component is determined as the change in the carrying amount of net assets of the foreign operations arising solely from changes in spot foreign currency exchange rates.

The Group assesses effectiveness by comparing changes in the carrying amount of the non-derivative financial liability that attributable to a change in the spot rate (the offset method). The Group only designates the spot element of the forward foreign exchange contract. Changes in the fair value of the hedging instrument attributable to changes in forward points and the effect of discounting are recognised in other comprehensive income which does not included in the hedge effectiveness assessment.

The Group establishes the hedging ratio by matching the notional of the forward contracts with the designated net assets of the foreign operation. There is no ineffectiveness arises from hedge of net investment in foreign operations.

Of the RM21,515,501,000 nominal of interest rate swaps above, RM117,501,000 related to HKD interest rate swaps before the anticipated HKD HIBOR replacement; RM21,398,000,000 related to MYR interest rate swaps before the anticipated MYR KLIBOR replacement.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

27 Derivative financial instruments (Continued)

The amounts relating to items designated as hedging instruments and hedge ineffectiveness were as follows: (Continued)

*All hedging instruments are included in the derivative asset and derivative liabilities line item in the statement of financial position.

**All hedge ineffectiveness and reclassification recognised in the 'Net non-interest income' in the statement of income.

***All hedge ineffectiveness and reclassification from the 'Hedge reserve' to profit or loss are recognised in the 'Net non interest income' in the statement of income.

Effect of IBOR Reform - significant assumption [IFRS7 para 24H(d)]

In calculating the change in fair value attributable to the hedged risk for the fixed-rate loans and fixed rate bonds, the Group has made the following assumptions that reflect its current expectations:

- The Group has applied the assumptions afforded by IFRS/MFRS 9 6.8 where applicable
- The Group will cease applying IFRS/MFRS 9 6.8 prospectively when the uncertainty arises from IBOR reform is no longer exist and/or when the hedging relationship discontinued
- No other changes to the terms of the hedged items are anticipated

(Incorporated in Malaysia)

**Notes to the Financial Statements
for the financial year ended 31 December 2024 (Continued)****28 Other liabilities (Continued)****(a) Post employment benefit obligations (Continued)****(ii) Defined benefit plans**

CIMB Thai Bank operates final salary defined benefit plans for employees. The latest actuarial valuation of the plans for CIMB Thai Bank was carried out as at 31 December 2024.

The amounts recognised in the statements of financial position in respect of defined benefit plans are determined as follows:

	The Group	
	2024	2023
	RM'000	RM'000
Present value of unfunded obligations	178,436	209,802
Liability	178,436	209,802

The amount recognised in the statements of income and statements of comprehensive income in respect of defined benefit plans are as follows:

	The Group	
	2024	2023
	RM'000	RM'000
Service cost:		
Current service costs	16,619	16,229
Past service costs and gain from settlements	(14,848)	(429)
Net interest expense	5,745	6,456
Others	(30)	-
Components of defined benefits costs recognised in statements of income	7,486	22,256
Remeasurement:		
- Actuarial (gain)/loss:		
- from changes in financial assumptions	(11,392)	6,671
- Experience adjustments	(6,323)	(83)
Components of defined benefits costs recognised in statements of comprehensive income	(17,715)	6,588
	(10,229)	28,844

CIMB Bank Berhad

(Incorporated in Malaysia)

**Notes to the Financial Statements
for the financial year ended 31 December 2024 (Continued)****28 Other liabilities (Continued)****(a) Post employment benefit obligations (Continued)****(ii) Defined benefit plans (Continued)**

Movements in the defined benefit obligation over the financial year are as follows:

	The Group	
	2024	2023
	RM'000	RM'000
At 1 January	209,802	191,507
Current services costs	16,619	16,229
Past service costs and gain from settlements	(14,848)	(429)
Interest costs	5,745	6,456
Others	(30)	-
	217,288	213,763
Remeasurement:		
- Actuarial (loss)/gain:		
- from changes in financial assumptions	(11,392)	6,671
- Experience adjustments	(6,323)	(83)
	(17,715)	6,588
Exchange fluctuation	(5,007)	10,045
Benefits paid	(16,130)	(20,594)
At 31 December	178,436	209,802

CIMB Bank Berhad

(Incorporated in Malaysia)

**Notes to the Financial Statements
for the financial year ended 31 December 2024 (Continued)****28 Other liabilities (Continued)****(a) Post employment benefit obligations (Continued)****(ii) Defined benefit plans (Continued)**

The principal actuarial assumptions used in respect of the Group's defined benefit plans were as follows:

	The Group	
	2024	2023
	%	%
Discount rates	2.50	3.10
Future salary increases:		
- eligible employees	2.00	-
- others	4.00	5.00
Rate of price inflation - other fixed allowance	2.00	2.00

The sensitivity of defined benefit obligations to changes in the weighted principal assumption is:

	Impact on defined benefit obligations		
	Change in assumption	Increase in assumption	Decrease in assumption
2024			
Discount rates	0.5%	Decreased by 3.19%	Increased by 3.39%
Future salary increases	1.0%	Increased by 7.84%	Decreased by 7.02%
2023			
Discount rates	0.5%	Decreased by 3.19%	Increased by 3.40%
Future salary increases	1.0%	Increased by 7.32%	Decreased by 6.74%

Projected unit credit method is used in calculating the sensitivity of the defined benefit obligations to significant actuarial assumptions.

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated.

The methods and types of assumption used in preparing the sensitivity analysis did not change compared to the previous period.

The expected contribution to post-employment benefits plan for the financial year ended 31 December 2024 to the Group is RM23,292,000 (2023: RM17,740,000).

The weighted average duration of the defined benefit obligations of the Group is 6.58 years (2023: 6.59 years).

On 30 January 2008, the Bank issued 2,974,009,486 Redeemable Preference Shares (“RPS”) to the Bank’s minority shareholders and to CIMB Group at an issue price of RM0.01 each, which was approved by the shareholders via an Extraordinary General Meeting on the same date.

The main features of the RPS are as follows:

- (i) The RPS will rank equal in all respects with each other and senior to ordinary shares.
- (ii) The RPS will be fully paid-up upon issue and allotment.
- (iii) The RPS will not carry any fixed dividend but ranks the most senior in terms of dividend distribution.
- (iv) The RPS will not carry any voting rights.
- (v) The RPS will only be redeemable, subject to BNM’s approval, at the option of the Bank.
- (vi) The RPS will not be convertible.
- (vii) The RPS will not be earmarked to any particular assets or banking activities.
- (viii) The RPS will not represent any fixed charge on the earnings of the Bank.

On 17 July 2023, the Bank redeemed its existing 2,974,009,486 RPS, equivalent to RM29.7 million. As the RPS was redeemed out of profits, an equivalent amount has been transferred to the share capital of the Bank.

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

37 Reserves

The detailed breakdown of the reserves are shown in the Statements of Changes in Equity of the Group and the Bank respectively.

- (a) The statutory reserve is maintained in compliance with BNM guidelines. Effective 3 May 2017, there is no requirement to maintain statutory reserves for banking entities in Malaysia, in accordance with BNM Guideline – Capital Funds.

The statutory reserves of the foreign banking subsidiaries of the Group are in compliance with rules and regulations of the respective authorities.

- (b) Currency translation differences have arisen from translation of net assets of foreign subsidiaries, Labuan offshore banking subsidiary and the Bank's foreign branches. These translation differences are shown under exchange fluctuation reserve.
- (c) Capital reserves, which are non-distributable, relate to the retained earnings of Bumiputra-Commerce Finance Berhad (now known as Mutiara Aset Berhad) and CIMB Investment Bank Berhad, and the four months profit of SBB Berhad (formerly known as Southern Bank Berhad) from 1 July 2006 to 31 October 2006 which were transferred to the Bank, arising from the business combinations under common control using the predecessor basis of accounting in financial year 2006.

A foreign subsidiary of the Bank has transferred balance from retained earnings to capital reserve in order to meet the regulatory capital ratio calculation as retained earnings is capped for the purpose of calculation at 20% of Tier 1 capital following the local regulatory requirement.

- (d) Merger deficit, which is non-distributable, relates to the difference between the cost of the merger between the Bank and CIMB Investment Bank Berhad and SBB Berhad (formerly known as Southern Bank Berhad) in 2006 and the value of the net assets and reserves transferred to the Group and the Bank.
- (e) Hedging reserve mainly arise from net investment hedge activities undertaken by the Group and the Bank on overseas operations and foreign subsidiaries. The reserve is non-distributable and is reversed to the statement of income when the foreign operations and subsidiaries are partially or fully disposed. The Group and the Bank have also entered into cash flow hedges on loans, advances and financing, bonds and debentures, deposits and placement of bank and other financial institution, other borrowings, subordinated obligations and debt instruments at FVOCI.

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

37 Reserves (Continued)

- (f) Regulatory reserve of the Group is maintained by the Bank and the banking subsidiaries in Malaysia, which is transferred from the retained earnings, as an additional credit risk absorbent to ensure robustness on the loan impairment assessment methodology with the adoption of MFRS 9 beginning 1 January 2018.

BNM Guidelines on Financial Reporting/Financial Reporting for Islamic Banking Institutions requires banking institutions to maintain in aggregate, loss allowance for non-credit-impaired exposures and regulatory reserve of no less than 1% of total credit exposures, net of loss allowance for credit-impaired exposures.

As at 31 December 2024, the regulatory reserve is maintained by the Bank and the banking subsidiaries in Malaysia to meet the local regulatory requirement.

- (g) Share-based payment reserve arose from Employee Ownership Plan, Long Term Incentive Plan (“LTIP”), the Group’s and the Bank’s share-based compensation benefits.
- (h) Defined benefit reserves relate to the cumulative actuarial gains and losses on defined benefit plans.
- (i) For debt instruments at FVOCI, changes in fair value are accumulated within the financial assets at FVOCI reserve within equity. The accumulated changes in fair value are transferred to profit or loss when the investment is disposed of.
- (j) The Group and the Bank have elected to recognise changes in the fair value of certain investments in equity instruments in other comprehensive income. These changes are accumulated within the financial assets at FVOCI reserve within equity. The Group and the Bank transfers amounts from this reserve to retained earnings when the relevant equity securities are derecognised.
- (k) The Group and the Bank designate the spot component of foreign currency swap contracts as hedging instruments in net investment hedge relationships. The Group and the Bank defer changes in the forward element of foreign currency swap contracts and the currency basis from the cross currency interest rate swaps contracts in the cost of hedging reserve.
- (l) Changes in fair value of financial liabilities designated at fair value relating to the Group’s and the Bank’s own credit risk are recognised in other comprehensive income. These changes are also accumulated within own credit risk reserve within equity.
- (m) Capital contribution by ultimate holding company is the cost of the ordinary shares and share options of the Group's and the Bank's awarded to eligible employees of the Group and the Bank.

¹ The long term incentive plan ("LTIP") was implemented by CIMB Group Holdings in June 2021. The LTIP awards ordinary shares and share options of CIMB Group to eligible employees of the Group and the Bank. The eligibility of participation in the LTIP shall be at the discretion of the LTIP Committee of CIMB Group Holdings Berhad, and the awarded shares and share options will be vested in stages at predetermined dates subject to continued employment and performance conditions. Refer note 45(g).

² Included in salaries, allowances and bonus is shared-based payment expense of RM14,650,000 and RM13,489,000 (2023: RM13,257,000 and RM11,664,000) for the Group and the Bank respectively. Refer Note 45(f).

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

45 Significant related party transactions and balances

For the purposes of these financial statements, parties (both companies and key management personnel) are considered to be related to the Group if the Group or the Bank has the ability, directly or indirectly to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group or the Bank and the party are subject to common control or common significant influence.

The Group and the Bank have related party relationships with their holding companies, subsidiaries, joint venture and key management personnel.

(a) The related parties of, and their relationship with the Bank, are as follows:

Related parties	Relationship
CIMB Group Holdings Berhad (“CIMB Group”)	Ultimate holding company
CIMB Group Sdn. Bhd. (“CIMBG”)	Immediate holding company
Subsidiaries of CIMB Group and CIMBG as disclosed in their Financial Statements	Subsidiaries of ultimate holding and immediate holding company
Subsidiaries of the Bank as disclosed in Note 16	Subsidiaries
Joint venture of the Bank as disclosed in Note 17	Joint venture
Joint ventures of CIMB Group as disclosed in their Financial Statements	Joint ventures of ultimate holding company
Associates of CIMB Group as disclosed in their Financial Statements	Associates of ultimate holding company
Key management personnel	Refer to below

Key management personnel are those persons having the authority and responsibility for planning, directing and controlling the activities of the Group and the Bank either directly or indirectly. The key management personnel of the Group and the Bank include all the Directors of the Bank and employees of the Bank who make certain critical decisions in relation to the strategic direction of the Bank.

for the financial year ended 31 December 2024 (Continued)****45 Significant related party transactions and balances (Continued)**

(f) Equity Ownership Plan (“EOP”)

The EOP was introduced on 1 April 2011 by CIMB Group where CIMB Group will grant ordinary shares of CIMB Group to selected employees of the Group and the Bank. Under the EOP, earmarked portions of variable remuneration of the selected employees of the Group and the Bank will be utilised to purchase ordinary shares of CIMB Group from the open market. The purchased shares will be released progressively to the eligible employees at various dates subsequent to the purchase date, subject to continued employment. A related company will act on behalf of CIMB Group to administer the EOP and to hold the shares in trust up to the pre-determined transfer date. The eligibility of participation in the EOP shall be at the discretion of the Group Nomination and Remuneration Committee of CIMB Group.

Upon termination of employment other than retirement, disability or death, any unreleased shares will cease to be transferable to the employee and will be disposed accordingly. In the event of retirement, disability or death of the eligible employee, the release of shares will be accelerated to the date of termination of employment and the shares will be assigned to the designated beneficiary.

The total share-based payment expense recognised in statement of income for the Group and the Bank during the financial year amounted to RM14,650,000 (2023: RM13,257,000) and RM13,489,000 (2023: RM11,664,000) respectively.

The weighted average fair value of shares awarded under EOP which were purchased over a period of 10 trading days was RM6.88 per ordinary share (2023: RM5.14 per ordinary share), based on observable market price.

Movements in the number of CIMB Group’s ordinary shares awarded are as follows:

	The Group		The Bank

(g) Long Term Incentive Plan (“LTIP”)

The Group implemented a Long Term Incentive Plan (“LTIP”) on 9 June 2021, which was approved by the shareholders at the Extraordinary General Meeting held on 15 April 2021. The LTIP is governed by the LTIP by-laws and is administered by the LTIP Committee.

The LTIP is awarded to employees who hold senior management positions and key roles within the CIMB Group and its subsidiary companies, and who fulfill the eligibility criteria and have been approved for participation by the LTIP Committee. Any LTIP awards made to Executive Directors (or any persons connected to the Directors) is subject to the approval of the shareholders at a general meeting.

The LTIP, which is valid for 7 years from the implementation date, comprises of 2 performance-based plans – the Employee Share Option Scheme (“ESOS”) and the Share Grant Plan (“SGP”).

- The ESOS is a share option scheme with a premium on the exercise price where vesting is subject to service conditions. The LTIP Committee may, at any time within the duration of the LTIP, grant an ESOS award to eligible employees, subject to the terms and conditions of the by-laws. The ESOS shares may be settled through issuance and transfer of new shares, or other modes of settlement as provided by the by-laws.
- The SGP is a restricted share unit scheme where vesting is subject to service and performance conditions (based on return on equity targets and individual performance), and the LTIP Committee may, at any time within the duration of the LTIP, grant an SGP award to eligible employees, subject to the terms and conditions of the by-laws. The SGP shares may be settled through issuance and transfer of new shares, or other modes of settlement as provided by the by-laws.

**Notes to the Financial Statements
for the financial year ended 31 December 2024 (Continued)****45 Significant related party transactions and balances (Continued)**

(h) Credit transactions and exposures with connected parties

Credit exposures with connected parties as per BNM's revised "Guidelines on Credit Transactions and Exposures with Connected Parties" which became effective in 2008 are as follows:

	The Group		The Bank	
	2024	2023	2024	2023
	RM'000	RM'000	RM'000	RM'000
Outstanding credit exposures with connected parties	15,893,194	11,929,643	12,504,867	9,917,805
Percentage of outstanding credit exposures to connected parties as a proportion of total credit exposures	2.6%	2.1%	2.9%	2.4%
Percentage of outstanding credit exposures with connected parties which is impaired or in default	0.0%	0.0%	0.0%	0.0%

(i) Transactions with shareholders and Government

Khazanah Nasional Berhad ("KNB"), the major shareholder of the ultimate holding company, owns 21.54% of the issued capital of the ultimate holding company (2023: 23.01%). KNB is an entity controlled by the Malaysian Government. The Group and the Bank consider that, for the purpose of MFRS 124 "Related Party Disclosures", KNB and the Malaysian Government is in the position to exercise significant influence over it. As a result, the Malaysian Government and Malaysian Government controlled bodies (collectively referred to as "government-related entities") are related parties of the Group and the Bank.

The Group and the Bank have collectively, but not individually, entered into significant transactions with other government-related entities which include but not limited to the following:

- Purchase of securities issued by government-related entities
- Lending to government-related entities
- Deposit placing with and deposit taking from government-related entities

These transactions are conducted in the ordinary course of the Group's and the Bank's business based on agreed terms.

* Compensation shown in the table for the Executive Director in 2024 is in relation to his role as Group Chief Executive Officer of CIMB Group. The compensation includes an amount of RM0.8 million which arose from LTIP allocations that were attributed to the 2-year period from 2022 to 2023, and were vested/exercised in the period from 1 July to 31 December 2024. The related share based expenses have been recognised over the period of LTIP scheme.

** Compensation shown in the table for the Executive Director in 2024 is in relation to his role as Group Chief Executive Officer of CIMB Group. The compensation includes an amount of RM2.7 million which arose from LTIP allocations that were attributed to the 3-year period from 2021 to 2023, and were vested/exercised in the period from 1 January to 30 June 2024. The related share based expenses have been recognised over the period of LTIP scheme.

The Directors and Officers of the Group and of the Bank are covered by Directors and Officers liability insurance for any liability incurred in the discharge of their duties, provided that they have not acted fraudulently or dishonestly or derived any personal profit or advantage. The insurance premium paid during the financial year for the Group and the Bank amounted to RM1,209,437 (2023: RM1,322,732) and RM863,818 (2023: RM872,372) respectively.

The Group is within the scope of the OECD Pillar Two model rules, which has been substantively enacted in Malaysia on 29 December 2023, where it is expected to be implemented in 2025. Pillar Two introduces a global minimum Effective Tax Rate (“ETR”) via a system where multinational groups with consolidated revenue over EUR 750 million are subject to a minimum ETR of 15% on income arising in low-tax jurisdictions.

As provided in the amendments to IAS 12 issued in May 2023, the Group applies the exception to recognising and disclosing information about deferred tax assets and liabilities related to Pillar Two income taxes.

The Group has exposures to United Kingdom and Vietnam where the local Pillar Two legislation is effective beginning 1 January 2024. The Group has assessed that the entities in the respective jurisdiction qualify for Safe Harbour test based on routine profit test assessment, hence there are no additional tax required.

The Group is in the process of assessing its exposure to the Pillar Two legislation for Malaysia for the impact to year 2025 tax assessment.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

48 Earnings per share

(a) Basic earnings per share

The basic earnings per ordinary share for the Group have been calculated based on the net profit attributable to ordinary equity holders of the Group of RM6,054,377,000 (2023: RM5,300,797,000). For the Bank, the basic earnings per ordinary share have been calculated based on the net profit attributable to ordinary equity holders of the Bank of RM4,400,608,000 (2023: RM4,169,359,000).

Ordinary shares issued arising from business combinations under common control are included in the calculation of the weighted average number of shares from the date the business combination had been effected. The weighted average number of shares in issue during the financial year of 6,678,279,000 (2023: 6,483,714,000) is used for the computation.

(b) Diluted earnings per share

There were no dilutive potential ordinary shares outstanding as at 31 December 2024 and 31 December 2023.

**Notes to the Financial Statements
for the financial year ended 31 December 2024 (Continued)****51 Commitments and contingencies**

In the normal course of business, the Group and the Bank enter into various commitments and incur certain contingent liabilities with legal recourse to their customers.

These commitments and contingencies are not secured over the assets of the Group and the Bank, except for certain financial assets at fair value through profit or loss being pledged as credit support assets for certain over-the-counter derivative contracts.

Treasury related derivative financial instruments are revalued on a gross position basis and the unrealised gains or losses are reflected in “Derivative Financial Instruments” Assets and Liabilities respectively. Refer to Note 27.

The notional/principal amount of the commitments and contingencies constitute the following:

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

52 Capital adequacy

The key driving principles of the Group's and the Bank's capital management policies are to diversify its sources of capital to allocate capital efficiently, and achieve and maintain an optimal and efficient capital structure of the Group and the Bank, with the objective of balancing the need to meet the requirements of all key constituencies, including regulators, shareholders and rating agencies.

This is supported by the Capital Management Plan which is centrally supervised by the CIMB Group Executive Committee who periodically assesses and reviews the capital requirements and source of capital across the Group, taking into account all ongoing and future activities that consume or create capital, and ensuring that the minimum target for capital adequacy is met. Quarterly updates on capital position of the Group and the Bank are also provided to the Board of Directors.

The capital adequacy framework applicable to the Malaysian banking entities is based on the Bank Negara Malaysia ("BNM") Capital Adequacy Framework ("CAF") (Capital Components)/Capital Adequacy Framework for Islamic Banks ("CAFIB") (Capital Components), of which the latest revision was issued on 14 June 2024. The revised guidelines took effect on 14 June 2024 for all banking institutions and financial holding companies and sets up the regulatory capital requirements concerning capital adequacy ratios and components of eligible regulatory capital in compliance with Basel III.

The risk-weighted assets of the Group and the Bank are computed in accordance with the Capital Adequacy Framework ("Basel II - Risk-Weighted Assets"), of which the latest revision was issued on 18 December 2023.

The Internal Ratings Based ("IRB") Approach adopted by CIMB Bank and CIMB Islamic Bank is applied for the major credit exposures with retail exposures on Advanced IRB approach and non-retail exposures on Foundation IRB approach. The remaining credit exposures and Market Risk are on the Standardised Approach while Operational Risk is based on the Basic Indicator Approach.

The capital adequacy ratios of CIMB Thai Bank is based on the Bank of Thailand's ("BOT") Notification No. SorNorSor. 12/2555 Re: Regulations on Supervision of Capital for Commercial Banks, dated 8 November 2012. Credit Risk and Market Risk are based on Standardised Approach while Operational Risk is based on Basic Indicator Approach.

The regulatory compliance ratio of CIMB Bank PLC refers to the Solvency Ratio. The Solvency ratio is computed in accordance with Prakas B7-00-46, B7-04-206 and B7-07-135 issued by the National Bank of Cambodia. This ratio is derived from CIMB Bank PLC's net worth divided by its risk-weighted assets.

Capital adequacy ratio of CIMB Bank (Vietnam) Ltd. is calculated and managed according to local regulations as per the requirement of State Bank of Vietnam ("SBV") in Circular 41/2016/TT-NHNN (dated 30 December 2016), which requires banks and branches of foreign banks to maintain the minimum CAR at 8% which covers credit, market and operational risks.

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

54 Critical accounting estimates and judgements in applying accounting policies

The Group and the Bank make estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, rarely equal the related actual results. To enhance the information content of the estimates, certain key variables that are anticipated to have material impact to the Group's and the Bank's results and financial position are tested for sensitivity to changes in the underlying parameters. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year are outlined below:

(a) *Expected credit loss allowance on financial assets at amortised cost and FVOCI*

The expected credit loss allowance for financial assets at amortised cost and FVOCI requires the use of complex models and significant assumptions about future economic conditions and credit behaviour. Significant judgements are required in applying the accounting requirements for measuring expected credit loss, such as:

- Determining criteria for significant increase in credit risk;
- Choosing appropriate models and assumptions for the measurement of expected credit loss;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/market and the associated expected credit loss; and
- Establishing groups of similar financial assets for the purposes of measuring expected credit loss.

Refer to Section 57.1 *Credit risk measurement* for details on the key judgements and assumptions of the estimation of expected credit loss allowance for financial assets at amortised cost and FVOCI.

(b) *Goodwill impairment*

The Group tests annually whether goodwill has suffered any impairment in accordance with the accounting policy stated in Note M of the Summary of Material Accounting Policies.

The first step of the impairment review process requires the identification of independent operating units, dividing the Group's business into the various CGU. The goodwill is then allocated to these various CGU. The allocation is based on the areas of the business expected to benefit from the synergies derived from the acquisition.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

54 Critical accounting estimates and judgements in applying accounting policies (Continued)

(b) Goodwill impairment (Continued)

The carrying value of the CGU, including the allocated goodwill, is compared to the higher of fair value less cost to sell and value in use to determine whether any impairment exists. Detailed calculations may need to be carried out taking into consideration changes in the market in which a business operates. In the absence of readily available market price data, this calculation is usually based upon discounting expected pre-tax cash flows at the individual CGU's pre-tax discount rate, which reflect the specific risks relating to the CGU. This requires exercise of judgement. Refer to Note 21 for details of these assumptions and the potential impact of changes to the assumptions. Changes to the assumptions used by management, particularly the discount rate and the terminal growth rate, may significantly affect the results of the impairment.

Value-in-use does not reflect future cash outflows or related cost savings (for example reductions in staff costs) or benefits that are expected to arise from a future restructuring to which an entity is not yet committed.

(c) Investment in subsidiaries impairment

The Group tests annually whether the investment in subsidiaries have suffered any impairment in accordance with the accounting policy stated in Note B of the Summary of Material Accounting Policies.

The recoverable amount of the investment was determined at the higher of its fair value less costs of disposal or value in use. The Group determines whether its investments are impaired following certain indications of impairment such as, amongst others, prolonged shortfall between market value and carrying amount, significant changes with adverse effects on the investment and deteriorating financial performance of the investment due to observed changes in the economic environment. Depending on the investment itself, judgements are made on inputs such as underlying multipliers. Changes to the assumptions used by management may significantly affect the results of the impairment. Refer to Note 16 for details of these assumptions and the potential impact of changes to the assumptions.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

54 Critical accounting estimates and judgements in applying accounting policies (Continued)

(d) Fair value of financial instruments

The majority of the Group's and the Bank's financial instruments reported at fair value are based on quoted and observable market prices. Where the fair values of financial assets and financial liabilities recorded on the statement of financial position cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of mathematical models. The inputs to these models are derived from observable market data where possible, but where observable market data are not available, judgement is required to establish fair values. The judgements include considerations of liquidity and model inputs such as volatility for longer dated derivatives and discount rates, prepayment rates and default rate assumptions for asset backed securities. The valuation of financial instruments using significant unobservable inputs (Level 3) is described in more detail in Note 57.4.

55 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker is the person or group that allocates resources to and assesses the performance of the operating segments of an entity. The Group has determined the Group Executive Committee as its chief operating decision-maker.

Segment information is presented in respect of the Group's business segment and geographical segment.

The business segment results are prepared based on the Group's internal management reporting, which reflect the organisation's management reporting structure.

(i) Business segment reporting

Definition of segments

The Group has four major operation divisions that form the basis on which the Group reports its segment information.

Consumer Banking

Consumer Banking provides everyday banking solutions to individual customers covering both conventional and Islamic financial products and services such as residential property loans, non-residential property loans, secured personal loans, motor vehicle financing, credit cards, unsecured personal financing, wealth management, bancassurance, remittance and foreign exchange, deposits and internet banking services.

Commercial Banking

Commercial Banking offers products and services for customer segments comprising small and medium-scale enterprises ("SMEs") and mid-sized corporations. Their products and services include banking credit facilities, trade financing, cash management, online business banking platform, remittance and foreign exchange, as well as general deposit products.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

55 Segment reporting (Continued)

(i) Business segment reporting (Continued)

Wholesale Banking

Wholesale Banking comprises Investment Banking, Corporate Banking, Treasury and Markets, Transaction Banking, Equities and Private Banking.

Investment Banking includes end-to-end client coverage and advisory services. Client coverage focuses on marketing and delivering solutions to corporate and financial institutional clients whereas advisory offers financial advisory services to corporations on issuance of equity and equity-linked products, debt restructuring, initial public offerings, secondary offerings and general corporate advisory.

Corporate Banking offers a broad spectrum of both conventional and Islamic funding solutions ranging from trade, working capital lines and capital expenditure to leveraging, merger and acquisition, leveraged and project financing. Corporate Banking's client managers partner with product specialists within the Group to provide a holistic funding solution, from cash management, trade finance, foreign exchange, custody and corporate loans, to derivatives, structured products and debt capital market.

Treasury focuses on treasury activities and services which include foreign exchange, money market, derivatives and trading of capital market instruments. It includes the Group's equity derivatives which develops and issues new equity derivatives instruments such as structured warrants and over-the-counter options to provide investors with alternative investment avenues.

Transaction Banking comprises Trade Finance and Cash Management which provide various trade facilities and cash management solutions.

Equities provides broking services to corporate, institutional and retail clients.

Private Banking offers a full suite of wealth management solutions to high net worth individuals with access to a complete range of private banking services, extending from investment to securities financing to trust services.

CIMB Digital Assets & Group Funding

CIMB Digital Assets drives all strategic partnerships across business lines Group-wide and explores strategic equity joint ventures in the ecosystem space. Group Funding encompasses a wide range of activities from capital, balance sheet and fixed income investments and management, as well as the funding and incubation of corporate ventures and projects.

**Notes to the Financial Statements
for the financial year ended 31 December 2024 (Continued)****55 Segment reporting (Continued)****(i) Business segment reporting (Continued)***Basis of pricing for inter-segment transfers:*

Intersegmental charges are computed on the interest-bearing assets and liabilities of each business segment with rates applied based on the interest yield curve according to the term structure of maturity.

(ii) Geographic segment reporting

The Group operates in two main geographical areas:

- Malaysia, the home country of the Group, which includes all the areas of operations in the business segments.
- Overseas operations, which include branch and subsidiary operations in Thailand, Cambodia, Singapore, United Kingdom, Hong Kong, Shanghai, Philippines and Vietnam. The overseas operations are involved mainly in corporate lending and borrowing activities. With the exception of Malaysia, Singapore and Thailand, no other individual country contributed more than 10% of the net interest income or of total assets.

CIMB Bank Berhad

(Incorporated in Malaysia)

**Notes to the Financial Statements
for the financial year ended 31 December 2024 (Continued)****56 Non-current assets held for sale**

	The Group		The Bank	
	2024	2023	2024	2023
	RM'000	RM'000	RM'000	RM'000
Non-current assets held for sale:				
- Property plant and equipment	-	5,584	-	5,584
Total non-current assets held for sale	-	5,584	-	5,584

Property, plant and equipment of the Group and the Bank where deposits have been received from buyers of the properties and where a definitive buyer has been identified have been classified as held for sale.

Fair value of property plant and equipment held for sale

In accordance with MFRS 5, the non-current assets held for sale were stated at the lower of carrying amount and fair value less cost to sell. As at 31 December 2024, the property, plant and equipment held for sale that were stated at fair value less cost to sell was RMNil (2023: RM5,584,000). This is a non-recurring fair value which has been measured using observable inputs under sales comparison approach performed by independent valuers. Sale prices of comparable land and building in close proximity are adjusted for differences in key attributes such as property size.

Therefore, it is within Level 2 of the fair value hierarchy.

CIMB Bank Berhad

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management

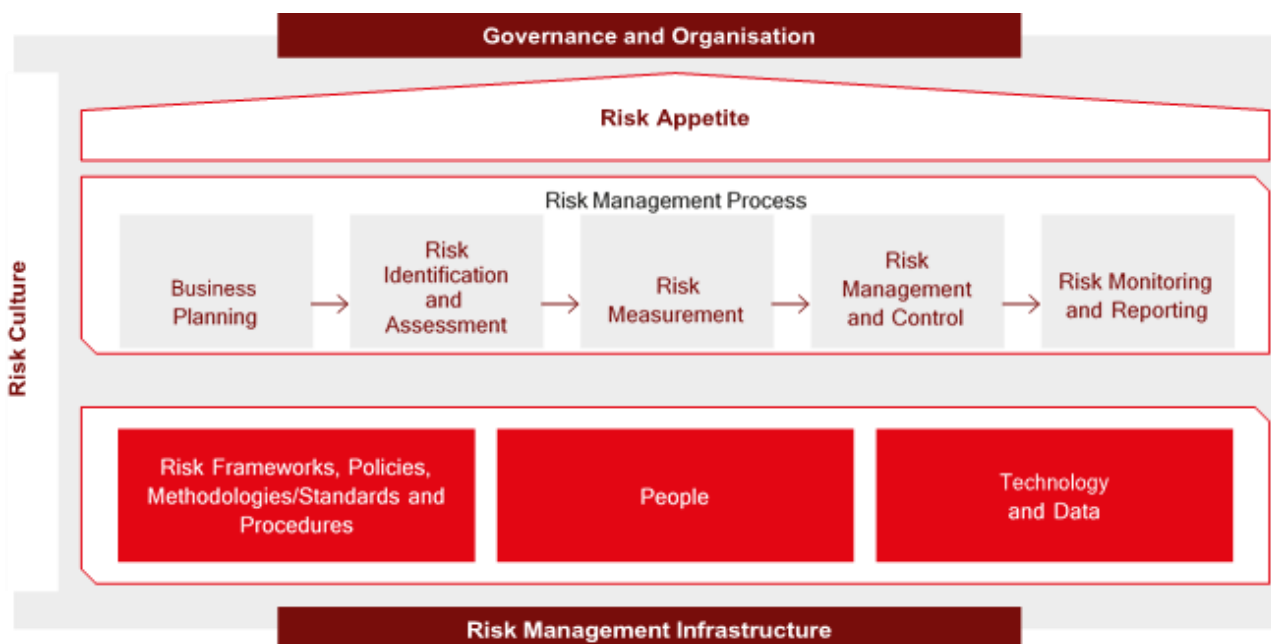

(a) Financial risk management objectives and policies

The Group embraces risk management as an integral part of the Group’s strategy, business, operations and decision-making processes. In ensuring that the Group achieves optimum returns whilst operating within a sound business environment, the risk management teams are involved at the early stage of the strategy discussion and risk-taking process by providing independent inputs, including relevant valuations and scenario analysis, credit evaluations, new product assessments and quantification of capital requirements and risk return analysis/simulations. These inputs enable the business units to assess the risk-vs-reward of their propositions.

(b) Enterprise Wide Risk Management Framework (“EWRM”)

The Group employs a Group Enterprise-Wide Risk Management (“EWRM”) framework as a standardised approach to effectively manage its risks and opportunities. The Group EWRM framework provides the Board and management with tools to anticipate and manage both the existing and potential risks, taking into consideration evolving risk profiles as dictated by changes in business strategies, the external environment and/or regulatory environment.

The key components of the Group’s EWRM framework are represented in the diagram below:

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

(b) Enterprise Wide Risk Management Framework (“EWRM”) (Continued)

The design of the Group’s EWRM framework incorporates a complementary ‘top-down strategic’ and ‘bottom-up tactical’ risk management approach.

The key features of the Group’s EWRM framework include:

(i) Risk Culture

The Group embraces risk management as an integral part of its culture and decision-making processes. The Group’s risk management philosophy is embodied in the Three Lines-of-Defence approach, whereby risks are managed initially from the onset of risk-taking activities. There is clear accountability of risk ownership across the Group.

(ii) Governance & Organisation

A strong governance structure is important to ensure an effective and consistent implementation of the Group EWRM framework. The Board is ultimately responsible for the Group’s strategic direction, which is supported by the risk appetite and relevant risk management frameworks, policies, methodologies/standards, and procedures. The Board is assisted by various risk committees and control functions in ensuring that the Group’s risk management framework is effectively implemented.

(iii) Risk Appetite

It is defined as the amount and type of risks that the Group is able and willing to accept in pursuit of its strategic and business objectives. Risk appetite is set in conjunction with the annual strategy and business planning process to ensure appropriate alignment between strategy, growth aspirations, operating plans, capital and risk.

(iv) Risk Management Process

- **Business Planning:** Risk management is central to the business planning process, including setting frameworks for risk appetite, risk posture and new products & business activities.
- **Risk Identification & Assessment:** Risks are systematically identified and assessed through the robust application of the Group’s risk frameworks, policies, methodologies/standards and procedures.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

(b) Enterprise Wide Risk Management Framework (“EWRM”) (Continued)

(iv) Risk Management Process (Continued)

- **Risk Measurement:** Risks are measured and aggregated using the Group-wide methodologies across each of the risk types, including stress testing.
- **Risk Management and Control:** Risk management limits and controls are used to manage risk exposures within the risk appetite set by the Board. Risk management limits and controls are regularly monitored and reviewed in the face of evolving business needs, market conditions and regulatory changes. This can be achieved by positioning various control tools to reduce the likelihood of an occurrence or the impact of the risk. The various control tools are accepting, treating, transferring and/or terminating the risk.
- **Risk Monitoring and Reporting:** Risks on an individual exposure, as well as on a portfolio basis, are monitored on a daily basis and periodically and/or ad-hoc basis in tandem with market developments and reported to the Group Risk & Compliance Committee (“GRCC”) and the Board Risk & Compliance Committee (“BRCC”) on a monthly basis or need basis to ensure they remain within the Group’s risk appetite.

(v) Risk Management Infrastructure

- **Risk Frameworks, Policies, Methodologies/Standards and Procedures** addressing all areas of material risks: Frameworks provide broad objectives and overarching risk management architecture for managing risks. Well-defined risk policies by risk type provide the principles by which the Group manages its risks. Methodologies/standards provide specific directions that help support and enforce policies. Procedures provide more detailed guidance to assist with the implementation of policies.
- **People:** Attracting the right talent and skills is key to ensuring a well-functioning Group EWRM framework. The organisation continuously evolves and proactively responds to the increasing complexity of the Group as well as the economic and regulatory environment.
- **Technology and Data:** Appropriate technology and sound data management support risk management activities.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

(c) Risk Governance

At the apex of the governance structure are the respective Boards of entities within the Group, which decides on the entity's risk appetite corresponding to its business strategies. Each Board Risk & Compliance Committee ("BRCC") reports directly to the respective Boards and assumes responsibility on behalf of the respective Boards for the supervision of risk management and control activities. Each BRCC determines the relevant entity's risk strategies and policies, keeping them aligned with the principles within the risk appetite. Each BRCC also oversees the implementation of the Group EWRM framework, provides strategic guidance and reviews the decisions of the Group Risk & Compliance Committee ("GRCC").

To facilitate the effective implementation of the Group EWRM framework, the BRCC has established various specialised/sub-risk committees within the Group, each with distinct lines of responsibilities and functions, which are clearly defined in the terms of reference.

The responsibility of risk management supervision and control is delegated to the GRCC, which reports to the BRCC. The GRCC, comprised of senior management of the Group, performs the oversight function for the overall management of risks. The GRCC is supported by specialised delegated/sub-risk committees, namely Group Credit Committee ("GCC"), Group Market and Conduct Risk Committee ("GMCRC"), Group Operational and Resiliency Risk Committee, Group Asset Liability Management Committee, Group Asset Quality Committee, Group Basel Steering Committee, Management Product Approval Committee for Treasury Products, and Management Product Approval Committee for Non-Treasury Products, each addressing one or more of the following:

- (i) Credit risk, defined as the possibility of losses due to an obligor, market counterparty or an issuer of securities or other instruments held, failing to perform its contractual obligations to the Group;
- (ii) Market risk, defined as fluctuations in the value of financial instruments due to changes in market risk factors such as interest/profit rates, currency exchange rates, credit spreads, equity prices, commodities prices and their associated volatility;
- (iii) Liquidity and Funding risk, defined as the current and potential risk to earnings, shareholders' funds or reputation arising from the inability to efficiently meet its present and future (both anticipated and unanticipated) funding needs or regulatory obligations when they come due, which may adversely affect its daily operations and incur unacceptable losses;
- (iv) Interest rate risk/rate of return risk in the banking book, which is the current and potential risk to the Group's earnings and economic value arising from movements in interest/profit rates;

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

(c) Risk Governance (Continued)

- (v) Capital risk, defined as the risk of a bank not having sufficient capital to withstand potential losses suffered in its operations. Capital is important as it can be used to repay depositors, customers, creditors, and other claimants in case there is insufficient liquidity during a crisis;
- (vi) Model risk is defined as the type of risk that the method used to measure or quantify the bank's material risk is not accurate due to deterioration of model, hence limiting the usefulness and application of the model itself. It also covers improper implementation and improper usage of methods developed to quantify risk;
- (vii) Operational risk, defined as the risk of loss resulting from inadequate or failed processes, people and systems, or from external events. It includes legal risk but excludes strategic and Shariah non-compliance risks;
- (viii) Fraud risk, defined as the risk of loss resulting from an act or course of deception or omission with the intention to conceal, omit, distort, misrepresent, falsify or etc. to: (i) gain unlawful/illegal/unfair personal advantages, (ii) induce another individual(s) to surrender willing/unwilling of a legal right/possession or (iii) damage another individual(s) resulting in a loss to another;
- (ix) Reputation risk is defined as the current or prospective risk to earnings and capital arising from the adverse perception by the stakeholders about the Group's business practices, conduct or financial condition. Such adverse perception, whether true or not, may impair public confidence in the Group, result in costly litigation, or lead to a decline in its customer base, business, revenue or share price;
- (x) Technology risk, is the risk of loss resulting from inadequate or weaknesses in strategy, people, process, technology (including emerging technologies e.g. Cloud Artificial Intelligence etc.) or external events, which includes cyber risks, financial risk, regulatory/compliance risk and the risk of reputational loss/damage;
- (xi) Outsourcing risk, defined as the risk emanating from outsourcing arrangements that could result in a disruption to business operations, financial loss or reputational damage to the Group. As the organization moves towards Third Party Risk Management, the definition above will extend to non-outsourced service providers which the organization places reliance on to operate and deliver services to our customers;

CIMB Bank Berhad

(Incorporated in Malaysia)

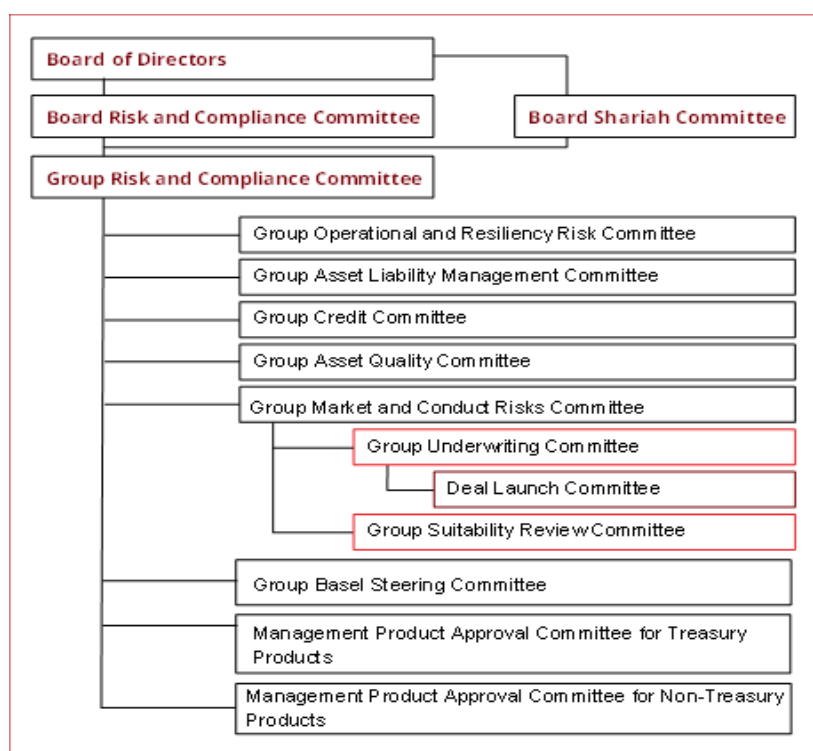

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

(c) Risk Governance (Continued)

- (xii) Shariah Non Compliance (“SNC”) risk, defined as the risk of legal or regulatory sanctions, financial loss or non-financial implications including reputational damage which the Group may suffer arising from failure to comply with Shariah requirements determined by Shariah Advisory Council (“SAC”) of BNM and Securities Commissions (“SC”), including standards on Shariah matters issued by BNM pursuant to Section 29(1) of the IFSA; or decisions or advice by Board Shariah Committee (“BSC”) of CIMB Islamic Bank; or other Shariah regulatory authorities of the jurisdictions in which the Group operates;
- (xiii) Regulatory compliance risk, defined as the risk of legal or regulatory sanctions, financial loss or non-financial implications including reputational damage, which the Group may suffer arising from possible failure to comply with the applicable laws and regulations of the jurisdictions in which the Group operates; and
- (xiv) Sustainability risk, defined as the risk of financial and non-financial impact arising from environmental, social and ethical issues stemming from transactions and/or activities associated with a business relation and its operations, and/or the Group's own internal operations and employees.

The structure of CIMB Group Risk Committees is depicted as follows:

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

(c) Risk Governance (Continued)

The overseas subsidiaries' risk committees are set-up in a similar structure in their respective jurisdictions. Whilst recognising the autonomy of the local jurisdiction and compliance to local requirements, the Group strives to ensure a consistent and standardised approach in its risk governance process. As such, the Group and regional committees have consultative and advisory responsibilities on regional matters across the Group as regulators allow. This structure increases regional communication and sharing of technical knowledge and best practices. It further enhances support towards managing and responding to risk management issues, thus providing the Board with a comprehensive view of the activities within the Group.

In addition to the CIMB Group Risk Committees, the Group has established a Group Sustainability and Governance Committee (“GSGC”) consisting of Independent Directors to assist the Board in fulfilling its responsibilities in advocating and fostering a culture/DNA of sustainability, ethical conduct, and integrity across the Group.

Sustainability is also embedded in the roles and responsibilities of various Board Committees. To ensure information-symmetry and consensus across all Board Committees and entity boards, with regards to the direction and progress of the Group's sustainability and climate change strategy deliberated at the GSGC, selected GSGC members and business units such as Group Sustainability are responsible for providing relevant updates and inputs to the various Board Committees and entity boards on a periodic basis.

Three Lines-of-Defence

The Group's risk management culture is embodied through the adoption of the Three Lines-of-Defence philosophy, whereby risks are managed initially from the onset of risk-taking activities. This is to ensure clear accountability of risks across the Group and Group Risk as an enabler of business units. As a first line-of-defence, the line management (including key Business Pillars and Enablers) is primarily responsible for risk management on a day-to-day basis by taking appropriate actions to mitigate risks through effective controls. This includes the 1.5 line-of-defence, which provides independent advice, support, and assurance for risk & compliance related matters within the Business Pillars and Enablers (the first line-of-defence), integrating business, risk & compliance knowledge. The second line-of-defence (including Risk Stewards / Risk Type Owners / Oversight Parties) provides oversight and performs independent monitoring of business activities with reporting to the Board and management to ensure that the Group conducts business and operates within the approved appetite and is in compliance with regulations. The third line-of-defence is Group Corporate Assurance Division who provides independent assurance of the adequacy and effectiveness of the internal controls and risk management processes.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

(c) Risk Governance (continued)

The Roles of Group Chief Risk Officer (“CRO”) and Group Risk Division (“GRD”)

Within the second line-of-defence is GRD, a function independent of business units that assists the Group's management and stakeholders in the monitoring and controlling of risk exposures within the Board-approved risk appetite statement.

GRD is headed by the Group CRO, appointed by the Board to lead the Group-wide risk management functions, including implementation of the Group EWRM framework. The Group CRO:

- (a) Actively engages the respective Boards and senior management on risk management issues and initiatives; and
- (b) Maintains an oversight on risk management functions across all entities within the Group. In each key country of operations, there is a local CRO or a local Head of Risk Management, whose main functions are to assess and manage the enterprise risk and liaise with regulators in the respective countries.

The organisational structure of Group Risk is made up of two major components, namely the CRO and the Risk Centres of Excellence (“CoE”):

(a) CRO

- The Group CRO is supported by the CROs who oversee the risk management functions in overseas branches and banking subsidiaries.
- CRO's main function is to assess and manage the enterprise risk and liaise with regulators in the respective country/entity under his/her purview.
- For countries where a CRO is not present and/or not required, a local Head of Risk Management is appointed to be the overall risk coordinator for that country.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

(c) Risk Governance (continued)

The Roles of Group Chief Risk Officer (“CRO”) and Group Risk Division (“GRD”) (Continued)

(b) Risk Centres of Excellence

- These are specialised teams of risk officers responsible for the active oversight of Group-wide functional risk management and the teams support respective CROs in the various geographies.
- The Risk CoEs consist of Asset Liability Management, Credit Risk, Market Risk, Non-Financial Risk Management (comprising Operational, Business Continuity Management, Technology, Outsourcing and Fraud Risk Management), Shariah Risk Management and Enterprise Risk and Infrastructure CoEs.

(i) Asset Liability Management CoE

The Asset Liability Management CoE recommends the framework and policies for the independent assessment, measurement, monitoring and reporting of liquidity and funding risk and interest rate risk/rate of return risk in the banking book. It conducts regular stress testing on the Group’s liquidity and interest rate risk/rate of return risk profile, by leveraging on the standardised infrastructure it has designed, built and implemented across the region. It provides the framework and tools for maintenance of the early warning system indicators and contingency funding plan by business owners across the Group.

(ii) Credit Risk CoE

The Credit Risk CoE consists of Retail and Non-Retail credit risk and is dedicated to the identification and assessment, measurement, management, monitoring and reporting of credit risk in the Group. The scope under the CoE function include areas ranging from development of credit risk policies, procedures and standards to advance portfolio analytics, and use of credit risk modelling (including rollout of alternative credit underwriting models leveraging on machine learning techniques for retail portfolios).

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

(c) Risk Governance (Continued)

The Roles of Group Chief Risk Officer (“CRO”) and Group Risk Division (“GRD”) (Continued)

(b) Risk Centres of Excellence (Continued)

(iii) Market Risk CoE

The Market Risk CoE recommends the framework and policies for the independent assessment, measurement and monitoring of market risk. This is operationalised through the review of treasury positions versus limits framework, performing mark-to-market valuation, validation of financial models, calculating Value-at-Risk and market risk capital, as well as performing stress testing.

(iv) Non-Financial Risk Management CoE

The Non-Financial Risk Management (“NFRM”) CoE ensures the first line-of-defence manages their operational risk effectively by providing an operational risk framework that enables them to identify, assess, manage and report their operational risks. The NFRM CoE provides independent feedback, advisory and assessment to the first line-of-defence’s execution of the non-financial risk frameworks.

(v) Shariah Risk Management CoE

The Shariah Risk Management (“SRM”) CoE facilitates the process of identifying, measuring, controlling and monitoring SNC risks inherent in the Group’s Islamic banking businesses and services. It formulates, recommends and implements appropriate SRM policies and procedures; as well as develops and implements processes to mitigate SNC risk and conducts training to enhance level of awareness on SNC risk.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

(c) Risk Governance (Continued)

The Roles of Group Chief Risk Officer (“CRO”) and Group Risk Division (“GRD”) (Continued)

(b) Risk Centres of Excellence (Continued)

(vi) Enterprise Risk And Infrastructure CoE

The Enterprise Risk and Infrastructure CoE ensures the Group’s compliance to capital adequacy and single counterparty exposure limit regulatory requirements, including Basel and underwriting model development, implementation and validation of risk models, and management of risk data for credit risk measurement and risk reporting across the Group. In addition, the climate risk unit within the CoE is responsible for working with Group Sustainability, various risk CoEs and business units to implement climate risk management at an enterprise level, in support of the Group’s 2050 net zero ambition, which is to transition all operational and attributable greenhouse gas emissions from the Group’s financing and investment portfolios in alignment with net zero pathways by 2050.

Sustainability risk (including climate risk) is recognised as a principal and cross-cutting risk that manifests itself through existing risk types. Due to the cross-cutting nature of Sustainability risk, the implementation of Group-wide Sustainability Governance Framework is currently spearheaded and managed by Group Sustainability as the Sustainability CoE, which sits outside of Group Risk. Notwithstanding this, Sustainability risk has been and will continue to be integrated into the Group’s existing risk management frameworks.

CIMB Bank Berhad

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

Strategies and Processes for Various Risk Management

These information are available in later sections for each Credit Risk, Market Risk and Liquidity Risk.

57.1 Credit risk

Credit risk is defined as the possibility of losses due to an obligor, market counterparty or an issuer of securities or other instruments held, failing to perform its contractual obligations to the Group.

Credit risk is inherent in banking activities and arises from traditional financing activities through conventional loans, financing facilities, trade finance as well as commitments to support clients' obligations to third parties, e.g. guarantees or kafalah contracts. In derivatives, sales and trading activities, credit risk arises from the possibility that the Group's counterparties will be unable or unwilling to fulfil their obligation on transactions on or before settlement dates.

Credit Risk Management

Without effective credit risk management, the impact of the potential losses can be overwhelming. The purpose of credit risk management is to keep credit risk exposure to an acceptable level vis-à-vis the capital, and to ensure the returns commensurate with risks.

Consistent with the Three Lines-of-Defence model on risk management where risks are managed initially from the onset of risk-taking activities, the Group implemented the risk-based delegated authority framework. This promotes clarity of risk accountability whereby the business unit, being the first line-of-defence, manages risk in a proactive manner with Group Risk being independent from the business units, functions as the second line-of-defence. This enhances the collaboration between Group Risk and the business units.

The risk-based delegated authority framework encompasses joint delegated authority, enhanced credit approval process and a clear set of policies and procedures that defines the limits and types of authority designated to specific individuals.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.1 Credit risk (Continued)

Credit Risk Management (Continued)

The Group adopts a multi-tiered credit approving authority spanning from the delegated authorities at business level, joint delegated authorities between business units and Group Risk, to the various credit committees. The credit approving committees are set up to enhance the efficiency and effectiveness of the credit oversight as well as the credit approval process for all credit applications originating from the business units. For corporate, commercial and private banking loans/financing, credit applications are independently evaluated by the Credit Risk (Non-Retail) CoE team prior to submission to the joint delegated authority or the relevant committees for approval; certain business units' officers are delegated with credit approving authority to approve low value credit facilities. In addition, for loan/financing to sectors and clients that are exposed to high environmental and social risks, the Sustainability CoE conducts due diligence from an environmental and social point of view. For retail loans/financing, all credit applications are evaluated and approved by Consumer Credit Operations according to the designated delegated authority with higher limits submitted to joint delegated authority or relevant committees for approval.

The GRCC, with the support of Group Credit Committee, Group Asset Quality Committee, other relevant credit committees as well as Group Risk, is responsible for ensuring adherence to the Board's approved risk appetite and risk posture. This, amongst others, includes reviewing and analysing portfolio trends, asset quality, watch-list reporting and policy reviews. It is also responsible for articulating key credit risks and mitigating controls.

Adherence to and compliance with country sector limit, single customer and country and global counterparty limits, are approaches adopted to address concentration risk to any large sector or industry, or to a particular counterparty group or individual. In view of the tightening regulations around climate change and to support the Group's Net Zero commitment by 2050, a climate overlay focusing on sector sensitivity to transition risks (which references the Transition Risk Heatmap developed under United Nations Environment Program Finance Initiative) was integrated into Group Risk's Country Sector Limit Methodology for 2024. In order to ensure sustainability considerations are accounted for in the early stages of business planning, an overall sustainability rating was also developed and applied alongside other risk factors as part of the Risk Posture setting for 2023 to set the high level risk direction for the Group and its entities before the formal budget process starts.

Adherence to the above established credit limits is monitored daily by Group Risk, which combines all exposures for each counterparty or group, including off balance sheet items and potential exposures. For retail products, portfolio limits are monitored monthly by Group Risk.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.1 Credit risk (Continued)

Credit Risk Management (continued)

It is the Group policy that all exposures must be rated or scored based on the appropriate internal rating models, where available. Retail exposures are managed on a portfolio basis and the risk rating models are designed to assess the credit worthiness and the likelihood of the obligors to repay their debts, performed by way of statistical analysis from credit bureau and demographic information of the obligors. The risk rating models for non-retail exposures are designed to assess the credit worthiness of the corporations or entities in paying their obligations, derived from both quantitative and qualitative risk factors such as financial history and demographics or company profile. These rating models are developed and implemented to standardise and enhance the credit underwriting and decision-making process for the Group's retail and non-retail exposures.

Credit reviews and rating are conducted on the non-retail credit exposures at minimum on an annual basis, and more frequently when material information on the obligor or other external factors is made available. The exposures are actively monitored, reviewed on a regular basis and reported regularly to GRCC and BRCC. Asset quality is closely monitored so that deteriorating exposures are identified, analysed and discussed with the relevant business units for appropriate remedial actions including recovery actions, if required.

The Group recognises that the financing activities may have an impact on the environment and society and such impact may in turn result in potential financial and reputational risks to the Group. The sustainable financing approach integrates environmental, social and economic/ethical considerations into the credit risk assessment process for the financing practices and capital raising transactions, whereby clients and transactions identified to have high sustainability risk or potential concern are subject to a structured due diligence and escalation process.

The Group quantifies credit concentration risk by leveraging on the credit VaR engine, CreditMetrics. Using the CreditMetrics approach, the portfolio's Value at Risk is estimated after taking into account effects of portfolio diversification across obligors and sectors. Hence, the risk computed covers both default/credit migration risk as well as credit concentration risk (single name and sector concentration).

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.1 Credit risk (Continued)

Credit Risk Mitigation

The employment of various credit risk mitigation techniques such as appropriate credit structuring, and posting of collateral and/or third party support, form an integral part of the credit risk management process. Credit risk mitigants are taken, where possible, and are considered secondary recourse to the obligor for the credit risk underwritten.

(i) Collaterals/Securities

All extension of secured credit facilities deemed prudent, must be appropriately and adequately collateralised. A credit proposal is considered secured only when the entire proposal is fully covered by approved collateral/securities within their approved margins as set out in the relevant credit policy/standard. GCC or the relevant credit approving authority is empowered to approve any inclusion of new acceptable collaterals/securities.

Recognised collaterals include both financial and physical assets. Financial collaterals consist of mainly cash deposits, quoted shares, unit trusts and debt securities, while physical collateral includes land, buildings and vehicles. Guarantors accepted are in line with BNM's CAF (Basel II - Risk-Weighted Assets) and CAFIB (Risk-Weighted Assets) guidelines. Eligible credit protection is also used to mitigate credit losses in the event that the obligor/counterparty defaults.

(ii) Collateral Valuation and Management

The Group has in place policies which govern the determination of eligibility of various collaterals including credit protection, to be considered for credit risk mitigation which includes the minimum operational requirements that are required for the specific collaterals to be considered as effective risk mitigants.

The collateral is valued periodically ranging from daily to annually, depending on the type of collateral. Specifically for real estate properties, a procedure for valuation of real estate properties is established to ensure adequate policies and procedures are in place for efficient and proper conduct of valuation of real estate properties and other related activities in relation to the interpretation, monitoring and management of valuation of real estate properties.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.1 Credit risk (Continued)

Credit Risk Mitigation (Continued)

(iii) *Netting*

In mitigating the counterparty credit risks in foreign exchange and derivative transactions, the Group enters into master agreements that provide for closeout netting with counterparties, whenever possible. A master agreement that governs all transactions between two parties, creates greater legal certainty that the netting of outstanding obligations can be enforced upon termination of outstanding transactions if an event of default occurs.

(iv) *Portfolio diversification for better clarity*

The Group avoids unwanted credit or market risk concentrations by diversifying the portfolios through a number of measures. Amongst others, there are guidelines in place relating to maximum exposure to any products, counterparty, sectors and country.

Credit Risk Measurement

The measurement of expected credit loss allowance under the MFRS9's three-stage approach is to recognise lifetime expected credit loss allowance for financial instrument for which there has been a significant increase in credit risk since initial origination or is credit-impaired as at the reporting date. The financial instrument which has not undergone any significant deterioration in credit risk shall be recognised with 12-month expected credit loss allowance.

Under the three-stage approach, the financial instrument is allocated into three stages based on the relative movement of the credit risk.

- Stage 1 includes financial instruments that neither have a significant increase in credit risk since initial recognition nor credit-impaired as at reporting date. For these assets, 12-month expected credit loss allowance are recognised.
- Stage 2 includes financial instruments that have had a significant increase in credit risk since initial recognition but do not have objective evidence of impairment. For these assets, lifetime expected credit loss allowance are recognised.
- Stage 3 includes financial instruments that have objective evidence of impairment at the reporting date. For these assets, lifetime expected credit loss allowance are recognised.
- Purchased or originated credit-impaired financial assets are those financial assets that are credit-impaired on initial recognition. Their expected credit loss allowance is always measured on a lifetime basis (Stage 3).

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.1 Credit risk (Continued)

Credit Risk Measurement (Continued)

The key judgements and assumptions adopted by the Group in addressing the requirements of the standard on the measurement of allowances are:

(i) Significant increase in credit risk (“SICR”)

The assessment of SICR shall be a multifactor and holistic analysis and based on a mixture of quantitative and/or qualitative information. To determine whether the risk of default of a loan and financing has increased significantly since initial recognition, the current risk of default at the reporting date is compared with the risk of default at initial recognition.

Retail

A retail loan, advances and financing is perceived to have experienced significant increase in credit risk when the asset meets one of the following criteria:

- Past due for more than 1 month on its contractual payment;
- Habitual delinquent;
- Modified under Agensi Kaunseling dan Pengurusan Kredit (“AKPK”) scheme and subject to monitoring period.

Non-retail

The stage allocation will be performed at borrower level. A borrower is considered to have credit risk increased significantly since initial recognition if any of the following criteria is met:

- Significant downgrade of internal rating;
- Borrower on watchlist and exhibits weaknesses which, if uncorrected, will potentially become a non-performing account in the next 12 months;
- Past due for more than 1 month on its contractual payment;
- Habitual delinquent.

Treasury

A debt instrument is considered to have credit risk increased significantly since initial recognition if any of the following criteria is met:

- Significant downgrade of internal rating;
- Borrower on watchlist and exhibits weaknesses which will potentially become a non-performing account in the next 12 months;
- Margin call or force selling trigger not regularised within the stipulated period (applicable to option premium financing only).

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.1 Credit risk (Continued)

Credit Risk Measurement (Continued)

(i) Significant increase in credit risk (“SICR”) (Continued)

The Group has not used the low credit risk exemption for any financial instruments for the year ended 31 December 2024 and 31 December 2023. The criteria used to identify SICR are monitored and reviewed periodically for appropriateness by the Management.

(ii) Definition of credit impaired

Loans, advances and financing

The Group classified a loan, advances and financing as credit impaired when it meets one or more of the following criteria:

- (a) Where the principal or interest/profit or both of the credit facility is past due for more than 90 days or 3 months;
- (b) In the case of revolving credit facilities (e.g. overdraft facilities), where the outstanding amount has remained in excess of the approved limit for a period of more than 90 days or 3 months;
- (c) Where the amount is past due or the outstanding amount has been in excess of the approved limit for 90 days or 3 months or less, and the credit facility exhibits weaknesses in accordance with the Group’s internal credit risk rating framework; or
- (d) As soon as a default occurs where the principal and /or interest/profit repayments/payments are scheduled on intervals of 3 months or longer.

For the purpose of ascertaining the period in arrears:

- Repayment/payment on each of the instalment amount must be made in full. A partial repayment/payment made on an instalment amount shall be deemed to be still in arrears; and
- Where a moratorium on credit facilities is granted in relation to the rescheduling and restructuring exercise due to specific and exceptional circumstances as set in the Group’s internal policy, the determination of period in arrears shall exclude the moratorium period granted.

(e) Force Impaired Credit Facilities

The credit facility is force impaired due to various reasons, such as bankruptcy, appointment of Independent Financial Advisor, etc. In the event where a credit facility is not in default or past due but force impaired, the credit facility shall be classified as impaired upon approval by GAQC.

CIMB Bank Berhad

57 Financial Risk Management (Continued)

57.1 Credit risk (Continued)

Credit Risk Measurement (Continued)

(ii) Definition of credit impaired (Continued)

(f) Cross Default

When an obligor/counterparty has multiple credit facilities with the Group and cross default obligation applies, an assessment of provision is required under which default of one debt/financing obligation triggers default on another debt/financing obligation (cross default). Where there is no right to set off clause is available, assessment of provision needs to be performed on individual credit facility level instead of consolidated obligor/counterparty level.

Bonds and other debt instruments measured at amortised cost or FVOCI

The financial instruments are classified as impaired when it meets one or more of the following criteria:

- Bond that have an internal rating of 14 and above shall be classified as impaired upon approval by relevant approval authority. Impaired credits must be graded / classified with the appropriate regulatory financing grading(s).
- Bonds which are force impaired and approved by Group Asset Quality Committee will be subject to individual impairment assessment.
- When an obligor/counterparty has multiple loans/bonds with the Group and cross default obligation applies, an assessment of provision is required under which default of one debt obligation triggers default on another debt obligation (cross default). Where there is no right to set off clause is available, an assessment of provision needs to be performed on individual loan/bond level instead of consolidated obligor/counterparty level.

(iii) Definition of default

Loans, advances and financing

The Group defines a financial instrument as in default when it meets one or more of the following criteria:

- Credit-impaired;
- Restructured accounts by AKPK scheme;
- Write-off / charged-off accounts;
- Repossessed accounts (applicable for hire purchase receivables only);
- Force disposed accounts (applicable for non-voluntary ASB loans, advances and financing only).

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.1 Credit risk (Continued)

Credit Risk Measurement (Continued)

(iii) Definition of default (Continued)

The criteria above have been applied to all financial instruments held by the Group and are consistent with the definition of default used for internal credit risk management purposes. The default definition has been applied consistently to model the Probability of Default (“PD”), Exposure at Default (“EAD”) and Loss given Default (“LGD”) throughout the Group’s expected loss calculations for loans, advances and financing.

An instrument is considered to no longer be in default (i.e. to have cured) when it no longer meets any of the default criteria for a consecutive period of six months. This period of six months has been determined based on an analysis which considers the likelihood of a financial instrument returning to default status after cure using different possible cure definitions.

Bonds and other debt instruments measured at amortised cost or FVOCI

The default criteria is fully aligned with external rating agency’s default definition as the Group has chosen to benchmark external data for modelling purposes:

- Failure to make principal and/or interest/profit payment under the contractual terms, which is not remedied within the grace period.
- Bankruptcy filings, administration, receivership, liquidation, winding-up or cessation of business of issuer/obligor.
- Failure to honor corporate-guarantee obligations provided to subsidiaries.
- Distressed exchange offer (e.g. extended maturities, lower coupons and etc.).
- Change in payment terms of a credit arrangement or indenture imposed by the sovereign that results in a diminished financial obligation.

(iv) Measuring ECL - inputs, assumptions and estimation techniques

The Group assesses on a forward looking basis the expected credit losses (“ECL”) associated with its loans, advances and financing. The ECL is measured on either a 12-month or lifetime basis depending on whether a significant increase in credit risk has occurred since initial recognition or whether an asset is considered to be credit-impaired. The 12-month or lifetime ECL reflects multiple forward-looking scenarios and is weighted based on the probability of occurrence for each scenario. The ECL can be assessed and measured either on collective or individual basis.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.1 Credit risk (Continued)

Credit Risk Measurement (Continued)

(iv) Measuring ECL - inputs, assumptions and estimation techniques (Continued)

For collective assessment, the ECL is determined by projecting the PD, LGD and EAD for each future month and for each individual exposure or collective segment. The three components are multiplied together to calculate an ECL for each future month, which is then discounted back to the reporting date and summed. The discount rate used in the ECL calculation is the original effective interest/profit rate or an approximation thereof.

For individual assessment, the ECL allowance is determined by comparing the outstanding exposure with the present value of cash flow which is expected to be received from the borrower.

Probability of Default

The PD represents the likelihood of a borrower will be unable to meet its financial obligation either over the next 12 months (12-month PD) or over the remaining lifetime (Lifetime PD) of the obligation.

The PD is derived based on the modelling approach of which statistical analysis and expert judgement was performed to identify the risk parameters which correlate with the historical observed default. The model relies on the risk parameters and its correlation with the historical observed default to predict the 12-month PD. The Lifetime PD is developed using forecasted MEV with the application of survival probabilities up to maturity of the loan facility.

Exposure at Default

EAD is the total amount that the Group is exposed to at the time the borrower defaults.

The 12-month and lifetime EADs are determined based on the expected payment profile, which varies by product type.

- For amortising products and bullet repayment loans, this is based on the contractual repayments owed by the borrower over a 12 month or remaining maturity.
- For revolving products the exposure at default is predicted by taking current drawn balance and adding a “credit conversion factor” which allows for the expected drawdown of the remaining limit by the time of default.

Loss Given Default

LGD represents the Group’s expectation of the extent of loss on a defaulted exposure. LGD varies by type of counterparty, type and seniority of claim and availability of collateral or other credit support. LGD is expressed as a percentage loss per unit of exposure at the time of default.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.1 Credit risk (Continued)

Credit Risk Measurement (Continued)

(iv) Measuring ECL - inputs, assumptions and estimation techniques (Continued)

The 12-month and lifetime LGDs are determined based on the factors which impact the recoveries made post default. These vary by product type.

- For secured products, this is primarily based on collateral type and projected collateral values, historical discounts to market/book values due to forced sales, time to repossession and recovery costs observed.
- For unsecured products, LGD's are typically set at product level due to the limited differentiation in recoveries achieved across different borrowers. These LGD's are influenced by collection strategies, including contracted debt sales and price.

The assumptions underlying the ECL calculation are monitored and reviewed periodically. There have been no significant changes in estimation techniques or significant assumptions made during the reporting period.

(v) Forward-looking information incorporated into the ECL models

The estimation of ECL incorporates forward-looking information. The Group has performed statistical analysis based on historical experience and identified the key economic variables impacting credit risk and expected credit losses for each portfolio. The relationship of these economic variables on the PD, EAD and LGD has been determined by performing statistical regression analysis to understand the impact changes in these variables have had historically on default rates and on the components of PD and LGD. These economic variables and their associated impact on the PD, EAD and LGD vary by financial instrument. Expert judgement has also been applied in this process. Forecasts of these economic variables are sourced from Group's Economics team.

The Group applies three economic scenarios to reflect an unbiased probability-weighted range of possible future outcome in estimating ECL:

Base case: This represents 'most likely outcome' of future economic conditions which is aligned with information used by the Group for other purposes such as budgeting and stress testing.

Best and Worst case: This represent the 'upside' and 'downside' outcome of future economic conditions.

CIMB Bank Berhad

**Notes to the Financial Statements
for the financial year ended 31 December 2024 (Continued)****57 Financial Risk Management (Continued)****57.1 Credit risk (Continued)****Credit Risk Measurement (Continued)****(vi) Forward-looking information incorporated into the ECL models (Continued)**

As with any economic forecasts, the projections and likelihoods of occurrence are subject to some degree of inherent uncertainty and therefore the actual outcomes may be different to those projected. The Group considers these forecasts to represent its best estimate of the possible outcomes and are appropriately representative of the range of possible scenarios. The scenario weightage, number of scenarios and their attributes are reassessed periodically.

The Group and the Bank have also identified the key economic variables and carried out sensitivity assessment of ECL for loans, advances and financing (including undrawn loans, advances and financing) and treasury bonds in relation to the changes in these key economic variables while all other variables remain constant. The sensitivity factors used are derived based on expected standard deviation determined for each key economic variables to assess the impact on the ECL of the Group and the Bank.

The key economic variables used for the ECL sensitivity assessment:

Key variables:	Changes	Changes
	(+/- bps)	(+/- bps)
	2024	2023
GDP growth	75	50
Equity market index	300	50
Housing Price Index ("HPI")	75	50
Overnight policy rate ("OPR")	25	50
Exchange Rate	25	50
Interbank rate	25	25
Crude oil price	150	700
Consumer Price Index, CPI*	50	50
Export*	50	0
Leading indicator*	50	50
Private consumption	50	100
Labour Rate*	50	0
Household debt*	50	0

* applicable for the Group only

for the financial year ended 31 December 2024 (Continued)****57 Financial Risk Management (Continued)****57.1 Credit risk (Continued)****Credit Risk Measurement (Continued)**

(v) Forward-looking information incorporated into the ECL models (Continued)

	The Group			
	Made/(writeback)		Made/(writeback)	
	RM'000	RM'000	RM'000	RM'000
	2024		2023	
	+	-	+	-
Impact on expected credit losses	<u>36,431</u>	<u>1,991</u>	<u>83,607</u>	<u>(75,873)</u>

	The Bank			
	Made/(writeback)		Made/(writeback)	
	RM'000	RM'000	RM'000	RM'000
	2024		2023	
	+	-	+	-
Impact on expected credit losses	<u>51,948</u>	<u>(24,718)</u>	<u>84,332</u>	<u>(74,001)</u>

The impact captures the non-linearity and offsetting effect arising from the correlation of variables with the ECL and does not reflect any overlay or adjustment which could potentially be put in place as a result of the change in macroeconomics.

(vi) Grouping of exposure for ECL measured on collective basis

For expected credit loss provisions modelled on a collective basis, a grouping of exposures is performed on the basis of shared risk characteristics, such that risk exposures within a group are homogeneous.

In performing this grouping, there must be sufficient information for the Group to be statistically credible. Where sufficient information is not available internally, the Group has considered benchmarking internal/external supplementary data to use for modelling purposes.

The appropriateness of groupings is monitored and reviewed on a periodic basis by the Credit Risk and Modelling team.

57 Financial Risk Management (Continued)

57.1 Credit risk (Continued)

Credit Risk Measurement (Continued)

Write off policy

Write-off is usually taken when relevant recovery actions have been exhausted or further recovery is not economically feasible or justifiable. When a loan or debt instrument is deemed uncollectible, it is written off against the related allowance for impairment. Such loans are either written off in full or partially after taking into consideration the realisable value of collateral (if any) and when in the judgement of the Management, there is no prospect of recovery. All write-offs must be approved by the Board or its delegated authorities.

The Group and the Bank may write-off loan or debt instruments that are still subject to enforcement activity. The outstanding contractual amounts of such assets written off for the Group and the Bank during the year ended 31 December 2024 were RM1,907 million and RM1,325 million respectively (2023: RM2,361 million and RM1,964 million respectively).

Modification of loans

Where the original contractual terms of a financial asset have been modified and the instrument has not been derecognised, the resulting modification loss is recognised in the income statements with a corresponding decrease in the gross carrying value of the asset.

If the modification involved a concession that the Group would not otherwise consider, the instrument is considered to be credit impaired and is considered forborne. ECL for modified financial assets that have not been derecognised and are not considered to be credit-impaired will be recognised on a 12-month basis, or a lifetime basis, if there is a significant increase in credit risk.

These assets are assessed to determine whether there has been a significant increase in credit risk subsequent to the modification. The risk of default of such loans after modification is assessed at the reporting date and compared with the risk under the original terms at initial recognition, when the modification is not substantial and so does not result in derecognition of the original loans. The Group monitors the subsequent performance of modified assets. The Group may determine that the credit risk has significantly improved after restructuring, so that the assets are moved from Stage 3 or Stage 2 (Lifetime ECL) to Stage 1 (12-month ECL). This is only the case for assets which have performed in accordance with the new terms for six consecutive months or more.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.1 Credit risk (Continued)

Off-Balance Sheet Exposures and Counterparty Credit Risk (“CCR”)

Off-Balance Sheet exposures are exposures such as derivatives, trade facilities and undrawn commitments. The Group adopts the Current Exposure method to compute the capital requirement for CCR under BNM’s guidelines on CAF (Basel II - Risk-Weighted Assets) and CAFIB (Risk-Weighted Assets).

(i) Credit Risk Mitigation

For credit derivatives and swaps transactions, the Group enters into master agreement with counterparties, whenever possible. Further, the Group may also enter into Credit Support Annexes, International Swaps and Derivatives Association Agreement (“CSA”) with counterparties. The net credit exposure with each counterparty is monitored based on the threshold agreed in the master agreement and the Group may request for additional margin for any exposures above the agreed threshold, in accordance with the terms specified in the relevant CSA or the master agreement. The eligibility of collaterals and frequency calls are negotiated with the counterparty and endorsed by GCC or the relevant credit approving authority.

(ii) Treatment of Rating Downgrade

In the event of a one-notch downgrade of rating, based on the terms of the existing CSA and exposure as at 31 December 2024 and 31 December 2023, there was no requirement for additional collateral to be posted.

On the other hand, counterparty rating is being monitored and in the event of a rating downgrade, remedial actions such as revision of the counterparty credit limit, suspension of the limit or the request for additional collateral may be taken.

CIMB Bank Berhad

(Incorporated in Malaysia)

**Notes to the Financial Statements
for the financial year ended 31 December 2024 (Continued)****57 Financial Risk Management (Continued)****57.1 Credit risk (Continued)****57.1.1 Maximum exposure to credit risk (without taking into account any collateral held or other credit enhancements)**

For financial assets reflected in the statement of financial position, the exposure to credit risk equals their carrying amount. For financial guarantees and similar contract granted, it is the maximum amount that the Group and the Bank would have to pay if the guarantees were called upon. For credit related commitments and contingents that are irrevocable over the life of the respective facilities, it is generally the full amount of the committed facilities.

All financial assets of the Group and the Bank are subject to Credit Risk except for cash in hands, securities instruments in financial investments at fair value through profit or loss, unit trust in debt instruments at fair value through other comprehensive income, equity instruments at fair value through other comprehensive income, statutory deposits with central banks as well as non-financial assets.

	The Group		The Bank	
	2024	2023	2024	2023
	RM'000	RM'000	RM'000	RM'000
Financial guarantees	7,428,134	6,781,283	5,699,131	5,115,429
Credit related commitments and contingencies	166,772,415	134,513,363	130,040,686	98,104,096
	174,200,549	141,294,646	135,739,817	103,219,525

The financial effect of collateral (quantification to the extent to which collateral and other credit enhancements mitigate credit risk) held for net loans, advances and financing for the Group and the Bank is 67.5% (2023: 63.9%) and 64.7% (2023: 59.7%) respectively while the financial effect of collateral for derivatives for the Group and the Bank is 83.9% (2023: 82.6%) and 65.7% (2023: 64.4%) respectively. The financial effect of collateral held for the remaining financial assets are insignificant.

The financial effect of collateral (quantification to the extent to which collateral and other credit enhancements mitigate credit risk) held for net loans, advances and financing that are credit impaired as at 31 December 2024 for the Group and the Bank is 81.9% (2023: 82.0%) and 70.8% (2023: 78.4%) respectively.

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.1 Credit risk (Continued)

57.1.4 Credit quality of financial assets

(a) Financial assets using General 3-stage approach

Where expected credit loss model is applied, the credit quality of financial instruments subject to credit risk are assessed by reference to internal rating system adopted by the Group, as summarised below:

Loans, advances and financing and loans commitment and financial guarantees

Rating classification	Internal rating label
Good	1 to 17
Satisfactory	18 to 25
Impaired	26 and above

Other financial instruments

Rating classification	Internal rating label
Investment Grade (IG)	1 to 10
Non-Investment Grade	11 to 25
Impaired	26 and above

Other financial instruments include cash and short-term funds, deposits and placements with banks and other financial institutions, reverse repurchase agreements/reverse Collateralised Commodity Murabahah at amortised cost, debt instruments at fair value through other comprehensive income ("FVOCI"), debt instruments at amortised cost, amount due from intercompany balances and other assets.

CIMB Bank Berhad

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.1 Credit risk (Continued)

57.1.4 Credit quality of financial assets (Continued)

(a) Financial assets using General 3-stage approach (Continued)

Credit quality description can be summarised as follows:

Good – There is a high likelihood of the asset being recovered in full and therefore, of no cause for concern to the Group and the Bank.

Satisfactory – There is concern over the counterparty's ability to make payments when due. However, these have not yet converted to actual delinquency and the counterparty is continuing to make payments when due and is expected to settle all outstanding amounts of principal and interest.

Investment Grade – It refers to the credit quality of the financial asset where there is a relatively low risk of credit default as the issuer of the financial asset has a high likelihood to meet payment obligations.

Non-investment Grade – There is concern over the credit quality of the financial asset due to the issuer's ability to repay its obligation when due.

No rating – This includes exposures under the Standardised Approach and those where ratings are not available and portfolio average were applied.

Impaired – Refers to the asset that is being impaired.

Sovereign – Refers to exposures relate to government and central bank.

The Bank 2024				Gross		Net
	Sovereign	Investment	No rating	carrying	ECL	carrying
	RM'000	grade	RM'000	amount	RM'000	amount
Other assets	-	25,430	407,919	433,349	(2,298)	431,051
	-	25,430	407,919	433,349	(2,298)	431,051

2023				Gross		Net
	Sovereign	Investment	No rating	carrying	ECL	carrying
	RM'000	grade	RM'000	amount	RM'000	amount
Other assets	-	48,424	293,337	341,761	(6,035)	335,726
	-	48,424	293,337	341,761	(6,035)	335,726

Credit quality description can be summarised below:

Investment Grade – It refers to the credit quality of the financial asset where there is a relatively low risk of credit default as the issuer of the financial asset has a high likelihood to meet payment obligations.

Non-investment Grade – There is concern over the credit quality of the financial asset due to the issuer's ability to repay its obligation when due.

No rating – This includes exposures where ratings are not available and portfolio average were applied.

Sovereign – Refers to exposures relate to government and central bank.

**Notes to the Financial Statements
for the financial year ended 31 December 2024 (Continued)****57 Financial Risk Management (Continued)****57.1 Credit risk (Continued)****57.1.5 Repossessed collateral**

The Group obtained assets by taking possession of collateral held as security as follows:

	The Group	
	Carrying amount	
	2024	2023
Nature of assets	RM'000	RM'000
Industrial and residential properties, development land and motor vehicles	139,494	172,329

Reposessed collaterals are sold as soon as practicable. The Group does not utilise the reposessed collaterals for its business use.

57.1.6 Modification of loans, advances and financing

The following table provides information on financial assets that were modified while they had a loss allowance measured at an amount equal to lifetime ECL – not credit impaired (Stage 2):

	The Group	
	2024	2023
	RM'000	RM'000
Amortised cost before modification	230,250	105,790
Modification loss	(1,396)	(1,168)
Amortised cost after modification	228,854	104,622

	The Bank	
	2024	2023
	RM'000	RM'000
Amortised cost before modification	-	9,617
Modification loss	-	(230)
Amortised cost after modification	-	9,387

Gross carrying amounts of loans, advances and financing of the Group and the Bank as at 31 December 2024, for which loss allowance has changed to 12-month measurement (Stage 1) of the Group and the Bank during the financial year amounting to RM3,472,000 (2023: RM4,305,000) and RMNil (2023: RM33,000) respectively.

CIMB Bank Berhad

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.1 Credit risk (Continued)

57.1.7 Overlays and adjustments for expected credit losses

In the post-COVID-19 environment, the Group continued to apply overlays and post-model adjustments to address economic uncertainties and external risks including, but not limited to, international trade trends, the prevailing effects of high policy rates and inflation, as well as the potential consequences of global geopolitical tensions for the adequacy of the overall level of ECL for the year ended 31 December 2024.

These overlays and post-model adjustments were applied to reflect the latest macroeconomic outlook not captured in the modelled outcome and the potential impact on delinquencies and defaults arising from the potential risks mentioned above.

The overlays and post-model adjustments involved a significant level of judgement and have reflected the management's views on the severity of post-pandemic impacts and paths to recovery in the forward-looking assessment of ECL estimation.

The impact of these overlays and post-model adjustments is estimated at the portfolio level, which remains outside the core MFRS 9 process and amounts to RM1,138.0 million (2023: RM1,549.3 million) and RM340.6 million (2023: RM594.0 million) of the Group's and the Bank's ECL on loans, advances and financing (including undrawn loans, advances and financing). Total overlays for ECL inclusive of the macro-economic adjustments is maintained by the Group within loans, advances and financing as at 31 December 2024.

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.2 Market risk

Market risk is defined as fluctuations in the value of financial instruments due to changes in market risk factors such as interest rates/profit rates, currency exchange rates, credit spreads, equity prices, commodities prices and their associated volatility.

Market Risk Management (“MRM”)

The Group hedges the exposures to market risk by employing various strategies, including the use of derivative instruments.

The Group adopts various measures as part of risk management process. The GRCC with the assistance of GMCRC and its delegated committees ensure that the risk exposures undertaken by the Group is within the risk appetite approved by the Board.

Market Risk CoE is responsible for measuring and controlling the Group’s market risk through robust measurement and market risk limit monitoring while facilitating business growth within a controlled and transparent risk management framework. Market Risk CoE evaluates the market exposures using the applicable market price and pricing model. The valuation process is carried out with the independent price verification requirements to ensure that financial assets/liabilities are recorded at fair value. The valuation methods and models used are validated by Market Risk Management quantitative analysts to assess their applicability relative to market conditions.

The Group adopts the VaR methodology as an approach in the measurement of market risk. VaR is a statistical measure of the potential losses that could occur as a result of movements in market rates and prices over a specified time horizon within a given confidence level. The usage of market VaR by risk type based on 1-day holding period of the Group’s and the Bank’s trading exposures as at 31 December 2024 is shown in table 57.2.1.

Stress testing is conducted to capture the potential market risk exposures from an unexpected market movement. In formulating stress scenarios, consideration is given to various aspects of the market; for example, identification of areas where unexpected losses can occur and areas where historical correlation may no longer hold true.

In addition to the above, Market Risk CoE undertakes the monitoring and oversight process at Treasury & Markets’ trading floors, which include reviewing and analysing treasury trading activities vis-à-vis changes in the financial markets, monitoring limit usage, assessing limit adequacy and verifying transaction prices.

**Notes to the Financial Statements
for the financial year ended 31 December 2024 (Continued)****57 Financial Risk Management (Continued)****57.2 Market risk (Continued)****57.2.2 Interest rate risk**

Interest rate risk relates to the potential adverse impact on the net interest income arising from the changes in market rates. One of the primary sources of interest rate risk is the repricing mismatches between interest earning assets and interest bearing liabilities. Interest rate risk is measured and reported at various levels through various techniques including Earnings-at-Risk (“EaR”).

- (a) The tables below summarise the Group’s financial assets and financial liabilities at their full carrying amounts, analysed by the earlier of contractual repricing or maturity dates:

**Notes to the Financial Statements
for the financial year ended 31 December 2024 (Continued)****57 Financial Risk Management (Continued)****57.2 Market risk (Continued)****57.2.2 Interest rate risk (Continued)****(c) Sensitivity of profit**

The table below shows the sensitivity of the Group's and the Bank's banking book to movement in interest rates:

	The Group			
	2024		2023	
	Increase/(Decrease)		Increase/(Decrease)	
	+100 basis point	-100 basis point	+100 basis point	-100 basis point
	RM'000	RM'000	RM'000	RM'000
Impact to profit (after tax)	(350,911)	350,911	(288,365)	288,365

	The Bank			
	2024		2023	
	Increase/(Decrease)		Increase/(Decrease)	
	+100 basis point	-100 basis point	+100 basis point	-100 basis point
	RM'000	RM'000	RM'000	RM'000
Impact to profit (after tax)	(223,190)	223,190	(174,320)	174,320

Sensitivity is measured using the EaR methodology. The treatments and assumptions applied are based on the contractual repricing and remaining maturity of the products, whichever is earlier. Items with indefinite repricing maturity are treated based on the earliest possible repricing date. The actual dates may vary from the repricing profile allocated due to factors such as pre-mature withdrawals, prepayment and others.

A 100 bps parallel rate movement is applied to the yield curve to model the potential impact on profit in the next 12 months from policy rate change.

The projection assumes that interest rates of all maturities move by the same amount and, therefore, do not reflect the potential impact on profit of some rates changing while others remain unchanged. The projections also assume that all other variables are held constant and are based on a constant reporting date position and that all positions run to maturity.

**Notes to the Financial Statements
for the financial year ended 31 December 2024 (Continued)****57 Financial Risk Management (Continued)****57.2 Market risk (Continued)****57.2.2 Interest rate risk (Continued)****(d) Sensitivity of reserves**

The table below shows the sensitivity of the Group's and the Bank's banking book to movement in interest rates:

	The Group			
	2024		2023	
	Increase/(Decrease)		Increase/(Decrease)	
	+100 basis point	-100 basis point	+100 basis point	-100 basis point
	RM'000	RM'000	RM'000	RM'000
Impact to fair value reserve - debt instruments at fair value through other comprehensive income	(3,215,336)	3,215,336	(2,855,413)	2,855,413

	The Bank			
	2024		2023	
	Increase/(Decrease)		Increase/(Decrease)	
	+100 basis point	-100 basis point	+100 basis point	-100 basis point
	RM'000	RM'000	RM'000	RM'000
Impact to fair value reserve - debt instruments at fair value through other comprehensive income	(2,280,962)	2,280,962	(2,122,358)	2,122,358

A 100 bps parallel rate movement is applied to the yield curve to model the potential impact on reserve in the next 12 months from changes in risk free rates. The impact on reserves arises from changes in valuation of financial investments at fair value through other comprehensive income following movements in risk free rates.

The projection assumes that all other variables are held constant. It also assumes a constant reporting date position and that all positions run to maturity.

The above sensitivities of profit and reserves do not take into account the effects of hedging and do not incorporate actions that the Group and the Bank would take to mitigate the impact of this interest rate risk. In practice, the Group and the Bank proactively seeks to mitigate the effect of prospective interest movements.

CIMB Bank Berhad

**Notes to the Financial Statements
for the financial year ended 31 December 2024 (Continued)****57 Financial Risk Management (Continued)****57.2 Market risk (Continued)****57.2.3 Foreign exchange risk**

The Group and Bank are exposed to transactional foreign exchange exposures which are exposures on assets and liabilities denominated in currencies other than the functional currency of the transacting entity.

The Group and the Bank take minimal exposure to the effects of fluctuations in the prevailing foreign currency exchange rates on its financial position and cash flows. The Group manages its exposure to foreign exchange currencies at each entity level.

(a) Sensitivity of profit and reserves

The table below shows the sensitivity of the Group's and the Bank's profit and reserves to movement in foreign exchange rates:

	The Group		The Bank	
	1% appreciation in foreign currency Increase/(decrease) RM'000	1% depreciation in foreign currency Increase/(decrease) RM'000	1% appreciation in foreign currency Increase/(decrease) RM'000	1% depreciation in foreign currency Increase/(decrease) RM'000

**Notes to the Financial Statements
for the financial year ended 31 December 2024 (Continued)****57 Financial Risk Management (Continued)****57.2 Market risk (Continued)****57.2.3 Foreign exchange risk (Continued)****(a) Sensitivity of profit and reserves (Continued)**

The table below shows the sensitivity of the Group's and the Bank's profit and reserves to movement in foreign exchange rates: (Continued)

	The Group		The Bank	
	1% appreciation in foreign currency	1% depreciation in foreign currency	1% appreciation in foreign currency	1% depreciation in foreign currency
	Increase/(decrease)		Increase/(decrease)	
2023	RM'000	RM'000	RM'000	RM'000
Impact to profit (after tax)	(1,737)	1,737	2,987	(2,987)
USD	(7,338)	7,338	(2,231)	2,231
THB	227	(227)	221	(221)
HKD	100	(100)	62	(62)
GBP	638	(638)	394	(394)
JPY	282	(282)	609	(609)
SGD	1,464	(1,464)	1,463	(1,463)
EUR	1,578	(1,578)	1,582	(1,582)
Others	1,312	(1,312)	887	(887)
Impact to reserves	(74,397)	74,397	(68,890)	68,890
USD	(36,345)	36,345	(30,838)	30,838
SGD	(34,955)	34,955	(34,955)	34,955
GBP	(965)	965	(965)	965
Others	(2,132)	2,132	(2,132)	2,132

The impact on profit arises from transactional exposures while the impact on reserves arises from net investment hedge from parallel shifts in foreign exchange rates.

The projection assumes that foreign exchange rates move by the same amount and, therefore, do not reflect the potential impact on profit and reserves of some rates changing while others remain unchanged. The projections also assume that all other variables are held constant and are based on a constant reporting date position and that all positions run to maturity.

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.3 Liquidity risk

Liquidity and funding risk is defined as the current and potential risk to earnings, shareholders' funds or reputation arising from the Group's inability to efficiently meet its present and future (both anticipated and unanticipated) funding needs or regulatory obligations when they are due, which may adversely affect its daily operations and incur unacceptable losses. Liquidity risk arises from mismatches in the timing of cash flows.

The objective of the Group's liquidity risk management is to ensure that the Group can meet its cash obligations in a timely and cost-effective manner. To this end, the Group's liquidity risk management policy is to maintain high quality and well diversified portfolios of liquid assets and sources of funds under both business-as-usual and stress conditions. Due to its large delivery network and marketing focus, the Group is able to maintain a diversified core deposit base comprising savings, demand and term deposits, thus providing the Group with a stable, large funding base from individuals, SMEs, corporates and financial institutions segments. The Group maintains some buffers of liquidity throughout the year to ensure safe and sound operations from a strategic, structural and tactical perspective.

The day-to-day responsibility for liquidity risk management and control in each individual entity is delegated to the respective Country Asset Liability Management Committee, which subsequently reports to Group Asset Liability Management Committee. The Group Asset Liability Management Committee meets at least once a month to discuss the liquidity risk and funding profile of the Group. The key liquidity risk metrics comprise of internal liquidity gaps or cashflow maturity profile mismatches under business-as-usual and stress scenarios, regulatory Liquidity Coverage Ratio ("LCR") and Net Stable Funding Ratio ("NSFR") which are measured and monitored regularly. LCR is a quantitative regulatory requirement which seeks to ensure that banking institutions hold sufficient High Quality Liquid Assets ("HQLA") to withstand an acute liquidity stress scenario over a 30-calendar-day horizon. The Group monitors and reports LCR and NSFR based on the BNM LCR and NSFR Policy Document dated 25 August 2016 and 31 July 2019 respectively. The effective date for NSFR is 1 July 2020. As part of its ordinary course of business, the Bank maintains the LCR and NSFR above the regulatory requirements. In addition, liquidity risk stress testing under various scenarios covering bank-specific (idiosyncratic), market-wide and combined crises is performed regularly to identify sources of potential liquidity strain. Liquidity risk positions based on balance sheet forecasts and relevant risk drivers are projected to help in business planning.

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.3 Liquidity risk (Continued)

In addition to regulatory limits, liquidity risk undertaken by the Group is governed by a set of established liquidity risk appetite and limits. Management Action Triggers (“MATs”) have been established to alert the management to potential and emerging liquidity pressures. Any trigger of liquidity risk appetite, limits or MATs will be escalated to the board and management in accordance to the approved framework. The Group’s Liquidity Risk Management Policy is subjected to periodic review. The assumptions, risk limits and appetite are regularly reviewed in response to regulatory changes, changing business needs and market conditions.

The Asset Liability Management function, which is responsible for the independent monitoring of the Group’s liquidity risk profile, works closely with Treasury and Markets in its surveillance on market conditions. Business units are responsible for establishing and maintaining strong business relations with their respective depositors and key providers of funds. Overseas branches and subsidiaries should seek to be self-sufficient in funding at all times. Treasury and Markets only acts as a global provider of funds on a need-to or contingency basis. Each entity has to prudently manage its liquidity position to meet its daily operating needs.

The Group’s Contingency Funding Plan (“CFP”) is in place to alert and enable the management to act effectively and efficiently during a liquidity or funding crisis and under adverse market conditions. The CFP is subjected to regular testing.

57.3 Liquidity risk (Continued)

57.3.2 Contractual maturity of financial liabilities on an undiscounted basis (Continued)

Derivative financial liabilities

The table below analyses the Group's and the Bank's trading derivative financial liabilities and hedging derivative financial liabilities.

All trading derivatives, whether net or gross settled are analysed based on the expected maturity as the contractual maturity is not considered to be essential to the understanding of the timing of the cash flows. The amounts disclosed in respect of such contracts are the fair values.

Hedging derivatives are disclosed based on remaining contractual maturities as the contractual maturities of such contracts are essential for an understanding of the timing of the cash flows. The amounts disclosed in respect of such contracts are the contractual undiscounted cash flows.

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.4 Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

57.4.1 Determination of fair value and fair value hierarchy

The fair value hierarchy has the following levels:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• Quoted prices for similar assets and liabilities in active markets; or• Quoted prices for identical or similar assets and liabilities in non-active markets; or• Inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument. |
| Level 3 | One or more inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

Assets/liabilities are classified as Level 1 when the valuation is based on quoted prices for identical assets or liabilities in active markets.

Assets/liabilities are regarded as being quoted in an active market if the prices are readily available from a published and reliable source and those prices represent actual and regularly occurring market transactions on an arm's length basis.

When fair value is determined using quoted prices of similar assets/liabilities in active markets or quoted prices of identical or similar assets and liabilities in non-active markets, such assets/liabilities are classified as Level 2. In cases where quoted prices are generally not available, the Group determines fair value based upon valuation techniques that use market parameters as inputs. Most valuation techniques employ observable market data, including but not limited to yield curves, equity prices, volatilities and foreign exchange rates.

Assets/liabilities are classified as Level 3 if their valuation incorporates significant inputs that are not based on observable market data. Such inputs are determined based on observable inputs of a similar nature, historical observations or other analytical techniques.

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.4 Fair value estimation (Continued)

57.4.1 Determination of fair value and fair value hierarchy (Continued)

If prices or quotes are not available for an instrument or a similar instrument, fair value will be established by using valuation techniques or Mark-to-Model. Judgement may be required to assess the need for valuation adjustments to appropriately reflect unobservable parameters. The valuation models shall also consider relevant transaction data such as maturity. The inputs are then benchmarked and extrapolated to derive the fair value.

Valuation Model Review and Approval

- Fair valuation of financial instruments is determined either through Mark-to-Market or Mark-to-Model methodology, as appropriate;
- Market Risk Management is mandated to perform Mark-to-Market, Mark-to-Model and rate reasonableness verification. Market price and/or rate sources for Mark-to-Market are validated by Market Risk Management as part and parcel of market data reasonableness verification;
- Valuation methodologies for the purpose of determining Mark-to-Model prices will be verified by Group Risk Management Quantitative analysts before submitting to the GMCRC for approval;
- Mark-to-Model process shall be carried out by Market Risk Management in accordance with the approved valuation methodologies. Group Risk Management Quantitative analysts are responsible for independent evaluation and validation of the Group's financial models used for valuation;
- Group Risk Management Quantitative analysts are the guardian of the financial models and valuation methodologies. Market rate sources and model inputs for the purpose of Mark-to-Model must be verified by Group Risk Management Quantitative analysts and approved by Regional Head, Market Risk Management and/or the GMCRC;
- Model risk and unobservable parameter reserve must be considered to provide for the uncertainty of the model assumptions;
- The Group's policy is to recognise transfers into and transfers out of fair value hierarchy levels as of the date of the event or change in circumstances that caused the transfer; and
- Independent price verification process shall be carried out by Market Risk Management to ensure that financial assets/liabilities are recorded at fair value.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.4 Fair value estimation (Continued)

57.4.2 Fair value of financial assets and liabilities measured at amortised cost (Continued)

The fair values are based on the following methodologies and assumptions:

Short-term funds and placements with financial institutions

For short-term funds and placements with financial institutions with maturities of less than six months, the carrying value is a reasonable estimate of fair value. For deposits and placements with maturities of six months and above, the estimated fair value is based on discounted cash flows using prevailing money market interest rates at which similar deposits and placements would be made with financial institutions of similar credit risk and remaining period to maturity.

Debt instruments at amortised cost

The estimated fair value is generally based on quoted and observable market prices. Where there is no ready market in certain securities, the Group and the Bank establishes fair value by using valuation techniques. These include the use of recent arm's length transactions, discounted cash flow analysis and other valuation techniques commonly used by market participants.

Other assets

The fair value of other assets approximates the carrying value less impairment allowance at the statement of financial position date.

Loans, advances and financing

For floating rate loans, the carrying value is generally a reasonable estimate of fair value.

For fixed rate loans with maturities of six months or more, the fair value is estimated by discounting the estimated future cash flows using the prevailing market rates of loans with similar credit risks and maturities.

The fair values of impaired floating and fixed rate loans are represented by their carrying value, net of expected credit losses being the expected recoverable amount.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.4 Fair value estimation (Continued)

57.4.2 Fair value of financial assets and liabilities measured at amortised cost (Continued)

Amount due (to)/from subsidiaries and related companies and amount due from holding company and ultimate holding company

The estimated fair values of the amount due (to)/from subsidiaries and related companies and amount due from ultimate holding company approximate the carrying values as the balances are either recallable on demand or are based on the current rates for such similar loans.

Deposits from customers

For deposits from customers with maturities of less than six months, the carrying amounts are a reasonable estimate of their fair value. For deposit with maturities of six months or more, fair values are estimated using discounted cash flows based on prevailing market rates for similar deposits from customers.

Investment accounts of customers

The estimated fair values of placements from investment accounts with maturities of less than six months approximate the carrying values. For placements with maturities of six months or more, the fair values are estimated based on discounted cash flows using prevailing money market profit rates for placements with similar remaining period to maturities.

Deposits and placements of banks and other financial institutions

The estimated fair values of deposits and placements of banks and other financial institutions with maturities of less than six months approximate the carrying values. For deposits and placements with maturities of six months or more, the fair values are estimated based on discounted cash flows using prevailing money market interest rates for deposits and placements with similar remaining period to maturities.

Obligations on securities sold under repurchase agreements/Collateralised Commodity Murabahah

The estimated fair values of obligations on securities sold under repurchase agreements/Collateralised Commodity Murabahah with maturities of less than six months approximate the carrying values. For obligations on securities sold under repurchase agreements/Collateralised Commodity Murabahah with maturities of six months or more, the fair values are estimated based on discounted cash flows using prevailing money market interest rates with similar remaining period to maturity.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.4 Fair value estimation (Continued)

57.4.2 Fair value of financial assets and liabilities measured at amortised cost (Continued)

Bills and acceptances payable

The estimated fair values of bills and acceptances payable with maturities of less than six months approximate the carrying values. For floating rate bills and acceptances payable, the carrying value is generally a reasonable estimate of fair value.

For bills and acceptance payable with maturities of six months or more, the fair values are estimated based on discounted cash flows using prevailing money market interest rates for bills and acceptance payable with similar remaining period to maturity.

Other liabilities

The fair value of other liabilities approximates the carrying value at the statement of financial position date.

Lease liabilities

The estimated fair values of lease liabilities approximates the carrying value at the statement of financial position date.

Recourse obligation on loans and financing sold to Cagamas

The estimated fair values of loans and financing sold to Cagamas with maturities of less than six months approximate the carrying values. For loans and financing sold to Cagamas with maturities six months or more, the fair values are estimated based on discounted cash flows using prevailing market rates for loans and financing sold to Cagamas with similar risk profile.

Bonds, Sukuk and debentures and other borrowings

The estimated fair values of bonds, Sukuk and debentures and other borrowings with maturities of less than six months approximate the carrying values. For bonds, Sukuk and debentures and other borrowings with maturities six months or more, the fair values are estimated based on discounted cash flows using prevailing market rates for bonds, Sukuk and debentures and other borrowings with similar risk profile.

Subordinated obligations

The fair values for the quoted subordinated obligations are obtained from quoted market prices while the fair values for unquoted subordinated obligations are estimated based on discounted cash flow models.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.4 Fair value estimation (Continued)

57.4.2 Fair value of financial assets and liabilities measured at amortised cost (Continued)

Credit related commitment and contingencies

The net fair value of these items was not calculated as estimated fair values are not readily ascertainable. These financial instruments generally relate to credit risks and attract fees in line with market prices for similar arrangements. They are not presently sold nor traded. The fair value may be represented by the present value of fees expected to be received, less associated costs.

57.4.3 Quantitative information about fair value measurements using significant unobservable inputs (Level 3)

Certain credit derivatives products where valuation inputs are unobservable are valued using analytic/semi-analytic pricing models that model credit default with other market variables such as foreign exchange (“FX”) rates in a mathematically and theoretically consistent framework. These valuation models are the usual market standard used in credit derivatives pricing.

Credit derivatives inputs deemed to trigger Level 3 classification:

- Correlation between Credit and FX

Actual transactions, where available, are used to regularly recalibrate such unobservable parameters.

For the purpose of Model Reserve, the following ranges (where applicable) are proposed to be used for calculating such reserves:

- Credit and FX correlation (reserve on a Level 3 input) -
 1. Short Quanto CDS position shocked with larger negative correlation.
 2. Long Quanto CDS position shocked with larger positive correlation.

CIMB Bank Berhad

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

57 Financial Risk Management (Continued)

57.4 Fair value estimation (Continued)

57.4.3 Quantitative information about fair value measurements using significant unobservable inputs (Level 3) (Continued)

- FX Volatility (reserve on valuation model) -
 1. Long volatility shocked with lower volatility.
 2. Short volatility shocked with higher volatility.

Equity derivatives which primarily include over-the-counter options on individual or basket of shares or market indices are valued using option pricing models such as Black-Scholes and Monte Carlo Simulations.

These models are calibrated with the inputs which include underlying spot prices, dividend and yield curves. A Level 3 input for equity options is historical volatility i.e. volatility derived from the shares' historical prices. The magnitude and direction of the impact to the fair value depend on whether the Group is long or short the exposure.

- Higher volatility will result in higher fair value for net long positions.
- Higher volatility will result in lower fair value for net short positions.

**Notes to the Financial Statements
for the financial year ended 31 December 2024 (Continued)****58 The operations of Islamic Banking (Continued)****(f) Islamic derivative financial instruments, commitments and contingencies****(i) Islamic derivative financial instruments**

The following tables summarise the contractual or underlying principal amounts of trading derivative and financial instruments held for hedging purposes. The principal or contractual amounts of these instruments reflect the volume of transactions outstanding at the date of statement of financial position, and do not represent amounts at risk.

Trading derivative financial instruments are revalued on a gross position basis and the unrealised gains or losses are reflected in “Islamic derivative financial instruments” Assets and Liabilities respectively.

**Notes to the Financial Statements
for the financial year ended 31 December 2024 (Continued)****58 The operations of Islamic Banking (Continued)****(f) Islamic derivative financial instruments, commitments and contingencies (Continued)****(ii) Commitments and contingencies**

In the normal course of business, the Group and the Bank entered into various commitments and incurred certain contingent liabilities with legal recourse to their customers.

These commitments and contingencies are not secured over the assets of the Group and the Bank, except for certain financial assets at fair value through profit or loss being pledged as credit support assets for certain over-the-counter derivative contracts.

Treasury related derivative financial instruments are revalued on a gross position basis and the unrealised gains or losses are reflected in “Derivative Financial Instruments” Assets and Liabilities respectively.

The notional/principal amount of the commitments and contingencies constitute the following:

	The Group		The Bank	
	2024	2023	2024	2023

Sale-based contracts**- Murabahah**

A contract of sale of assets at a mark-up price, which includes a profit margin as agreed by the contracting parties. The price, costs and profit margin in Murabahah shall be made transparent and agreed upon between buyer and seller. Income is recognised on effective profit rate basis over the expected life of the contract based on the principal amounts outstanding.

- Bai' al-'inah

A contract of sale and purchase of an asset whereby the seller sells to buyer in cash and subsequently buys back the asset at a marked up and deferred. Income is recognised on effective profit rate basis over the expected life of the contract based on principal amount outstanding.

- Tawarruq vis-à-vis Commodity Murabahah

Tawarruq structure for CIMB Islamic's financing product consists of three (3) sales and purchases transaction. The first involves, the purchase of a commodity by the Bank from Commodity Trader 1, on cash and spot basis. Secondly, the Bank will sell the commodity using Murabahah contract, to customer on deferred basis. Subsequently, the customer will sell the commodity-to-Commodity Trader 2 on cash and spot basis. Finally, the customer will get a cash to finance the customer's needs.

- Bai' Bithaman Ajil

A contract of sale and purchase of an asset in which the payment of price is deferred either be paid in lump-sum or installment basis within an agreed period of time. Income from financing shall be recognised on effective profit rate basis over the expected life of the contract based on principal amount outstanding. Meanwhile, profit expense from deposits shall be recognised on accrual basis by maturity date.

58 The operations of Islamic Banking (Continued)

(g) Financing, advances and other financing/loans (Continued)

(i) By type and Shariah contract: (Continued)

- Bai' al-Dayn

A contract of trading of debt and the outstanding debt may be sold to the debtor or to a third party on cash basis. Income from financing shall be recognised on effective profit rate basis over the expected life of the contract based on principal amount outstanding. Meanwhile, profit expense from deposits shall be recognised on accrual basis by maturity date.

Lease-based contracts

- Ijarah

A lease contract that transfers the ownership of a usufruct of an asset to another party for a specified period in exchange for a rental. Ijarah contract may end with the transfer of the legal title of the leased asset to the lessee is called Ijarah Muntahia bi al-Tamlik (“IMBT”). Effective transfer of the legal title is a consequent to the conclusion of the lease arrangement that can be in the form of a sale or a gift of the asset to the lessee. Al-Ijarah Thumma al-Bai (“AITAB”) is a form of Ijarah Muntahia bi al-Tamlik where the sale of asset to the lessee is executed at the completion of the lease period. Income is recognised on effective profit rate basis over the lease term.

Loan contracts

- Qard

A contract of lending a fungible asset to a borrower who is bound to return an equivalent replacement. No income from financing shall be generated from the transactions.

Rahnu

Rahnu is a contract between a pledgor (rahin) and a pledgee (murtahin) whereby an asset is pledged as collateral (marhun) to the pledgee to provide assurance that the liability or obligation against the pledgee will be fulfilled.

Ujrah

Arrangement that involves payment of a service fee in exchange for the services rendered to customers

(j) Goodwill

	The Group	
	2024	2023
	RM'000	RM'000
Cost		
At 1 January/31 December	136,000	136,000

Goodwill is wholly allocated to the consumer banking cash-generating unit (“CGU”). This CGUs do not carry any intangible assets with indefinite useful life.

Impairment test for goodwill

Value-in-use

The recoverable amount of the CGU is determined based on value-in-use calculations. These calculations use pre-tax cash flow projections based on the 2025 financial budgets approved by the Board of Directors, projected for four years (2025 - 2028) based on the average historical Gross Domestic Product (“GDP”) growth of the country covering a four years period, revised for current economic conditions. Cash flows beyond the four years period are extrapolated using an estimated growth rate of 4.08% (2023: 4.16%). The cash flow projections are derived based on a number of key factors including the past performance and management’s expectation of market developments. The discount rate used in determining the recoverable amount of all the CGU is 9.66% (2023: 10.36%). The discount rate is pre-tax and reflects the specific risks relating to the CGU.

Management believes that no reasonably possible change in any of the key assumptions would cause the carrying value of any CGU to exceed its recoverable amount.

Impairment charge

There was no impairment charge for the financial year ended 31 December 2024 and 31 December 2023.

CIMB Bank Berhad

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

58 The operations of Islamic Banking (Continued)

(n) Deposits from customers (Continued)

Wadiah (Yad Dhamanah)

A safe keeping contract whereby the custodian guarantees payment of the whole amount of deposits, or any part thereof, outstanding in the account of the depositors, when demanded. The depositors are not entitled to any share of the profits (generated from usage of the deposits by the custodian). However, the custodian, at its discretion, may give hibah to the depositors, nevertheless, the hibah shall not be pre-conditioned.

Commodity Murabahah

A contract of sale and purchase of commodities as underlying assets. The customer appoints the Bank to act as the customer's agent for the purchase and sale of the commodity. At the first stage, the buyer will purchase an asset on credit from the original seller, and at the second stage, the buyer will then sell the asset on cash basis to a third party. It is name as Tawarruq because the buyer purchased the asset on credit with no intention of benefitting from it, rather to sell it to obtain cash. Profit expense shall be recognised on accrual basis by maturity date.

Mudharabah

A contract between a capital provider (rabbul mal) and an entrepreneur (Mudharib) under which the rabbul mal provides capital to be managed by the mudharib and any profit generated from the capital is shared between the rabbul mal and mudharib according to mutually agreed Profit Sharing Ratio ("PSR") whilst financial losses are borne by the rabbul mal provided that such losses are not due to the mudharib's negligence (taqsir) or breach of specified terms (mukhalafah al-shurut). Mudharabah contract shall not stipulate a pre-determined fixed amount of profit to one contracting party. This contract is categorized into two types:

- (a) Unrestricted Mudharabah (Mudharabah Mutlaqah) is a contract in which the rabbul mal permits the mudharib to manage the venture without any specific restriction.
- (b) Restricted Mudharabah (Mudharabah Muqayyadah) is a contract in which the rabbul mal imposes specific restriction on the mudharabah terms such as determination of location, period for investment, type of project and commingling of funds.

Profit shall be recognised on accrual basis by actual liquidation of assets of mudharabah contract or constructive basis according to acceptable profit recognition method which may include valuation according to acceptable market methodology, independent valuation or valuation based on estimated figures.

(Incorporated in Malaysia)

Notes to the Financial Statements for the financial year ended 31 December 2024 (Continued)

58 The operations of Islamic Banking (Continued)

(n) Deposits from customers (Continued)

Bai' Bithaman Ajil

A contract of sale and purchase of an asset in which the payment of price is deferred either be paid in lump-sum or instalment basis within an agreed period of time. Profit expense from deposits shall be recognised on accrual basis by maturity date.

Bai' al-Dayn

A contract of trading of debt and the outstanding debt may be sold to the debtor or to a third party on cash basis. Profit expense from deposits shall be recognised on accrual basis by maturity date.

Qard

A contract of lending a fungible asset to a borrower who is bound to return an equivalent replacement. No profit expense from deposits shall be paid from the transactions.

Tawarruq vis-à-vis Commodity Murabahah

Tawarruq structure for CIMB Islamic's financing product consists of three (3) sales and purchases transaction. The first involves, the purchase of a commodity by the Bank from Commodity Trader 1, on cash and spot basis. Secondly, the Bank will sell the commodity using Murabahah contract, to customer on deferred basis. Subsequently, the customer will sell the commodity to Commodity Trader 2 on cash and spot basis. Finally, the customer will get a cash to finance the customer's needs.

Mudharabah

This category comprises restricted and unrestricted investment accounts. The placements from investment accounts that are used to fund specific financing are called Restricted Profit Sharing Investment Accounts (“RPSIA”). The RPSIA and unrestricted investment accounts are a contract based on the Shariah concept of Mudharabah between two parties, i.e. investor and entrepreneur to finance a business venture where the investor provides capital and the business venture is managed solely by the entrepreneur. The profit of the business venture will be shared based on pre-agreed ratios with CIMB Islamic as Mudharib (manager or manager of funds), and losses shall be borne solely by investors.

Wakalah

Daily Investment Account-i is a daily investment account based on a Wakalah bi al-istithmar contract, agreed between the customers as capital providers (principal) and CIMB Islamic as an investment agent whereby CIMB Islamic will channel the funds in investment assets which are Shariah compliant. The profit distribution is after deducting the agency fee and any agreed performance incentive fee to CIMB Islamic (if any). The principal may agree to the agent retaining all or part of the excess profit as performance incentive fee if the actual profit is higher than the indicative profit. Any losses (if any) shall be borne by the customer, provided that such losses are not due to CIMB Islamic’s misconduct (Ta’addi), negligence (Taqsir), or breach of specific terms (Mukhalafah al-Shurut). Daily Investment Account-i is classified as unrestricted investment accounts.

Perpetual preference shares:		
At 1 January/31 December	<u>350,000</u>	<u>350,000</u>

The preference shares shall rank pari passu among themselves, and in priority to the ordinary shares.

Each preference share shall on a winding-up or other return of capital confer on its holder the right to receive, in priority to the holders of ordinary shares, the cash repayment in full the nominal amount and premium payable of that preference share after the payment and discharge of all debts and liabilities of CIMB Islamic and the costs of winding up or such capital reduction exercise.

A preference share shall not entitle its holder to participate in the surplus assets and profits of CIMB Islamic beyond such redemption rights as are expressly set out in these Articles.

CIMB Islamic may declare dividends on any of the preference shares.

The preference shares are not convertible to ordinary shares or any other class of share of CIMB Islamic.

On 14 January 2023, CIMB Islamic has redeemed RM70 million Basel II Additional Tier 1 Perpetual Preference Shares from CIMB Bank Berhad.

(y) Reserves

- (a) Regulatory reserve of the Group is maintained by the banking subsidiaries in Malaysia, which is transferred from the retained earnings, as an additional credit risk absorbent to ensure robustness on the loan impairment assessment methodology with the adoption of MFRS 9 beginning 1 January 2018.

BNM Guidelines on Financial Reporting for Islamic Banking Institutions requires banking institutions to maintain in aggregate, loss allowance for non-credit-impaired exposures and regulatory reserve of no less than 1% of total credit exposures, net of loss allowance for credit-impaired exposures.

- (b) Share-based payment reserve arose from the Employee Ownership Plan, the Group's share-based compensation benefits.
- (c) Exchange translation differences have arisen from translation of net assets of foreign subsidiaries, Labuan offshore banking subsidiary and the Bank's foreign branches. These translation differences are shown under exchange fluctuation reserve.
- (d) For debt instruments at fair value through other comprehensive income ("FVOCI"), changes in fair value are accumulated within the financial assets at FVOCI reserve within equity. The accumulated changes in fair value are transferred to profit or loss when the investment is disposed of.
- (e) Changes in fair value of financial liabilities designated at fair value relating to the Group's own credit risk are recognised in other comprehensive income. These changes are also accumulated within own credit risk reserve within equity.

	<u>1,241,607</u>	<u>830,893</u>	<u>-</u>	<u>-</u>

RAIA is an arrangement between CIMB Bank and CIMB Islamic, and the contract is based on the Wakalah principle where CIMB Bank provides the funds, whilst the assets are managed by CIMB Islamic (as the Wakeel or agent). In the arrangement, CIMB Islamic has transferred substantially all the risk and rewards of ownership of the Investment (i.e. the financing facility) to CIMB Bank. Accordingly, the underlying assets (including the undisbursed portion of the financing commitment) and allowance for impairment arising thereon, if any, are recognised and accounted for by CIMB Bank.

	38,648	38,188	6,595	6,562

¹ The long term incentive plan ("LTIP") was implemented by CIMB Group Holdings in June 2021. The LTIP awards ordinary shares and share options of CIMB Group to eligible employees of the Group and the Bank. The eligibility of participation in the LTIP shall be at the discretion of the LTIP Committee of CIMB Group Holdings Berhad, and the awarded shares and share options will be vested in stages at predetermined dates subject to continued employment and performance conditions. Refer note 45(g).

² Included in salaries, allowances and bonuses is shared-based payment expense (EOP) of RM7,019 (2023: RM7,019) for the group. Refer note 45(f).

Included in the personnel costs are fees paid to the Shariah Committee's members amounting to RM676,000 (2023: RM700,000).
